Dedicating Music, 1785-1850 Emily Green, 2019 Why dedicate music What did dedications mean to their readers and writers especially after 1785 when more works were offered to fellow composers as well as to patrons Borrowing from book history and sociological theory *Dedicating Music 1785 1850* is a large scale study of patterns of dedications Emily H Green argues that the kinds of offerings printed in the late eighteenth through mid nineteenth centuries reflect a changing financial and aesthetic landscape in which patronage was waning and independent artistry surging Dedications labeled written music as a gift while presenting composers with an opportunity for self promotion They also contributed to a new kind of branding of music by communicating composers friendships and artistic allegiances *Dedicating Music* considers dedications issued in print between 1785 and 1850 in sets of overlapping corpuses offerings to peers as in Mozart's string quartets dedicated to Haydn to patrons as in Ignaz Pleyel's string quartets for Count Erdödy to friends as in Ferdinand Ries's offerings for Beethoven and dedications issued by publishers as in Beethoven's song *In questa tomba oscura* included in publisher Tranquillo Mollo's collection offered to Prince Lobkowitz The result is a synchronic study that highlights the importance of printed packaging rather than notes on the page to the complex relationship between composers publishers and consumers of music EMILY H GREEN is Assistant Professor of Music at George Mason University The University of Rochester Press gratefully acknowledges generous support from the Claire and Barry Brook Endowment of the American Musicological Society and the AMS 75 PAYS Endowment of the American Musicological Society both funded in part by the National Endowment for the Humanities and the Andrew W Mellon Foundation

The Pragmatics of Politeness Geoffrey N. Leech, 2014 This readable book presents a new general theoretical understanding of politeness It offers an account of a wide range of politeness phenomena in English illustrated by hundreds of examples of actual language use taken largely from authentic British and American sources Building on his earlier pioneering work on politeness Geoffrey Leech takes a pragmatic approach that is based on the controversial notion that politeness is communicative altruism Leech's 1983 book *Principles of Pragmatics* introduced the now widely accepted distinction between pragmalinguistic and sociopragmatic aspects of politeness this book returns to the pragmalinguistic side somewhat neglected in recent work Drawing on neo Gricean thinking Leech rejects the prevalent view that it is impossible to apply the terms polite or impolite to linguistic phenomena Leech covers all major speech acts that are either positively or negatively associated with politeness such as requests apologies compliments offers criticisms good wishes condolences congratulations agreement and disagreement Additional chapters deal with impoliteness and the related phenomena of irony mock politeness and banter mock impoliteness and with the role of politeness in the learning of English as a second language A final chapter takes a fascinating look at more than a thousand years of history of politeness in the English language

Pierce,2023-06-11 Reprint of the original first published in 1872 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost Brahms gewidmet Andrea Hammes,2015-08-19 This volume provides an extensive survey on a topic which has been largely neglected by musicological research until now The study analyses possible implications of a dedication of musical scores which composers used as a sophisticated approach to manipulate the reception of their work Furthermore the phenomenon of dedication is put into context with social and musical life during the second half of the 19th century taking into account current academic research on Johannes Brahms as well Between 1853 and 1902 Brahms received almost 100 dedications of musical scores from renowned friends such as Robert and Clara Schumann or Joseph Joachim as well as from composers unknown today who hoped to benefit from the radiance of their prominent dedicatee Biographical studies retrace the relations between the dedicators and Brahms to describe and explain the different ways a dedication was used to contact a prominent contemporary and respectively extend the personal and professional network Analytical observations of selected works trace features of a specific Brahms reception in the dedicated musical scores and complete the study **Refer** ,1990 **Powys Notes** ,1989 Deus Loci ,1996
