Perplexing Remedies in Ancient Medicine Maddalena Rumor, 2024-11-18 The topic of a potential relationship between Babylonian and Greco Roman medicine has been discussed for a long time yet it is notoriously difficult to give it flesh and bones by means of concrete examples The main goal of this study is to identify real elements in the therapeutical traditions of the one system that can be connected to those of the other which would confirm a certain degree of practical knowledge sharing between the two cultures By analyzing Dreckapotheke filthy medicaments and similarly perplexing medical ingredients and by exploiting the concept of misunderstandings in translation I show how elements of Assyro Babylonian therapy were still present or emerging in the pharmaceutical compositions of the Early Roman Empire ultimately supporting the idea of at least occasional transfers of medical knowledge between the two cultures With its positive findings this study contributes to a broader reconstruction of the context within which ancient medicine developed It also finds reciprocal explanations of obscure passages and fuels further questions regarding the medical interrelations

interconnections between these neighboring ancient cultures **The Dragon's Blood, the Warrior's Spirit** You Shang Jian Ling, Chu Qianye was betrayed by his beloved and abandoned in the back of the mountain He awakened his divine martial soul because of the dragon shaped jade pendant and cultivated the Eternal Divine Technique making him peerless and strong He can refine medicine refine weapons draw inscriptions An all round genius with two minds Life profession

Derrida's early work in order to frame deconstructive approaches to literature as necessary for a theory and practice of literary criticism that addresses the question of the animal arguing that texts are like animals and animals are like texts. While Derrida's late writings have been embraced by animal studies scholars due to its overt focus on animality ethics and the non-human. Piskorski demonstrates the additional value of these early Derridean texts for the field of literary animal studies by proposing detailed zoogrammatological readings of texts by Freud, Clarice Lispector, Ted Hughes and Darren Aronofsky while in dialogue with thinkers such as Butler, Kristeva, Genette, Deleuze and Guattari and Attridge.

Animals and their Relation to Gods, Humans and Things in the Ancient World Raija Mattila, Sanae Ito, Sebastian Fink, 2019-03-11 While Human Animal Studies is a rapidly growing field in modern history studies on this topic that focus on the Ancient World are few. The present volume aims at closing this gap. It investigates the relation between humans, animals, gods and things with a special focus on the structure of these categories. An improved understanding of the ancient categories themselves is a precondition for any investigation into the relation between them. The focus of the volume lies on the Ancient Near East but it also provides studies on Ancient Greece, Asia Minor, Mesoamerica, the Far East and Arabia.
