*Linguistic Representation* J.F. Rosenberg, 2012-12-06 This book is nominally about linguistic representation But since it is we who do the representing it is also about us And since it is the universe which we represent it is also about the universe In the end then this book is about everything which since it is a philosophy book is as it should be I recognize that it is nowadays unfashionable to write books about every thing Philosophers of language it will be said ought to stick to writing about language philosophers of science to

writing about science epistemologists to writing about knowing and so on The real world however perversely refuses to carve itself up so neatly and although I recognize that the real world is nowadays also unfashionable in the end I judged that one might get closer to the truth of various matters by going along with it So I have done so It was Wilfrid Sellars who initially convinced me of the virtues of this way of proceeding At this point one normally says something like The debt that this book owes him is immense I would say it too were it not to understate the case From Wilfrid I learned to think about things If the upshot of my thinking tends as it obviously does to show a general consonance with the upshot of his it is primarily because he is so very good at it and he had a head start     Come, the Restorer William Goyen,1996 William Goyen's fifth novel is a fable of Texas country life in the first half of the twentieth century portraying religious revivalism and the money madness and ecological destruction caused by the oil boom His narrative is composed of the brief linked episodes and tales that are Goyen's trademark and is written with an ear for the rhythms of regional speech that was his particular gift
