## Deaths Duel 1632:

Death's Duel, 1632 John Donne, 1969      **Death's Duel**, 1972      **The Life and Letters of John Donne, Vol II** Edmund Gosse, 2019-01-28 These two volumes comprise a biography of John Donne Dean of St Paul s and metaphysical poet These volumes cover his tumultuous career in parliament his writings and patronages his marriage and his career with the Church of England      *The Purple Island and Anatomy in Early Seventeenth-century Literature, Philosophy, and Theology* Peter Mitchell, 2007 Sets out to reconstruct and analyze the rationality of Phineas Fletcher s use of figurality in *The Purple Island* 1633 a poetic allegory of human anatomy This book demonstrates that the analogies and metaphors of literary works share coherence and consistency with anatomy textbooks      *The Limits of Moralizing* David Mikics, 1994 This book argues that critical tradition has obscured the mutually constitutive relation between the didactic mission of Renaissance epic and the pathos of the epic self Critics usually see Spenser and Milton either as poets dedicated to an autonomous aesthetic that dictates indulgence in pathos for its own sake or as Christian moralists who subordinate pathos to the didactic demands of society The Romantic tradition that stretches from Keats to Harold Bloom exemplifies the former option Neo Christian reader response and new historicist critics assert a contrary but similarly unbalanced view by choosing the didactic authority of social custom tradition or ideology over the pathos of subjectivity Resisting attempts to establish an absolute priority for either pathos or moralizing David Mikics looks to the debate between subjective passions and didactic imperatives as a sign of the complex relation between literary creation and social norms In a study that shies away from new historicist endorsements of the force of normative ideology as well as late Romantic celebrations of the poetic self the author finds that Spenser and Milton develop an innovative literary subjectivity under the pressure of the Reformation s moralizing aims Incorporating moral force within pathos would allow poetic passion to become a worthy and clearly justifiable public stance But Spenser and Milton in their pursuit of this rhetorical ideal find themselves acknowledging instead an enduring disjunction between affect and the discursive forms of public morality which aim to discipline or exploit it BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved      **Survey of English Literature and Culture** Hartmut Ilseman, 2021-05-11 Die urspr ngliche Version dieses berblicks ber die englische Literatur und Kulturgeschichte bestand aus einzelnen A4 Bl ttern die jeweils zwanzig Jahre abdeckten Oben auf der Seite wurden die englischen Herrscher genannt darunter die schottischen K nige Es folgten Daten zur Geschichte und unten auf der Seite Daten zu Personen die in Politik Literatur Musik und Kultur eine Rolle spielten Auf diese Weise lieferten f nf Bl tter Informationen ber ein Jahrhundert Die Daten 1000 n Chr bis 2000 n Chr ergaben insgesamt f nfzig Bl tter die seit Jahren im Flur des Englischen Seminars der Leibniz Universit t Hannover Epochen und Zeitr ume unterteilen und manchmal kurz vor Pr fungen eine letzte Orientierung boten Die bersicht wurde von Studenten in einem kulturwissenschaftlichen Seminar erstellt als Computer und Textverarbeitung zum ersten Mal zur Verf gung standen Auf Quellen wurde wegen des

*The life and letters of John Donne* Sir Edmund William Gosse,1899      **Learning to Die in London, 1380-1540** Amy Appleford,2015 Taking as her focus a body of writings in poetic didactic and legal modes that circulated in England s capital between the 1380s just a generation after the Black Death and the first decade of the English reformation in the 1530s Amy Appleford offers the first full length study of the Middle English art of dying ars moriendi An educated awareness of death and mortality was a vital aspect of medieval civic culture she contends critical not only to the shaping of single lives and the management of families and households but also to the practices of cultural memory the building of institutions and the good government of the city itself In fifteenth century London in particular where an increasingly laicized reformist religiosity coexisted with an ambitious program of urban renewal cultivating a sophisticated attitude toward death was understood as essential to good living in the widest sense The virtuous ordering of self household and city rested on a proper attitude toward mortality on the part both of the ruled and of their secular and religious rulers The intricacies of keeping death constantly in mind informed not only the religious prose of the period but also literary and visual arts In London s version of the famous image text known as the Dance of Death Thomas Hoccleve s poetic collection *The Series* and the early sixteenth century prose treatises of Tudor writers Richard Whitford Thomas Lupset and Thomas More death is understood as an explicitly generative force one capable if properly managed of providing vital personal social and literary opportunities
