A Little Matter of Genocide Ward Churchill, 1997 Ward Churchill has achieved an unparalleled reputation as a scholar, activist, and analyst of indigenous issues in North America. Here he explores the history of holocaust and denial in this hemisphere, beginning with the arrival of Columbus and continuing on into the present. He frames the matter by examining both revisionist denial of the Nazi perpetrated Holocaust and the opposing claim of its exclusive uniqueness, using the full scope of what happened in Europe as a backdrop against which to demonstrate that genocide is precisely what has been and still is carried out against the American Indians. Churchill lays bare the means by which many of these realities have remained hidden: how public understanding of this most monstrous of crimes has been subverted not only by its perpetrators and their beneficiaries but by the institutions and individuals who perceive advantages in the confusion. In particular, he outlines the reasons underlying the United States's 40-year refusal to ratify the Genocide Convention, as well as the implications of the attempt to exempt itself from compliance when it finally offered its endorsement. In conclusion, Churchill proposes a more adequate and coherent definition of the crime as a basis for identifying, punishing, and preventing genocidal practices wherever and whenever they occur.

Ward Churchill enrolled Keetoowah Cherokee, is Professor of American Indian Studies with the Department of Ethnic Studies at the University of Colorado Boulder. A member of the American Indian Movement since 1972, he has been a leader of the Colorado chapter for the past fifteen years. Among his previous books have been *Fantasies of a Master Race*, *Struggle for the Land Since Predator Came*, and *From a Native Son*.

Meeting the Enemy Natsu Taylor Saito, 2012-06 Since its founding, the United States has defined itself as the supreme protector of freedom throughout the world, pointing to its Constitution as the model of law to ensure democracy at home and to protect human rights internationally. Although the United States has consistently emphasized the importance of the international legal system, it has simultaneously distanced itself from many established principles of international law and the institutions that implement them. In fact, the American government has attempted to unilaterally reshape certain doctrines of international law while disregarding others, such as provisions of the Geneva Conventions and the prohibition on torture. America's selective self-exemption, Natsu Taylor Saito argues, undermines not only specific legal institutions and norms but leads to a decreased effectiveness of the global rule of law. *Meeting the Enemy* is a pointed look at why the United States frequently is selective.
