Loving Arms Karen Schneider, 2014-07-15 Loving

Arms examines the war related writings of five British women whose works explore the connections among gender war and story telling While not the first study to relate the subjects of gender and war it is the first within a growing body of criticism to focus specifically on British culture during and after World War II Evoking the famous St Crispin s Day speech from Henry V and then her own father s account of being moved to tears on V J Day because he had been too young to fight Karen Schneider posits that the war story has a far reaching potency She admits perhaps for all of us that such stories had powerfully shaped my consciousness in ways I could not completely resist How a story is narrated and by whom are matters of no small importance As widely defined and accepted war stories are men s stories If we are to hear an other story of war then we must listen to the stories women tell Many of the war stories written by women insist that war is not the condition of men but rather the condition of humanity beginning with relations between the sexes For the five women whose work is examined in *Loving Arms* Stevie Smith Katharine Burdekin Virginia Woolf Elizabeth Bowen and Doris Lessing this latter point was particularly relevant Their positions as women within a patriarchal militarist culture that was externally threatened by an overtly fascist one led to an acute ambivalence says Schneider Though all five women perceived the war from substantially different perspectives each in her own way exposed and critiqued the seductive power of war and war stories with their densely interwoven tropes of masculinity and nationalism Yet these writers conflicting impulses of loyalty to England and resistance to the war betray their ambivalence *Loving Arms* will interest students of twentieth century British literature and culture gender studies and narratology Even today we maintain an unabated love affair with the war story But unless we listen to what the women had to say fifty years ago we are doomed to hear only the same old story

Bhagwati, 2020-03-03. Brimming with the ebullient Bhagwati's fierce humanism, seething humor, and change-maker righteousness, *Shelf Awareness* is a raw, unflinching memoir by a former US Marine Captain chronicling her journey from dutiful daughter of immigrants to radical activist fighting for historic policy reform. After a lifetime of buckling to the demands of her strict Indian parents, Anuradha Bhagwati abandons grad school in the Ivy League to join the Marines, the fiercest, most violent, most masculine branch of the military, determined to prove herself there in ways she couldn't before. Yet, once training begins, Anuradha's GI Jane fantasy is punctured. As a bisexual woman of color in the military, she faces underestimation at every stage, confronting misogyny, racism, sexual violence, and astonishing injustice perpetrated by those in power. Pushing herself beyond her limits, she also wrestles with what drove her to pursue such punishment in the first place. Once her service concludes in 2004, Anuradha courageously vows to take to task the very leaders and traditions that

cast such a dark cloud over her time in the Marines Her efforts result in historic change including the lifting of the ban on women from pursuing combat roles in the military Bhagwati's fight is both incensing and inspiring Booklist in this tale of heroic resilience and grapples with the timely question of what exactly America stands for showing how one woman learned to believe in herself in spite of everything

The Blood We Shed William Christie, 2011-03 The United States Marine Corps is a legendary fighting force Literally thousands of books and movies have glorified its history But now a Marine veteran has written a novel that opens up the curtain and provides a look deep inside the modern Corps the good the bad and the sometimes just plain embarrassing Lieutenant Mike Galway takes command of his first platoon and it is not at all what he bargained for What he anticipated was the challenge of training a unit of disciplined Marine infantrymen to go to war Instead he finds himself responsible for a group of unruly American teenagers for whom he has to become a combination of surrogate father psychologist high school principal marriage counselor financial advisor conflict mediator and drug and alcohol therapist The results are frequently hilarious always frustrating and sometimes heartbreakingly tragic While Galway learns the secrets of leadership he and his men are overtaken by the events of September 11 2001 and the time for playing war is over Now at the place where Marines always expect to be the tip of the spear the men of Echo company deploy aboard ship and race towards the Middle East There they find themselves fighting the first battle of a war that continues to this day in a place none of them could expect

The Leatherneck, 1994 *G.I. Messiahs* Jonathan H. Ebel, 2015-11-24 Jonathan Ebel has long been interested in how religion helps individuals and communities render meaningful the traumatic experiences of violence and war In this new work he examines cases from the Great War to the present day and argues that our notions of what it means to be an American soldier are not just strongly religious but strongly Christian Drawing on a vast array of sources he further reveals the effects of soldier veneration on the men and women so often cast as heroes Imagined as the embodiments of American ideals described as redeemers of the nation adored as the ones willing to suffer and die that we the nation may live soldiers have often lived in subtle but significant tension with civil religious expectations of them With chapters on prominent soldiers past and present Ebel recovers and re narrates the stories of the common American men and women that live and die at both the center and edges of public consciousness
