moment in American literary culture that McCarthy terms the Blue Period In McCarthy s hands this notion of the Blue Period provides a fresh critical framework that challenges long held disciplinary and archival assumptions Black writers in the early Cold War went underground McCarthy argues not to depoliticize or liberalize their work but to make it more radical keeping alive affective commitments for a future time New York Magazine ,1994-03-14 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea Despotism Vs.
