Debates In Stuart History:

Debates in Stuart History Ronald Hutton, 2004-05-05 Ronald Hutton examines and explores the main debates in Stuart history whilst asking why historians of the Stuart period write as they do He also examines why perceptions of the Stuart period have changed over time

Debates in Stuart History Hutton, 2004-09-04 In this essential introduction to the writing of Stuart history Ronald Hutton provides a clear and authoritative guide to both the current condition of the discipline and its historiography Hutton helps students to understand some of the key recent debates and shows them how to set their reading in context He also provides a new sense of why historians of the Stuart period both collectively and individually perceive the past in particular ways and shows how these perceptions alter over time **The Routledge**

Teaching History 11-18 Husbands, Chris, Kitson, Alison, 2010-07-01 This book provides a comprehensive and radical guide to the challenges facing history and history teaching in contemporary schools History, Historians and the Immigration Debate Eureka Henrich, Julian M. Simpson, 2018-10-13 This book is a response to the binary thinking and misuse of history that characterize contemporary immigration debates Subverting the traditional injunction directed at migrants to go back to where they came from it highlights the importance of the past to contemporary discussions around migration It argues that historians have a significant contribution to make in this respect and shows how this can be done with chapters from scholars in Asia Europe Australasia and North America Through their work on global transnational and national histories of migration an alternative view emerges one that complicates our understanding of 21st century migration and reasserts movement as a central dimension of the human condition History Historians and the Immigration Debate makes the case for historians to assert themselves more confidently as expert commentators offering a reflection on how we write migration history today and the forms it might take in the future

Teaching History 11 - 18 Chris Husbands, Alison Kitson, 2010-07-16 Teaching History 11 18 is a comprehensive introduction to teaching learning and assessing history in secondary schools Drawing on cutting edge research and practice it draws together recent thinking in teaching and learning in history teaching and learning in secondary education more generally and classroom based research to provide a radical re thinking of the practices of

teaching and learning about the past at the beginning of the twenty first century At the core of the book is a focus on diversity and its implications the diversity of classrooms in English schools cultural diversity and pluralism in accounts of the past and the diversity of pedagogic and communicative strategies at the disposal of teachers The book is realistic about the challenges a precarious place in the curriculum pupil disaffection bitter ideological debates about the purpose place and status of history but offers a forward looking rationale for the centrality of the past in debates about identity social cohesion and persona and social education

A Companion to Stuart Britain Barry Coward,2008-04-15 Covering the period from the accession of James I to the death of Queen Anne this companion provides a magisterial overview of the long seventeenth century in British history Comprises original contributions by leading scholars of the period Gives a magisterial overview of the long seventeenth century Provides a critical reference to historical debates about Stuart Britain Offers new insights into the major political religious and economic changes that occurred during this period Includes bibliographical guidance for students and scholars

Habeas Corpus Paul D. Halliday,2012-04-02 We call habeas corpus the Great Writ of Liberty But it was actually a writ of power In a work based on an unprecedented study of thousands of cases across more than five hundred years Paul Halliday provides a sweeping revisionist account of the world s most revered legal device In the decades around 1600 English judges used ideas about royal power to empower themselves to protect the king s subjects The key was not the prisoner s right to liberty these are modern idioms but the possible wrongs committed by a jailer or anyone who ordered a prisoner detained This focus on wrongs gave the writ the force necessary to protect ideas about rights as they developed outside of law This judicial power carried the writ across the world from Quebec to Bengal Paradoxically the representative impulse most often expressed through legislative action did more to undermine the writ than anything else And the need to control imperial subjects would increasingly constrain judges The imperial experience is thus crucial for making sense of the broader sweep of the writ s history and of English law Halliday s work informed the 2008 U S Supreme Court ruling in *Boumediene v Bush* on prisoners in the Guant namo detention camps His eagerly anticipated book is certain to be acclaimed the definitive history of habeas corpus

Debates in Modern Philosophy Stewart Duncan,Antonia LoLordo,2013-09-13 *Debates in Modern Philosophy Essential Readings and Contemporary Responses* provides an in depth engaging introduction to important issues in modern philosophy It presents 13 key interpretive debates to students and ranges in coverage from Descartes Meditations to Kant s Critique of Pure Reason Debates include Did Descartes have a developed and consistent view about how the mind interacts with the body Was Leibniz an idealist or did he believe in corporeal substances What is Locke s theory of personal identity Could there be a Berkeleian metaphysics without God Did Hume believe in causal powers What is Kant s transcendental idealism Each of the thirteen debates consists of a well known article or book chapter from a living philosopher followed by a new response from a different scholar specially commissioned for this volume Every debate is prefaced by an introduction written for those coming upon the debates for the first time and followed by an annotated list

for further reading The volume starts with an introduction that explains the importance and relevance of the modern period and its key debates to philosophy and ends with a glossary that covers terms from both the modern period and the study of the history of philosophy in general Debates in Modern Philosophy will help students evaluate different interpretations of key texts from modern philosophy and provide a model for constructing their own positions in these debates **Spectrum** Perry Anderson,2020-05-05 The focus of Spectrum is the range of contemporary ideas that runs from conservative to liberal to radical conceptions of state and society rarely considered in the same optic It looks at the theories of major minds of the twentieth century Right including Carl Schmitt Leo Strauss and Friedrich von Hayek liberal philosophers such as John Rawls Jurgen Habermas and Norberto Bobbio and significant figures in the culture of the Left the historians Edward Thompson Robert Brenner and Eric Hobsbawm the classicist Sebastiano Timpanaro the sociologist Goran Therborn the novelist Gabriel Garcia Marquez The book concludes with some comparative observations on the two leading intellectual periodicals of the UK and USA the London Review of Books and New York Review of Books and a piece of family history **The Treasury of History ...** Samuel Maunders,1870 **Joined-up History** Arthur Chapman,Arie Wilschut,2015-08-01 Debates about the identity of school history and about the nature and purpose of the learning that does can and should take place in history classrooms continue in many countries around the world At issue in many of these debates beyond the concerns about history and national identity are often unaddressed questions about the role and inter relationship of historical knowledge and historical understanding in historical learning Research on historical thinking is on going and a complex tradition of enquiry has developed across national borders in the last 30 years focusing in particular on developing students understanding of historical meta concepts such as evidence and causation There has been comparatively little focus however on the historical content that students study on how they study it and on how mastery of historical content contributes to students overall picture of a historical past This volume gathers together recent research and theorising from around the world on key issues central to historical learning and instruction What sense do students make of the history that they are taught Are students able to organise historical knowledge in order to form large scale representations of the past and what difficulties can children face in doing so What are the relationships that obtain between history as an academic discipline as practised in universities and history as a subject taught in schools What can research tell us about the effects of instructional strategies that aim to help students join up what they learn in class into meaningful historical knowledge and understanding **An Essay on the History of the English Government and Constitution** Russell,1866 Distributive Justice Debates in Political and Social Thought Camilla Boisen,Matthew C. Murray,2015-10-23 Who has what and why in our societies is a pressing issue that has prompted explanation and exposition by philosophers politicians and jurists for as long as societies and intellectuals have existed It is a primary issue for a society to tackle this and these answers have been diverse This collection of essays approaches some of these questions and answers to shed light on neglected approaches to issues of

distribution and how these issues have been dealt with historically socially conceptually and practically The volume moves away from the more dominating and traditionally cast understandings of distributive justice and shows novel and unique ways to approach distributive issues and how these can help enlighten our course of action and thought today by creating new pathways of understanding The editors and contributors challenge readers by exploring the role and importance of restorative justice within distributive justice exploring the long shadow of practices of trusteeship and concepts of social and individual rights and obligations in welfare and economic systems social protection provision schemes egalitarian practices and post colonial African political thought Distributive Justice Debates in Political and Social Thought empowers the reader to cast a more critical and historically complete light on the idea of a fair share and the implications it has on societies and the individuals who comprise them

Oliver Cromwell Graham Goodlad, 2007-01-01 This book examines the factors that influenced Cromwell's evolution from fenland farmer to civil war general and national leader It also addresses the following key issues Why was Cromwell so successful as a military commander Is it possible to defend the methods he used in his controversial campaign in Ireland Was Cromwell motivated by ambition or by his religious convictions Was the Protectorate nothing more than a military dictatorship What was the nature of Cromwell's vision of religious freedom Was Cromwell's foreign policy driven by religious ideology or by the national interest Why has Cromwell been a source of enduring interest both for historians and the wider public
