Paper Stories - Paper and Book History in Early Modern Europe Silvia Hufnagel, Þórunn Sigurðardóttir, Davíð Ólafsson, 2023-04-27 This peer-reviewed conference volume examines paper and material aspects of the written word in early modern Europe. The collection is designed around three thematic strands based on the lifecycle of handwritten documents and manuscripts and printed books: first, production of paper; second, production of books and manuscripts; and third, trade and exchange and ownership of manuscripts and books. By tracing the history of paper, books, and collections through case studies of historically important objects, the authors identify agents and hotspots of production, trade, and ownership from both centres and peripheries of Europe from the late Middle Ages until the beginning of industrialisation. They thereby address material aspects of documents, manuscripts, and books as well as object biography from an interdisciplinary viewpoint. By doing so, this volume provides insight into actual practices of the past and the material history of written texts.
