Blood Posse:

Blood Posse Phillip Baker, 1994 **Blood, Soil and Art** Marilyn Ekdahl Ravicz, 2006-06

The years immediately preceding World War II in Italy were full of social changes the phenomenal growth of Fascism and the confusing death of old ideas values and classes New dangers and challenges burgeoned until it seemed as if the frantic energy of a masquerade ball prevailed with everyone wearing fancy uniforms and dreaming of conquest In neighboring Germany the ranting and rampaging birth of Nazi ideas was followed by Hitler's lightning strike invasions of European neighbors These strikes were aimed to gain land and power change old ideas entrench and strengthen pure Aryan racially grounded Nazi values as well as destroy anything or anyone not compatible with the goals of the glorious Third Reich Aware that artworks embody ideals and educate people through their symbolic power the Nazis engaged in a multi faceted program dedicated to destroy all artworks inconsistent with their views and to substitute only art and architecture that idealized Aryan purity and Nazidom To that end they developed organizations and programs built museums filled them with carefully vetted art outlawed all avant garde and non Aryan artists and proceeded to loot desirable artworks from occupied countries They then stored or displayed their loot in their palaces or museums as fodder for propaganda and self aggrandizement Hitler Goring and many other high ranking Nazi leaders were deeply involved with these efforts as well as the rewriting of history to conform to their putative glory through adopted symbols Meanwhile when the war continued to drag its bloody traces over occupied countries Italians discovered just how terrifying it was to be a Nazi ally Fascism faded as battles and air strikes continued and victories faltered for the Axis Italians suffered from a lack of life supporting supplies or shelter many youths and old men were conscripted into German work camps hungry and homeless refugees swarmed into the cities and partisans gathered in the hills ready to become guerilla warriors against the Nazis Slowly at first and hedged about with lies information about Nazi art thefts in other countries seeped into the consciousness of concerned Italians As they became increasingly worried about reports of forced sales and actual looting of Italy's artistic heritage a small band of dedicated Italians self named the Salvatores made a pact to engage in a series of dangerous acts and subterfuges in order to hide Italian artworks in *ricoveri* and save them from German theft Because Florence was a center of much Renaissance art and architecture and because it did not have a Vatican in which to store artworks safely the Salvatores struggled on independently with their clandestine rescue efforts to inventory and hide artworks The little band comprised an odd group wealthy Duke di Bergolini his adoptive son Ortolani a castrato opera singer Ortolani's Benedictine brother two young women of talent two Tuscan museum officials who were art historians a few helpful Italians and even two German officials who became virtual double agents Against difficult odds and in the face death threats or potential seizure and torture they struggled and continued to inventory and shelter artworks to track their trails when stolen and to prevail until peace returned By August of 1944 after Mussolini was dethroned and German backed neo Fascism was only a Nazi puppet government it was apparent to everyone but the most rabid Nazis that Germany had lost

the war Even then SS Officers and contingents from Goring s brigades loaded art from discovered ricoveri into trucks and drove them to northern Italy which was under complete German control and occupation The storage locations for the looted art were kept secret from the Italians until the war ended As the Allies approached the great city of Florence the withdrawing Nazis mined and destroyed some of the most precious medieval and renaissance buildings and bridges

Blood and Politics Leonard Zeskind,2009-05-12 More than fifteen years in the making *Blood and Politics* is the most comprehensive history to date of the white supremacist movement as it has evolved over the past three plus decades Leonard Zeskind draws heavily upon court documents racist publications and first person reports along with his own personal observations An internationally recognized expert on the subject who received a MacArthur Fellowship for his work Zeskind ties together seemingly disparate strands from neo Nazi skinheads to Holocaust deniers to Christian Identity churches to David Duke to the militia and beyond Among these elements two political strategies mainstreaming and vanguardism vie for dominance Mainstreamers believe that a majority of white Christians will eventually support their cause Vanguardists build small organizations made up of a highly dedicated cadre and plan a naked seizure of power Zeskind shows how these factions have evolved into a normative social movement that looks like a demographic slice of white America mostly blue collar and working middle class with lawyers and Ph D s among its leaders When the Cold War ended traditional conservatives helped birth a new white nationalism most evident now among anti immigrant organizations With the dawn of a new millennium they are fixated on predictions that white people will lose their majority status and become one minority among many The book concludes with a look to the future elucidating the growing threat these groups will pose to coming generations **Gods of**

Cleansing Honor with Blood Martha Santos,2012-01-11 This book offers a critical reinterpretation of male violence patriarchy and machismo in rural Latin America It focuses on the lives of lower class men and women known as sertanejo as in the hinterlands of the northeastern Brazilian province of Cear between 1845 and 1889 Challenging the widely accepted depiction of sertanejos as conditioned to violence by nature culture and climate Santos argues that their concern with maintaining an honorable manly reputation and the use of violence were historically contingent strategies employed to resolve conflicts over scant resources and to establish power over women and other men She also traces a shift in the functioning of patriarchy that coincided with changes in the material fortunes of sertanejo families As economic dislocation environmental calamity and family separation led to greater female autonomy and an erosion of patriarchal authority in the home public and often violent enforcement of male power maintained patriarchal order in these communities **An**

anatomical dissertation upon the movement of the heart and blood in animals William Harvey,1894 **Blood in the Hills** Bruce Stewart,2012-01-01 To many antebellum Americans Appalachia was a frightening wilderness of lawlessness peril

robbers and hidden dangers The extensive media coverage of horse stealing and scalping raids profiled the region's residents as intrinsically violent After the Civil War this characterization continued to permeate perceptions of the area and news of the conflict between the Hatfields and the McCoys as well as the bloodshed associated with the coal labor strikes cemented Appalachia's violent reputation *Blood in the Hills A History of Violence in Appalachia* provides an in depth historical analysis of hostility in the region from the late eighteenth to the early twentieth century Editor Bruce E Stewart discusses aspects of the Appalachian violence culture examining skirmishes with the native population conflicts resulting from the region's rapid modernization and violence as a function of social control The contributors also address geographical isolation and ethnicity kinship gender class and race with the purpose of shedding light on an often stereotyped regional past *Blood in the Hills* does not attempt to apologize for the region but uses detailed research and analysis to explain it delving into the social and political factors that have defined Appalachia throughout its violent history

Blood in the Wilderness Jack Edward Shay, 1998-09-11 Early August 1799 A wilderness clearing along the Mud River a few miles northeast of Russellville a small town in the vast nearly unbroken frontier of western Kentucky A pioneer family has stopped to rest Two men Three women Three babies A string of pack horses It has been an exhausting journey a dangerous one at times The men are about thirty the women some five to ten years younger

Each woman has a baby her own child The children two girls and a boy range from four to six months in age The day is hot The shallow river is cool Shade trees provide a measure of relief from the sticky humidity the baking heat The men stretch out along the banks of the river The women tend to their children s needs then place them down and stretch out themselves Everyone drinks from the stream They have been traveling forever Or at least it seems that way They re tired They just want to rest before they must move out again always pushing on always in search of their destination in an unforgivingly harsh wilderness battling tremendous odds against their very survival They carry all their worldly possessions with them True pioneers they live off the land taking from it what they need to eke out another day of life in the new American world of democracy and free enterprise Suddenly one of the babies cries It is one of the girls this one only four months old One of the men rouses himself from his rest He makes his way to the crying infant The man is both a husband and a father and he is with his family A touching scene seems about to ensue A father lovingly tending his irritable child all alone in the wilderness A loving man doting on his daughter s needs He picks the child up But this is no ordinary family And this is no ordinary man The man is Micajah Harp and he is wanted by the law Even at this moment there is a price on his head and posses are after him They might hear the wail of the infant and swoop down on the family and arrest them Micajah must do something He must silence the baby He picks the child up by her feet and swings her against the side of the tree Her head smashes against the unrelenting wood The breath of life leaves her instantly He then tosses the lifeless body into the woods He signals the rest of the family to rise to their feet They do so and the family moves deeper into the wilderness They are the Harps America s first and most brutal serial killers God help anyone who gets in their way They were the most brutal monsters of the human race to those who knew them ruthless and indiscriminate barbarians terrorizing an innocent America unconscionable brutes inflicting savagery upon anyone they encountered They sought little in life save the very survival necessary to maintain their bloodlust It mattered little where or with whom they lived They cheated and tormented at will and killed for the sake of killing Their adult lives became a continual exercise in abject unrepentant evil During a reign of horror engulfing Kentucky Tennessee and Illinois they became the scourge of the late 18th century American frontier They killed anywhere from two dozen to four dozen men women and children before justice caught up with them They were the historical prototypes of later killers Billy the Kid Bonnie and Clyde and Jeffrey Dahmer but they far exceeded them in brutality and criminal enormity They were the Harps Micajah the older and bigger Wiley the younger and smaller Big Harp and Little Harp as they were commonly called And they were America s first serial killers This is their story Blood in the Wilderness The Story of the Harps America s First Serial Killers includes a bibliography of seventy five sources It results from years of research and visits to all the sites associated with t
