Bloody Sunday Trauma Pain And Politics:

Bloody Sunday Patrick Hayes, Jim Campbell, 2005-07-20 Of all the grave crises in Northern Ireland's history the events of Bloody Sunday are perhaps the most notorious The subject of an independent inquiry that is the longest and most expensive the British government has ever undertaken this yet to be resolved issue continues to be one of the most significant events in the recent history of the Troubles This book tackles the subject from a new angle that covers both the political and psychological aspects of what happened Based on extensive interviews with families whose relatives were killed by British soldiers it is a record of the trauma that they have suffered Setting Bloody Sunday in social political and historical contexts the authors examine the events of the day itself the aftermath and the relationship between post traumatic stress disorder grief mourning and storytelling They conclude with accounts about state and community responses to the trauma and the impact and implications of the Saville Inquiry which has allowed family members to express publicly their stories about the events of Bloody Sunday

Bloody Sunday Patrick Hayes, Jim Campbell, 2005-07-20 Full account of the events of that day and the impact it had on the families and communities involved

Bloody Sunday Patrick Joseph Hayes, 2003 *The Poetry of Bloody Sunday* Kübra Özermiş, 2025-09-29 As a turning point that changed the course of the Troubles the Bloody Sunday massacre continues to define ongoing debates about the legacy of the Troubles and the impact of state violence Bloody Sunday has been at the centre of numerous cultural and literary expressions which deal with the grief and trauma of the massacre such as murals songs plays and poetry This volume is the first comprehensive study of the poetry of Bloody Sunday written by critically acclaimed Irish poets including Seamus Heaney Paul Muldoon Thomas Kinsella Seamus Deane and Medbh McGuckian By focusing on poems written between 1972 and 2015 this book examines each poet's attempt to find an apt way of articulating the anger trauma and grief over the massacre with most of the poets continuously returning to the shooting in their poetry throughout their careers The monograph outlines how in the face of adversity the poets draw on old Irish literary traditions such as Gaelic laments and Aisling poetry which offer an indigenous anti colonial and counter hegemonic response to a massacre that was experienced as a colonial aggression It also discusses the complex relationship between poetry and politics and the negotiation between aesthetic freedom and the moral obligation to write about Bloody Sunday

Empires of Remorse Tom Bentley, 2015-10-08 Until deep into the 20th century empire remained a source of pride for European states and their politicians The 21st century however has seen the unexpected emergence of certain European states apologising to their former colonies Analysing apologies from Germany Belgium Britain and Italy this book explores the shifting ways in which these countries represent their colonial pasts and investigates what this reveals about contemporary international politics particularly relations between former coloniser and colonised It is argued that far from renouncing colonialism in its entirety the apologies are replete with discourses that are reminiscent of the core legitimising tenets of empire Specifically the book traces how the apologies both illuminate and recycle many of the inequalities mind sets

and ambivalences that circulated at the height of empire This book will be of key interest to scholars and students of peace and post conflict resolution studies memory studies colonial studies and postcolonial theory More broadly it will be of interest to those studying political science International Relations sociology and development The Politics of Cultural Memory Jim Aulich, Lucy Burke, Simon Faulkner, 2020-05-15 This edited collection explores the political dimensions of cultural memory work in its varied forms of representation from public monuments to literary texts Addressing the different ways that cultural texts represent the past in the present the collection demonstrates that cultural memory is something actively made the site of a struggle over meanings that can serve a range of political and cultural purposes The collection offers essays that discuss the politics of cultural memory both in theory and in practice and features work by some of the leading scholars in the field including Susannah Radstone Graham Dawson Felicity Collins and Therese Davis Contributors explore the ways in which memory comes to be articulated through particular cultural practices from film and photography to literature and public monuments all of which have their own codes and conventions modes of address and audiences As such this volume brings together scholars working in a range of disciplines literary studies history art history film studies and in so doing seeks to establish a dialogue between different disciplines and methodologies and to explore cultural memory work in a range of different intellectual fields cultural forms and political and historical contexts for instance the Holocaust Northern Ireland Australia Palestine and the former Soviet Bloc The collection will be of interest to students researchers and scholars working in the area of cultural memory studies for whom it will represent an invaluable collection of current work in the field It will also interest scholars working in the particular areas with which it engages for instance postcolonial studies Holocaust studies Eastern European Studies Irish Studies Art History and English Studies Commemoration and Bloody Sunday B. Conway, 2010-03-03 In this wide ranging study of the politics of memory in Northern Ireland Brian Conway examines the career of the commemoration of Bloody Sunday and looks at how and why the way this historic event is remembered has undergone change over time Drawing on original empirical data he provides new insights into the debate on collective memory The Politics of Criminology Stratos Georgoulas, 2012 The issue of the politics of criminology is a significant theme in academic debate policy implementation and legal reform Against administrative criminologists who have been criticized as technicians of the State or apologists for criminal justice functioning primarily to manage the consequences and conflict of structural inequalities in advanced democratic states this book brings policy back to what it was a sociological study of the entire social framework of the inequalities of power wealth and authority which is the result of class relations of industrial society Series Deviance and Social Control Vol 1 *Changes in Contemporary Ireland* Catherine Rees, 2014-09-26 This volume explores the cultural literary theatrical and political changes in Irish society from 1980 The so called Celtic Tiger brought about cultural and economic rejuvenation in Ireland but this new found confidence and prosperity was destabilised by other events such as the scandals in the Catholic Church bringing into question the role of traditional institutions in

contemporary Irish life The ending of the Troubles and signing of the Good Friday Agreement similarly heralded a new era in terms of positive political change but recent paramilitary activity threatens to undermine the progress made in the 1990s as waves of new violence hit the North Equally recent economic recession has halted the radical growth seen in the Republic over recent decades This book therefore problematises the concept of change and progress by juxtaposing these events and asking what real changes can be traced in modern Ireland The contributors frequently reflect on the changes and upheavals this period of dramatic economic political and cultural change has prompted The volume includes contributions from the fields of politics cultural studies sport history geography media and film studies and theatre and literature As such it is a decidedly interdisciplinary study exploring wide ranging topics and issues relevant to contemporary Irish Studies ,

Smyth, 2007-10-18 Focuses on the conditions which predispose or prevent embarkation on a truth recovery process and the rationale for that process arguing that there is no magic moment of readiness for truth recovery but that the conditions are constructed rather than spontaneously occurring **Sexual Identities and Sexuality in Social Work** Priscilla

Dunk-West, 2016-04-01 Sexuality and sexual identity have been relatively marginalized areas in both social work education and practice However changes in policy and legislation in the UK and other countries over the past decade have brought discussions of sexuality into the mainstream public service agenda In social work and social care gay and lesbian citizenship rights have been explicitly recognised In the fields of adoption and fostering new regulations and guidance have helped improve and develop practice around assessment and intervention It remains the case however that sex is often perceived as a problem area within social work and social care discussed only in relation to sexually diverse communities or in the realm of dysfunction or pathology This collection aims to generate a more proactive and challenging discussion of sexuality and sexual identity in social work Its starting point is that sexuality is an essential aspect of individual identity that users must be able to express their sexuality and that it is essential for social workers to be able to respond and discuss sexual issues appropriately The contributions are informed by feminist research considering in particular the experiences of women

working in and using social care services since the 1990s In addition to a consideration of the wider policy legislative and service providers perspectives the book includes reflective accounts as well as research led contributions offering a comprehensive and balanced account of this important field which aims to inform both theory and practice **History of Social Work in Northern Ireland: Oxford Bibliographies Online Research Guide** Oxford University Press,2010-05-01 This ebook is a selective guide designed to help scholars and students of social work find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related A reader will discover for instance the most reliable introductions and overviews to the topic and the most important publications on various areas of scholarly interest within this topic In social work as in other disciplines researchers at all levels are drowning in potentially useful scholarly information and this guide has been created as a tool for cutting through that material to find the exact source you need This ebook is a static version of an article from Oxford Bibliographies Online Social Work a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study and practice of social work Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.aboutobo.com **Mourning in America** David W. Lawfare Jaume Castan Pinos, Mark Friis Hau, 2022-09-19 This book develops a new conceptualisation of lawfare that recognises the polysemantic nature of the term Drawing on theoretical developments from legal anthropology international relations and social theory the book scrutinises the multiple dimensions of this phenomenon It illustrates the multifaceted character of lawfare with a wide range of historical and contemporary cases from across the globe and analyses the implications of actors pursuing political objectives through legal means This includes the use of lawfare by states as a legal instrument to accomplish geopolitical objectives domestic lawfare or the use of legal instruments to undermine internal opposition and state lawfare used by governments to protect the state from internal territorial secessionist challenges Finally the book shows that lawfare is not exclusively a tool for hegemonic actors as it can also be used by civil society actors that aim to uphold their rights through legal instruments in asymmetric lawfare This book contributes to new developments in lawfare without shying away from controversy acknowledging its sometimes brutal efficacy as well as its potential pitfalls The book will appeal to scholars and students of law international relations political science anthropology and sociology
