Blood On The Yangtze:

Blood on the Yangtze Barbara S. Locke, 2000 **China's State Ideology and the Three Gorges Dam** Yuen-ching Bellette Lee, 2025-06-13 This book uses the case of the Three Gorges Dam project to explore the Chinese state's use of ideology namely the political theodicy of development as a governing tactic in the reform era. Presenting observations from fieldwork collected after the dam's completion it reveals communities who not only embraced their improved livelihoods but also expressed support for the mega project and the Party's leadership. However the research also indicates that the effects of the ideological dissemination surrounding the project were not monolithic with the development process involving extensive struggles and contradictions including locals facing unemployment and the fragmentation of their social networks. This disjuncture between the state ideology and social reality thus revealed flaws in the official imperative of political theodicy. Displaying how the authoritarian rule of the Chinese state can be adaptive in modifying its mode of governance especially when faced with the unintended consequences of failures this book will be a valuable resource to students and scholars of Asian environment development politics and Chinese politics history and society Amazing Adventures of a Heart Surgeon Domingo Liotta, 2007 The startling originality of *Amazing Adventures of a Heart Surgeon* is intrinsically imbued in its focus on historical ethics and esthetic theories. Author and cardiovascular surgeon Domingo Liotta provides a penetrating interpretation from the first millennium BC considered a major mystery to the world to modern science. He also discusses the early conception of cardiovascular system the oxygenation of tissues the mysterious medical power of shamanism Taoism Ugarit the mythic lost city. It is in this unique melding of Science and humanism that Liotta vehemently intends the definition of a good medical doctor while recounting the story of his remarkable life. These lectures portray Liotta's dedication in search of the hearts of studious and meditative youths reluctant to change their tools of comprehension and the strategies for mastering difficult to understand topics. Thus Liotta's interests extend from pure science to many adjoining fields such as philosophy philology theology and education. He shares his knowledge of modern scientific results and his enormous historical information to help rescue his bewildered students. In a collaborative endeavor between science and humanities *Amazing Adventures of a Heart Surgeon* reflects Liotta's marvelous adventure to develop the first totally artificial heart and its clinical application the first in the history of mankind in his tireless fight for human life **Chinese Traditional Healing (3 vols)** Paul Unschuld, Jinsheng ZHENG, 2014-05-09 Research on past knowledge practices personnel and institutions of Chinese health care has focussed on printed text for many decades. The Berlin collections of handwritten Chinese volumes on health and healing from the past 400 years provide a hitherto unprecedented access to a wide range of data. They extend the reach of medical historiography beyond the literature written by and for a small social elite to the reality of health care as practiced by private households lay healers pharmacists professional doctors magicians itinerant healers and others. The nearly 900 volumes surveyed here for the first time demonstrate the heterogeneity of Chinese

traditional healing They evidence the continuation of millennia old therapeutic approaches long discarded by the elite and they show continuous adaptation to more recent trends

Revolutionary Waves Tie Xiao, 2020-10-26 During China's transition from dynastic empire to nation state the crowd emerged as a salient trope Intellectuals across the ideological spectrum have used the crowd trope to ruminate on questions of selfhood and nationhood and to advance competing models of enlightenment and revolution *Revolutionary Waves* analyzes the centrality of the crowd in the Chinese cultural and political imagination and its global resonances by delving into a wide range of fiction philosophy poetry and psychological studies Bringing together literary studies intellectual history critical theory and the history of human sciences this interdisciplinary work highlights unexplored interactions among emerging social scientific forms of knowledge new aesthetic modes of representation and changing political imperatives The work brings into relief the complexities of the modern Chinese crowd discourse which generated subjectivities and oriented actions enabled as well as constrained the expression of togetherness and thus both expanded and limited the horizon of political possibilities in the emerging age of mass politics The first in depth examination of the aesthetics and politics of the crowd in modern Chinese literature and thought *Revolutionary Waves* raises questions about the promise and peril of community as communion and reimagines collective life in China's post socialist present

Madhan Balasubramanian,Angie Shafei,Zhanming Liang,2024-06-19 Population aging is a consistent global demographic trend The growth in both the size and proportion of older adults has threatened the sustainability of health systems in meeting healthcare needs of the population Countries in the Asia Pacific Region may face even more complex health system challenges due to the diversity in culture management and leadership styles composition of health service provision investment in research infrastructure and innovation adaptation data availability and gaps in information technology The Evolution of Chinese Popular Music

Ya-Hui Cheng,2023-04-14 Ya Hui Cheng examines the emergence of popular music genres jazz rock and hip hop in Chinese society covering the social underpinnings that shaped the development of popular music in China and Taiwan from imperialism to westernization and from modernization to globalization The political sensitivities across the strait have long eclipsed the discussion of these shared sonic intimacies It was not until the rise of the digital age when entertainment programs from China and Taiwan reached social media on a global scale that audiences realized the existence of this sonic reciprocation Analyzing Chinese pentatonicism and popular songs published from 1927 to the present this book discusses structural elements in Chinese popular music to show how they aligned closely with Chinese folk traditions While the influences from Western genres are inevitable under the phenomenon

of globalization Chinese songwriters utilized these Western inspirations to modernize their musical traditions It is a sensitivity for exhibiting cultural identities that enabled popular music to present a unique Chinese global image while transcending political discord and unifying mass cultures across the strait

Water Policy Entrepreneurs Sander Meijerink, 2009 Unsurpassed in the scope of its coverage this book explores like no other the roles of policy entrepreneurs and the causes of policy change across diverse political systems ranging from the developing world to the largest western democracies The studies show how entrepreneurs work with outside donors take advantage of windows of political opportunity create those windows and push the policy process in the direction they hope They also show the limits to these strategies and strategies that tend to fail The book dramatically advances our understanding not only of change and stability in water policy but of the policy process more generally Frank R Baumgartner University of North Carolina US This book is a theoretically and empirically grounded analysis of one of the world's most pressing problems the management of water resources The editors have assembled a remarkable collection of authors with a truly global outlook and an excellent grasp of contemporary water issues as well as modern theories of public policy and decision making The volume also demonstrates excellent applications of policy theory to current and pressing matters It is a must read for students and practitioners in water resources and will be influential to water policy and in environmental resource management and policy for years to come Thomas A Birkland North Carolina State University US This volume is a major achievement It advances our knowledge of stability and change in water policy through case studies from around the world Its focus on transitions instances of really major shifts in policy is particularly welcome at a time when challenges such as climate change force water policy makers to reconsider the very foundations of their regulatory frameworks and infrastructural policies The volume goes beyond water policy however It makes a major contribution to the study of policy dynamics in general by offering an empirically grounded comparative analysis of policy entrepreneurs as change agents in policy networks There has been much loose talk about policy entrepreneurs in the fields of public administration and public policy but a dearth of empirical work underpinning the various claims made This volume goes a long way towards filling that gap Highly recommended for water experts and policy scientists alike Paul t Hart Australian National University Australia and Utrecht University the Netherlands This major volume focuses on the role of policy entrepreneurs in revolutionizing water management worldwide Adopting an international comparative perspective the authors explore the changes taking place in water policy across fifteen countries at both the global level and within the European Union Their analysis highlights the importance of groups and individuals in stimulating progress and reveals the crucial part played by policy entrepreneurs Successful entrepreneurs use various strategies to initiate and implement change including the framing and reframing of issues the assembly of coalitions venue shopping and the exploitation of windows of opportunity In showcasing the role of entrepreneurs in achieving transitions and explaining their approach this groundbreaking book presents an optimistic message for those who desire improvements in

the way water is managed This book will not only make a unique contribution to the current literature on transition management but will also prove an invaluable tool for those keen to influence water policy management at the regional national and international level It will be of great interest to students and scholars of water resources and environmental management and governance as well as practitioners in the fields of water and climate policy **10 Years of frontiers in genetics: Past discoveries, current challenges and future perspectives** William C.
