Philip F. Williams, Yenna Wu, 2004-08-17 China is the only major world power to have entered the twenty first century with a thriving prison camp network a frightening mostly hidden realm known since 1951 as the laogai system This book the most comprehensive study of China's

prison camps to date draws from a wide range of primary sources including many compelling literary documents to illuminate life inside China's prison camps. Focusing mainly on the second half of the twentieth century, Philip F. Williams and Yenna Wu outline the evolution of the laogai system, construct a vivid picture of prisoners' lives from arrest and interrogation to release, and provide a troubling new perspective on the human rights issues plaguing China. *The Chinese Historical Review*, 2007. V.K. Wellington Koo and the Emergence of Modern China. Stephen G. Craft, 2014-10-17. Chinese diplomat V.K. Wellington Koo (1888-1985) was involved in virtually every foreign and domestic crisis in twentieth-century China. After earning a Ph.D. from Columbia University, Koo entered government service in 1912, intent on revising the unequal treaty system imposed on China in the nineteenth century, believing that breaking the shackles of imperialism would bring China into the family of nations. His pursuit of this nationalistic agenda was immediately interrupted by Chinese civil war and Japanese imperialism during World War I. In the 1930s, Koo attempted to use international law to force western powers to honor their treaty obligations to punish Japanese expansion. Koo also participated in creating the League of Nations and later the United Nations in the hope that collective security would become reality. *Bibliographic Index*, 1995. *Space, Politics, and Cultural Representation in Modern China*. Enhua Zhang, 2016-12-08. Regarding revolution as a spatial practice, this book explores modes of spatial construction in modern China through a panoramic overview of major Chinese revolutionary events and a nuanced analysis of cultural representations. Examining the relationship between revolution, space, and culture in modern China, the author takes five spatially significant revolutionary events as case studies: the territorial dispute between Russia and the Qing dynasty in 1892, the Land Reform in the 1920s, the Long March (1934-36), the mainland-Taiwan split in 1949, and the Cultural Revolution (1966-76), and analyses how revolution constructs, conceives, and transforms space. Using materials associated with these events, including primarily literature as well as maps, political treatises, historiography, plays, film, and art, the book argues that, in addition to redirecting the flow of Chinese history, revolutionary movements operate in and on space in three main ways: maintaining territorial sovereignty, redefining social relations, and governing an imaginary realm. Arguing for reconsideration of revolution as a reorganization of space as much as time, this book will appeal to students and scholars of Chinese culture, society, history, and literature. *China Review International*, 1995. **Red at Heart**. Elizabeth McGuire, 2018. From a debut author, an intimate multigenerational narrative of the Russian and Chinese revolutions through the eyes of the Chinese youth who traveled to the Soviet Union and the fate of their blended offspring. *Politics in China*. William A. Joseph, 2010. Sixty years ago, China was one of the poorest countries in the world, populated mostly by rural peasants and still suffering from more than a century of internal turmoil and international humiliation. Today, China is a rapidly modernizing economic dynamo with growing global influence. *Politics in China* is an authoritative introduction to how this transformation occurred and how China is governed today. Written by an international team of highly regarded China scholars, each chapter offers an accessible overview of a key topic in Chinese politics. The

opening section provides readers with a firm grounding in China's modern political history from the fall of the last imperial dynasty through era of communist rule under Mao Zedong Deng Xiaoping and their successors The next section covers the political system with chapters on Communist Party ideology the structure of the political system and the policies behind the country's spectacular economic performance The book then focuses on several major issues in China today politics in the countryside and the cities the arts the environment public health and population policy The final chapters cover politics in four important areas located on China's geographic periphery Tibet Xinjiang Hong Kong and Taiwan Comprehensive and fully up to date in its coverage Politics in China is essential not only for students studying contemporary China but for any reader interested in learning how this rising power has evolved in recent times and the workings of its current political system

China's Rise in Historical Perspective Brantly Womack, 2010-07-16 China with its geographical historical cultural and political distance from the West long has been a black box upon which we readily paste labels communist non Western developing country but whose internal logic remains a mystery to us Arguing that it would be a major step forward in our genuine knowledge of China if we understood its internal dynamic this innovative book considers China from a historical perspective to chart its current dynamic and future direction Renowned historians economists and political scientists explore the internal dynamic of China's rise since traditional times through the key themes of China's identity security economy environment energy and politics Each themed section pairs a historian with a social scientist to give an overall view of where China is coming from and where it is heading One of the PRC's best known experts on international relations provides a concluding reflection on the political psychology of China's view of itself in the world Although a China centered perspective does not yield clear absolute truths about China's rise focusing on change in the PRC from pre modern times to the present allows us to distinguish between China's own dynamic and its relative change of position vis vis other actors including ourselves Written in clear and accessible style this nuanced book will be essential reading for all readers interested in China past and present and its growing global role Contributions by Lowell Dittmer Erica S Downs Mark Elvin Joseph W Esherick Joseph Fewsmith Barry Naughton Dwight H Perkins Qin Yaqing Evelyn S Rawski R Keith Schoppa Michael D Swaine and Brantly Womack **Journal of Asian History**, 1997 *Lingua Franca*, 1996 **Intertwining Threads**
