Charity and the Great Hunger in Ireland Christine Kinealy,2013-10-10 The Great Irish Famine was one of the most devastating humanitarian disasters of the nineteenth century In a period of only five years Ireland lost approximately 25% of its population through a combination of death and emigration How could such a tragedy have occurred at the heart of the vast and resource rich British Empire Charity and the Great Hunger in Ireland explores this question by focusing on a particular and lesser known aspect of the Famine that being the extent to which people throughout the world mobilized to provide money food and clothing to assist the starving Irish This book considers how helped by developments in transport and communications newspapers throughout the world reported on the suffering in Ireland prompting funds to be raised globally on an unprecedented scale Donations came from as far away as Australia China India and South America and contributors emerged from across the various religious ethnic social and gender divides Charity and the Great Hunger in Ireland traces the story of this international aid effort and uses it to reveal previously unconsidered elements in the history of the Famine in Ireland

The Removal of Irish Paupers from Britain Lewis Darwen,Donald MacRaild,2024-11-29 During the nineteenth century local officials sought to deal with their Irish pauper problem by removing these poor migrants back to Ireland under the laws of settlement and removal Over the course of the century hundreds of thousands of Irish paupers were forcibly repatriated in

this way Even though the settlement rights of Irish immigrants gradually improved over time removals were still taking place into the twentieth century The system was widely recognised as being cruel and unfair especially in Ireland where the removal of Irish paupers from Britain garnered considerable political and press attention Much was made of the illegality of some removals and of harsh removals involving widowed women children and the elderly This book which is the first sustained study of repatriation from Britain demonstrates a persistent theme the marginal nature of Irish life on the larger island Drawing on extensive research from newspaper sources and parliamentary papers it presents an original and richly detailed perspective on Irish immigration poverty and pauperism in nineteenth century Britain Barbed-Wire Imperialism Aidan Forth, 2017-10-03 Introduction Britain's empire of camps Concentrating the dangerous classes the cultural and material foundations of British camps Barbed wire deterrents detention and relief at Indian famine camps 1876 1901 A source of horror and dread plague camps in India and South Africa 1896 1901 Concentrated humanity the management and anatomy of colonial camps c 1900 Camps in a time of war civilian concentration in southern Africa 1900 1901 Only matched in times of famine and plague life and death in the concentration camps A system steadily perfected camp reform and the new geniuses from India 1901 1903 Epilogue Camps go global lessons legacies and forgotten solidarities **A Companion to Nineteenth-Century Britain** Chris Williams, 2008-04-15 A Companion to Nineteenth Century Britain presents 33 essays by expert scholars on all the major aspects of the political social economic and cultural history of Britain during the late Georgian and Victorian eras Truly British rather than English in scope Pays attention to the experiences of women as well as of men Illustrated with maps and charts Includes guides to further reading *The Oxford History of Protestant Dissenting Traditions* Mark A. Noll, Timothy Larsen, Michael Ledger-Lomas, 2017 The five volume Oxford History of Dissenting Protestant Traditions series is governed by a motif of migration out of England It first traces organized church traditions that arose in England as Dissenters distanced themselves from a state church defined by diocesan episcopacy the Book of Common Prayer the Thirty Nine Articles and royal supremacy but then follows those traditions as they spread beyond England and also traces newer traditions that emerged downstream in other parts of the world from earlier forms of Dissent Secondly it does the same for the doctrines church practices stances toward state and society attitudes toward Scripture and characteristic patterns of organization that also originated in earlier English Dissent but that have often defined a trajectory of influence independent ecclesiastical organizations The Oxford History of Protestant Dissenting Traditions Volume III considers the Dissenting traditions of the United Kingdom the British Empire and the United States in the nineteenth century It provides an overview of the historiography on Dissent while making the case for seeing Dissenters in different Anglophone connections as interconnected and conscious of their genealogical connections The nineteenth century saw the creation of a vast Anglo world which also brought Anglophone Dissent to its apogee Featuring contributions from a team of leading scholars the volume illustrates that in most parts of the world the later nineteenth century was marked by a growing

enthusiasm for the moral and educational activism of the state which plays against the idea of Dissent as a static purely negative identity This collection shows that Dissent was a political and constitutional identity which was often only strong where a dominant Church of England existed to dissent against
