**Typos** Leonhard Goppelt, 1982-10-06 This is a print on demand book and is therefore non returnable In 1938 39 Leonhard Goppelt finished his doctoral dissertation at Erlangen entitled *Typos Die typologische Deutung des Alten Testaments im Neuen* The lasting value of his work was evidenced in 1969 when this dissertation was reprinted with an appendix on Apocalypticism and Typology in Paul Goppelt s work has maintained its significance because it

deals with biblical hermeneutics the study of the methodology of biblical interpretation a subject of renewed interest in the last few years In his search for a normative hermeneutics Goppelt appeals to the New Testament's interpretation of the Old Testament as a guide He offers a study of the interpretation of Scripture that is characteristic of the New Testament in order to provide a standard guide for interpreting the Bible today The focal question for Goppelt is how the Old Testament and Jesus Christ are related and Goppelt's answer to this question is found in how the New Testament interprets the Old Testament typologically Goppelt begins with a brief survey of the various definitions of typology to determine how it is distinguished from allegory with which it is often confused After this introductory chapter Goppelt divides his work into three parts Typology in Late Judaism Typology in the New Testament and Apocalypticism and Typology in Paul In his survey of late Judaism Goppelt examines both Palestinian and Hellenistic Judaism to determine the place of typology in their literatures Turning to the New Testament Goppelt looks first at the portrayal of Jesus Christ in the Synoptic Gospels and Acts Elements of this portrayal are Jesus as the Prophet as the Son of David and Lord and as the Son of Man Goppelt finds each of these characterizations typologically related to the Old Testament Similarly in his next chapter on the church as portrayed in the Synoptics and Acts Goppelt finds a number of typological relationships between the people of God in the Old Testament and the church in the New Testament Goppelt next examines the Pauline epistles for Paul's use of Scripture in general and for his view of Christ and the church Goppelt here appends brief treatments on 1 and 2 Peter and Jude In following chapters Goppelt deals with Hebrews the Gospel of John and finally apocalypticism and typology in Paul Here he also examines traditional approaches to the relationship between the Old Testament and the New the origin and legitimacy of the typological approach and the relationship between typology and the historical critical method     *Aesthetic Deviations* Vincent A.

Albarano, 2020-01-01 SOV horror can be as simplistic challenging or offensive as any audience perceives it to be It can also be enlightening terrifying and revealing These are films that compare to no others in existence and for that reason alone it's long past time to accord them some measure of serious consideration Long considered the dead end of genre cinema Shot On Video SOV horror finally gets its due as a serious filmmaking practice Using classic fanzines promotional materials and especially the theories of several important film scholars Vincent Albarano brings SOV horror into critical focus for the first time in print Prior to this moment Video Violence Twisted Issues Alien Beasts and more have never been mentioned in the same breath as Andr Bazin and Siegfried Kracauer despite their common ground AESTHETIC DEVIATIONS delves deep into the most famous SOV horror titles to give credit for their unique and singular contributions to independent genre cinema Informed equally by a fan's passion and the studied approaches of scholarly analysis Albarano offers the first ever detailed examination of the SOV horror cycle proving that this strain of amateur filmmaking is deserving of proper appraisal Sure to enlighten and provoke thought among fans and converts to the unique charms of SOV cinema as well as inspire newcomers Albarano's book proves an invaluable resource for a neglected area of cinematic inquiry     *Shot in Oklahoma* John

Wooley,2012-10-09 When inventor and movie studio pioneer Thomas Edison wanted to capture western magic on film in 1904 where did he send his crew To Oklahoma s 101 Ranch near Ponca City And when Francis Ford Coppola readied young actors Tom Cruise and Matt Dillon to portray teen class strife in the 1983 movie The Outsiders he took cast and crew to Tulsa the setting of S E Hinton s acclaimed novel From Edison to Coppola and beyond Oklahoma has served as both backdrop and home base for cinematic productions The only book to chronicle the history of made in Oklahoma films John Wooley s Shot in Oklahoma explores the variety spunk and ingenuity of moviemaking in the Sooner State over more than a century Wooley s trek through cinematic history buttressed by meticulous research and interviews hits the big films readers have heard of but maybe didn t realize were shot in the state along with lesser known offerings We also get the films intriguing backstories For instance President Theodore Roosevelt s fascination with a man purportedly able to catch a wolf in his hands led to The Wolf Hunt shot in the Wichita Mountains and screened in the White House in 1909 Over time homegrown movies such as Where the Red Fern Grows 1974 2003 have given way to feature films including The Outsiders and Rain Man 1988 Throughout this tale Wooley draws attention to unsung aspects of state and cinematic history including early all black movies lensed in Oklahoma s African American towns and films starring American Indian leads With a nod to more recent Hollywood productions such as Twister 1996 and Elizabethtown 2005 Wooley ultimately explores how a low budget slasher movie created in Oklahoma in the 1980s transformed the movie business worldwide Punctuated with photographs and including a filmography of more than one hundred productions filmed in the state Shot in Oklahoma offers movie lovers and historians alike an engaging ride through untold cinematic history     [The Gorehound's Guide to Splatter Films of the 1980s](#) Scott Aaron Stine,2015-09-18 Reviews of The Gorehound s Guide to Splatter Films of the 1960s and 1970s recommended Booklist exhaustive useful ARBA a solid reference work Video Watchdog bursting with information opinion and trivia impeccably researched Film Review interesting and informative Rue Morgue detailed credits entertaining Classic Images Author Scott Aaron Stine is back again this time with an exhaustive study of splatter films of the 1980s Following a brief overview of the genre the main part of the book is a filmography Each entry includes extensive technical information cast and production credits release date running time alternate and foreign release titles comments on the availability of the film on videocassette and DVD a plot synopsis commentary from the author and reviews Extensive cross referencing is also included Heavily illustrated     *Sacred Enigmas* Stephen Geller,2014-02-04 Sacred Enigmas assesses the religious and intellectual significance of the Hebrew Bible both as a document of its time and as an important step in the development of thought It presents the major aspects of biblical religion through detailed literary analyses of key texts presented in English translation to make them accessible to the general reader as well as scholars     **This Thing of Darkness** Richard Paul Hamilton,Margaret Sönsen Breen,2004 Written across the disciplines of art history literature philosophy sociology and theology the ten essays comprising the collection all insist on multidimensional definitions of evil Taking its title from a

moment in Shakespeare's *Tempest* when Prospero acknowledges his responsibility for Caliban this collection explores the necessarily ambivalent relationship between humanity and evil To what extent are a given society's definitions of evil self-serving Which figures are marginalized in the process of identifying evil How is humanity itself implicated in the production of evil Is evil itself something fundamentally human These questions indicative of the kinds of issues raised in this collection seem all the more pressing in light of recent world events The ten essays were originally presented at the First Global Conference on Perspectives on Evil and Human Wickedness held in March 2000 in Lady Margaret Hall Oxford University

**The Hidden Sovereign 1** Ethan, 2024-12-24 The Mind's Eye Jeffrey F. Hamburger, Anne-Marie Bouché, 2006 *The Mind's Eye* focuses on the relationships among art theology exegesis and literature issues long central to the study of medieval art yet ripe for reconsideration Essays by leading scholars from many fields examine the illustration of theological commentaries the use of images to expound or disseminate doctrine the role of images within theological discourse the development of doctrine in response to images and the place of vision and the visual in theological thought At issue are the ways in which theologians responded to the images that we call art and in which images entered into dialogue with theological discourse In what ways could medieval art be construed as argumentative in structure as well as in function Are any of the modes of representation in medieval art analogous to those found in texts In what ways did images function as vehicles not merely vessels of meaning and signification To what extent can exegesis and other genres of theological discourse shed light on the form as well as the content and function of medieval images These are only some of the challenging questions posed by this unprecedented and interdisciplinary collection which provides a historical framework within which to reconsider the relationship between seeing and thinking perception and the imagination in the Middle Ages

**The Plutocene: Blueprints for a Post-Anthropocene Greenhouse Earth** Andrew Yoram Glikson, 2017-07-10 This book presents projections and blueprints of the future geologic period climate and biosphere based on our current understanding of the Earth's history and recent developments in the atmosphere ocean cryosphere system By the second decade of the 21st century it has become clear that rather than channel its efforts into protecting its planetary biosphere and living species *Homo sapiens* continues to sink its remaining resources into weapons including nuclear missiles thus increasing the risk of intentional or accidental spread of radioactive nuclides on land oceans and atmosphere With time possibility becomes probability and probability becomes certainty heralding a transition from the Anthropocene to a new geological period named here as Plutocene after the element Plutonium During the Plutocene the biosphere is dominated by elevated temperatures analogous to the Pliocene 2.6–5.3 Ma ago or the Miocene 5.3–23 Ma ago when mean global temperatures were 2 to 4 degrees Celsius warmer and sea levels 20 to 40 meters higher than pre industrial levels High levels of radioactivity will persist for at least 20 000 years and acid oceans will severely limit biological activity to the hardiest species Atmospheric CO<sub>2</sub> higher than 500 ppm with residence time on the order of thousands of years will delay the

subsequent glacial cycle These factors restrict comparisons of the Plutocene with biosphere conditions during the Miocene and Pliocene periods partly because the flora and fauna evolved more gradually during these periods unlike the abrupt climate shift of state during the second half of the 20th century and first part of the 21st century Following a long lull in biological activity dominated by radiation resistant organisms especially Arthropods a resumption of glacial cycles and decline in radioactivity will lead to the re emergence of descendants of burrowing mammals and other genera Depending on the intensity of radioactive pollution hunter gatherer humans may survive in northern latitudes relatively cold high altitude mountain valleys and elevated volcanic islands In some areas subsistence farming may be possible A new cycle will commence

**Raising the Devil** Bill Ellis, 2014-07-11 Raising the Devil reveals how the Christian Pentecostal movement right wing conspiracy theories and an opportunistic media turned grassroots folk traditions into the Satanism scare of the 1980s During the mid twentieth century devil worship was seen as merely an isolated practice of medieval times But by the early 1980s many influential experts in clinical medicine and in law enforcement were proclaiming that satanic cults were widespread and dangerous By examining the broader context for alleged cult activity Bill Ellis demonstrates how the image of contemporary Satanism emerged during the 1970s Blaming a

wide range of mental and physical illnesses on in dwelling demons a faction of the Pentecostal movement became convinced that their gifts of the spirit were being opposed by satanic activities They attributed these activities to a cult that was the evil twin of true Christianity In some of the cases Ellis considers common folk beliefs and rituals were misunderstood as evidence of devil worship In others narratives and rituals themselves were used to combat satanic forces As the media found such stories more and more attractive any activity with even remotely occult overtones was demonized in order to fit a model of absolute good confronting evil Ellis s wide ranging investigation covers ouija boards cattle mutilation graveyard desecration and diabolical medicine the psychiatric community s version of exorcism He offers a balanced view of contentious issues such as demonic possession satanic ritual abuse and the testimonies of confessing ex Satanists A trained folklorist Ellis seeks to navigate a middle road in this dialog and his insights into informal religious traditions clarify how the image of Satanism both explained and created deviant behavior
