Philip M. Bromberg

Blink The Power Of Thinking Without Thinking:

Blink Malcolm Gladwell, 2006-02-23 Intuition is not some magical property that arises unbidden from the depths of our mind. It is a product of long hours and intelligent design of meaningful work environments and particular rules and principles. This book shows us how we can hone our instinctive ability to know in an instant, helping us to bring out the best in our thinking and become better decision makers in our homes, offices, and in everyday life. Just as he did with his revolutionary theory of the tipping point, Gladwell reveals how the power of blink could fundamentally transform our relationships, the way we consume, create, and communicate, how we run our businesses, and even our societies. You'll never think about thinking in the same way again. *Summary of Blink* Readtrepreneur Publishing, 2019-05-24 **Blink The Power of Thinking Without Thinking** By Malcolm Gladwell Book Summary Readtrepreneur Disclaimer: This is NOT the original book but an unofficial summary. Have you experienced those moments when you just know something but can never seem to explain how you came to know it? Malcolm Gladwell explores our behavior of making decisions in the blink of an eye, and it is not as simple as following your gut feeling. Blink reveals to us why thin slicing, as compared to having a lot of information about a subject, may be the most effective method in making good judgments. Note: This summary is wholly written and published by Readtrepreneur. It is not affiliated with the original author in any way. Truly successful decision making relies on a balance between deliberate and instinctive thinking. Malcolm Gladwell: We will look at some of the great failures and successes that resulted when using instinctive thinking and understand why some people are excellent decision makers while some are terrible at it. With Blink, we will understand the factors that matter, which will help us make the best possible decisions and make good snap judgments. P.S. Truly riveting and thought provoking; we will be one step closer to understanding our complex brains and the decision-making process. The Time for Thinking is Over; Time for Action. In his landmark bestseller *The Tipping Point*, Malcolm Gladwell redefined how we understand the world around us. Now in *Blink*, he revolutionizes the way we understand the world within. Blink is a book about how we think without thinking about choices that seem to be made in an instant in the blink of an eye that actually aren't as simple as they seem. Why are some people brilliant decision makers while others are consistently inept? Why do some people follow their instincts and win while others end up stumbling into error? How do our brains really work in the office, in the classroom, in the kitchen, and in the bedroom? And why are the best decisions often those that are impossible to explain to others? In *Blink*, we meet the psychologist who has learned to predict whether a marriage will last based on a few minutes of observing a couple, the tennis

coach who knows when a player will double fault before the racket even makes contact with the ball the antiquities experts who recognize a fake at a glance Here too are great failures of blink the election of Warren Harding New Coke and the shooting of Amadou Diallo by police Blink reveals that great decision makers aren't those who process the most information or spend the most time deliberating but those who have perfected the art of thin slicing filtering the very few factors that matter from an overwhelming number of variables Available in a variety of formats this summary is aimed for those who want to capture the gist of the book but don't have the current time to devour all 288 pages You get the main summary along with all of the benefits and lessons the actual book has to offer This is a summary that is not intended to be used without reference to the original book

Bromberg,2013-06-17 In *Awakening the Dreamer* Clinical Journeys Philip Bromberg continues the illuminating explorations
into dissociation and clinical process begun in *Standing in the Spaces* 1998 Bromberg is among our most gifted clinical
writers especially in his unique ability to record peripheral variations in relatedness those subtle split second changes that
capture the powerful workings of dissociation and chart the changing self states that analyst and patient bring to the moment
For Bromberg a model of mind premised on the centrality of self states and dissociation not only offers the optimal lens for
comprehending and interpreting clinical data it also provides maximum leverage for achieving true intersubjective
relatedness And this manner of looking at clinical data offers the best vantage point for integrating psychoanalytic

experience with the burgeoning findings of contemporary neuroscience cognitive and developmental psychology and attachment research Dreams are approached not as texts in need of deciphering but as means of contacting genuine but not yet fully conscious self states From here he explores how the patient's dreamer and the analyst's dreamer can come together to turn the real into the really real of mutative therapeutic dialogue The difficult frequently traumatized patient is newly appraised in terms of tensions within the therapeutic dyad And then there is the haunted patient who carries a sense of preordained doom through years of otherwise productive work until the analyst can finally feel the patient's doom as his or her own Laced with Bromberg's characteristic honesty humor and thoughtfulness these essays elegantly attest to the mind's reliance on dissociation in both normal and pathological variants in the ongoing effort to maintain self organization Awakening the Dreamer no less than Standing in the Spaces is destined to become a permanent part of the literature on therapeutic process and change
