Gustafson, 2011-06-01

Deliberation in recent years has emerged as a form of civic engagement worth reclaiming In this persuasive book Sandra M Gustafson combines historical literary analysis and political theory in order to demonstrate that current democratic practices of deliberation are rooted in the civic rhetoric that flourished in the early American republic Though the U S Constitution made deliberation central to republican self governance the ethical emphasis on group deliberation often conflicted with the rhetorical focus on persuasive speech From Alexis de Tocqueville s ideas about the deliberative basis of American democracy through the works of Walt Whitman John Dewey John F Kennedy and Martin Luther King Jr Gustafson shows how writers and speakers have made the aesthetic and political possibilities of deliberation central to their autobiographies manifestos novels and orations Examining seven key writers from the early American republic including James Fenimore Cooper David Crockett and Daniel Webster whose works of deliberative imagination explored the intersections of style and democratic substance Gustafson offers a mode of historical and textual analysis that displays the wide range of resources imaginative language can contribute to political life **Why Do We Quote?** Ruth Finnegan, 2011-03-01 Quoting is all around us But do we really know what it means How do people actually quote today and how did our present systems come about This book brings together a down to earth account of contemporary quoting with an examination of the comparative and historical background that lies behind it and the characteristic way that quoting links past and present the far and the near Drawing from anthropology cultural history folklore cultural studies sociolinguistics literary studies and the ethnography of speaking Ruth Finnegan s fascinating study sets our present conventions into crosscultural and historical perspective She traces the curious history of quotation marks examines the long tradition of quotation collections with their remarkable recycling across the centuries and explores the uses of quotation in literary visual and oral traditions The book tracks the changing definitions and control of quoting over the millennia and in doing so throws new light on ideas such as imitation allusion authorship originality and plagiarism *Whitaker's Books in Print* , 1998 *Interfaces of Phonetics* Marcel Schlechtweg, 2024-03-18 The role of phonetic detail within the language system and its interplay with other kinds of linguistic information represent a hotly debated territory In the current volume different types of phonetic nuances are examined with a particular focus on their relation to phonological morphological and semantic pragmatic phenomena These three interfaces the phonetic phonological the phonetic morphological and the phonetic semantic pragmatic one are investigated from a variety of angles and by consistently taking the rapport between phonetics and phonology into consideration In doing so we provide an up to date

picture of research dealing with the interaction of distinct linguistic areas and also discuss the question if and when phonology is needed to mediate between phonetics and other linguistic domains

The Place of God at the Bookends of the Bible David W. Larsen, 2023-10-09 What if everything in the Bible has a larger outer context than is usually accounted for? Missional and biblical theologies suggest that the Bible presents a grand story like a play with multiple acts. The acts typically include creation, fall, redemption, and finally restoration. But what if the whole story itself occurs in another larger setting occurring within a mission running in the background throughout the whole Bible? How might this aid our research, reading, and application? And why is this being proposed now? This book explores these questions. The larger context is the production of the place of God, a home and homeland wherein God with his people dwell on earth. Since place is underdeveloped in biblical studies, the book presents a new method for interpreting place. Then the book lays out the case that a grand mission to produce the place of God becomes the outer context for the whole Bible. Finally, the book defends this proposal with an in-depth place commentary of the bookends of the Bible, since these bookends provide keys to unlock this message, thereby inviting further study on the rest of the Bible and on the implications for this transformative perspective.

Clay's Handbook of Environmental Health Stephen Battersby, 2022-08-16 Since its first publication in 1933, Clay's Handbook of Environmental Health, under its different names, has provided a definitive guide for the environmental health practitioner, EHP, and an essential reference for the consultant and student. This 22nd edition continues with its more recent successful structure, reviewing the core principles, techniques, competencies, and skills required of an EHP, and then outlining the specialist subjects without getting bogged down in a legalistic approach, seeking to broaden the content for a more global audience. This new edition seeks to educate the EHP on the public health impacts of global heating and the climate emergency, and also reflects the COVID-19 pandemic as might be expected. Although seeking to have global appeal, the impact of the UK leaving the EU is also addressed. The book examines environmental health in different settings, including in the military, working in both conflict and natural disaster settings, and environmental health at sea and airports. In line with previous editions, case studies are used to illustrate how EH problems have been resolved. This new edition includes guidance on key issues in public and environmental health, including air pollution, contaminated land, housing, and health, noise, water, food safety, pests, and vector control, chemicals in the environment, and radiation, as well as sustainability and public health and humanitarian crises. This handbook aims to give a basic understanding of the philosophical basis of environmental health, as well as the required technical aspects and an understanding of environmental health in different settings. All chapters have sections on further reading and sources of information. Clay's Handbook is essential reading for all practitioners, students, and researchers in environmental and public health wherever they are working.

The Grammar of Thinking Daniela E. Casartelli, Silvio Cruschina, Pekka Posio, Stef Spronck, 2023-09-05 Sentence 1 represents the phenomenon of reported thought, 2 that of reported speech. 1 Sasha thought: This is fine, or Sasha thought that this would be fine. 2 Sasha said: This is fine, or

Sasha said that this would be fine While sentences as in 1 have often been discussed in the context of those in 2 the former have rarely received specific attention This has meant that much of the semantic and structural complexity cross linguistic variation as well as the precise relation between 1 and 2 and related phenomena have remained unstudied Addressing this gap this volume represents the first collection of studies specifically dedicated to reported thought It introduces a wide variety of cross linguistic examples of the phenomenon and brings together authors from linguistic typology corpus and interactional linguistics and formal and functional theories of syntax to shed light on how talking about thoughts can become grammar in the languages of the world The book should be of interest to linguists philosophers of language linguistic anthropologists and communication specialists seeking to understand topics at the boundary of stylistics and morphosyntax as well as the grammar of epistemicity

Constructing Eschatology Nixon de Vera, 2022-01-03 This work seeks to provide a critical analysis of the prophecies in the book of Isaiah that parallels the prophetic insights in the book of Revelation The underlying question is To what extent has God foreordained things especially before and during the final judgment The author thinks all that concerns God's majestic plan i.e. to accomplish God's purpose for humanity is covered in its entirety God is highly active in foreordaining things and whatever God foreordains shall be fulfilled in the end Isaiah's conception of the interplay between the themes of punishment and healing is central to his eschatological trajectory In this respect theologically speaking the total restoration of Israel signifies the restoration of all humankind Such an eschatology might accommodate the notion of Christian Universalism

Speeches that Changed Britain Andrew Reekes, 2015-09-19 A fascinating and richly illustrated book exploring speeches made in Birmingham that changed history Meet some of Britain's most famous orators The book reflects the importance of oratory in making a political argument It may in a sound bite era be a dying art but these speeches fulfil the first requirement of successful rhetoric that it be a reasoned argument to persuade its audience It is striking how many nationally significant speeches have been made in Birmingham over the past two hundred years This book looks at ten episodes when a speech in Birmingham challenged the rest of the country to embrace change and reform More than any other city it represents Britain's provincial voice across the period The book reflects the importance of oratory in making a political argument It may in a sound bite era be a dying art but these speeches fulfil the first requirement of successful rhetoric that it be a reasoned argument to persuade its audience On 27th October 1857 MP John Bright addressed a crowded Birmingham Town Hall Already a famous politician and orator expectations were high that he would deliver a newsworthy speech So much so The Times chartered a special night train to deliver his text in time for the morning editions And Bright didn't disappoint The speech a passionate call for universal suffrage marked a fundamental turning point in 19th century electoral reform and forms a powerful illustration of the impact a great speech and speaker can have on the history of a nation Speeches that Changed Britain Oratory in Birmingham takes a number of speeches all made in Birmingham in the last two hundred years and explores their impact on local and national stages From the charismatic

speakers themselves to the words they used the causes they fought for and the mercurial relationship between orator and audience author Andrew Reekes examines the factors that make a great speech Many of the speakers considered were the most famous orators of their time and their speeches illustrate contemporary concerns from Thomas Attwood advocating Parliamentary reform in 1832 to crowds of 200 000 Feargus O Connor addressing Chartist rallies the Chamberlain dynasty Joseph and Neville opposing Home Rule and confronting Hitler to controversial characters Oswald Mosley and Enoch Powell outlining their personal visions The book closes with a very recent speech by David Cameron which continues the tradition of powerful speeches made in the city Reekes paints a clear picture of Birmingham itself as a stronghold of radical politics and social reform one that generated and attracted famous orators Their presence has meant that Birmingham has played a profound role in setting the national political mood and agenda Resonating with the text of these great speeches Reekes fascinating and important book captures vividly a lost age of political oratory and passionate public advocacy and provides an extraordinary insight into the progress of political and social reform in Britain across the last two hundred years

Peace in the US Republic of Letters, 1840-1900 Sandra M. Gustafson,2023-09-06 Peace in the US Republic of Letters 1840 1900 explores the early peace movement as it captured the imagination of leading writers The book charts the rise of the peace cause from its sources in the works of William Penn and John Woolman through the founding of the first peace societies in 1815 and the mid century peace congresses to the postbellum movement s consequential emphasis on arbitration The Civil War is the central axis for the book with three chapters organized around readings of novels by James Fenimore Cooper Harriet Beecher Stowe and Nathaniel Hawthorne spanning the period from 1840 to 1865 Cooper had personal connections to the movement and thought deeply about the issues it addressed Literary interest in peace at times overlapped with abolitionism as was true for Stowe And in the case of Hawthorne attention to peace advocacy arose out of a mixture of skepticism regarding perfectionist impulses a desire to explore the nature and limits of violence and fear of civil conflict The volume also explores fiction engaged with problems that arose in the aftermath of that war including novels by Henry Adams and John Hay on political corruption and class conflict works on the failures of Reconstruction by Albion Tourg e and Charles Chesnutt and the varied treatments of Indigenous experience in Helen Hunt Jackson s Ramona and Simon Pokagon s Queen of the Woods All of these writers focused on issues related to the cause of peace expanding its thematic reach and anticipating key insights of twentieth century peace scholars
