Debating Sex and Gender in Eighteenth-Century Spain Marta V. Vicente, 2017-10-05 This book explores the popular and elite debates over the creation of a two sex model of human bodies in eighteenth century Spain

Defusing the Sexuality Debate Mark Vasey-Saunders, 2023-06-30 As debates around sexuality rumble on within certain sections of the church and become increasingly entrenched and embittered there is an increasing need from non evangelicals and evangelicals alike to grasp the historical and cultural context in which current debates about sexuality are happening Offering a detailed examination of the development consolidation and fracturing of an evangelical anglican consensus on the sexuality Defusing the Sexuality Debate seeks to explain why current disagreements are so intractable and offer some suggestions as to how all sides could facilitate a more constructive conversation Building on an exploration of the development of tradition and biblical scholarship in evangelical anglicanism during the twentieth century the book makes the case that conflicts over sexuality are symbolic of deeper disagreements over the place of christianity in the modern world

Modernity, Sexuality, and Ideology in Iran Kamran Talattof, 2011-06-01 In Iran since the mid nineteenth century one issue has been a common concern how should Iran become modern More than a century of struggle for or against modernity has constituted much of the social political and cultural history of the country In the decades since the 1979 Revolution the question has become even more critical In *Modernity Sexuality and Ideology in Iran* Talattof finds that the process of modernity never truly unfolded due in large part to Iran s reluctance to embrace the seminal subjects of gender and sexuality

Talattof's approach reflects a unique look at modernity as advancement not only in industry and economy but also toward an open intellectual discourse on sexuality. Exploring the life and times of Shahrzad, a dancer, actress, filmmaker, and poet, Talattof illuminates the country's struggle with modernity and the ideological, traditional, and religious resistance against it. Born in 1946, she performed in several theater productions, became an acclaimed film star in the 1970s, and pursued a career as a journalist and poet. Following the revolution, she was imprisoned and eventually became homeless on the streets of Tehran. Her success and eventual decline as a female artist and entertainer illustrate the conflict between modernity and tradition and Iran's failure to embrace an overt expression of sexuality. Talattof also profiles several other female artists of the 1970s, analyzing their lives and work as windows through which to examine what Iranian culture allowed and what it repudiated. A pioneering and timely work, *Modernity, Sexuality, and Ideology in Iran* explores the integral role of popular culture and female artists in the shaping of modern Iran, constructing a new framework for understanding such crucial concepts as ideology and modernity.

Debating the African Condition Alamin M. Mazrui, Alamin Mazrui, Willy Mutunga, 2004. Is Ali Mazrui a visionary or a vacuous intellectual? Is he reactionary, revolutionary, or essentially a radical pragmatist? These questions were the focus of a forum intended to interrogate Ali Mazrui's contributions over the last forty years or so of his career as an academic. The questions themselves capture the magnitude of the polarisation among different sections of Mazrui's audiences generated by his often provocative propositions and prescriptions on a wide range of issues, from the condition of the black woman to the destiny of the black race.

The Sex Education Debates Nancy Kendall, 2024-05-31. Educating children and adolescents in public schools about sex is a deeply inflammatory act in the United States. Since the 1980s, intense political and cultural battles have been waged between believers in abstinence until marriage and advocates for comprehensive sex education. In *The Sex Education Debates*, Nancy Kendall upends conventional thinking about these battles by bringing the school and community realities of sex education to life through the diverse voices of students, teachers, administrators, and activists. Drawing on ethnographic research in five states, Kendall reveals important differences and surprising commonalities shared by purported antagonists in the sex education wars, and she illuminates the unintended consequences these protracted battles have, especially on teachers and students. Showing that the lessons that most students, teachers, and parents take away from these battles are antithetical to the long-term health of American democracy, she argues for shifting the measure of sex education success away from pregnancy and sexually transmitted infection rates. Instead, she argues the debates should focus on a broader set of social and democratic consequences, such as what students learn about themselves as sexual beings and civic actors and how sex education programming affects school-community relations.

Debating Sex and Gender in Eighteenth-century Spain Marta V. Vicente, 2017. grade 1 1 University of Bonn language English abstract This research aims to expose the discourse of government officials the Catholic Church feminists and civil society around the feminist protests that have taken place in the context of high rates of violence in Mexico Particularly the aim is to understand if the discourse reinforces gender based violence The main methodology used was Critical Discourse Analysis to analyze the aforementioned positions and specifically Fairclough s three dimensional model To this end the situation in which the protests take place is first outlined in order to understand the context in which the discourses are produced Through this analysis it was found that the discourse strengthens gender based violence since it criminalizes the form of protest and delegitimizes the movement putting the gender based violence faced by women in the country in the background

Gender and Change Alexandra Shepard, Garthine Walker, 2009-06-08 Through a collection of essays by leading scholars on women s history and gender history Gender and Change Agency Chronology and Periodisation questions conventional chronologies while reassessing the relationship between gender agency continuity and change Celebrates 20 years of the publication of the journal Gender History Reflects the extent to which gender analysis suggests alternatives to conventional periodisation For example whether the European Renaissance can be classified as the same period of great cultural advance when viewed from the perspective of women Offers innovative historiographical and theoretical reflection on approaches to gender agency and change

Believing Women in Islam Asma Barlas, 2019-01-16 Does Islam call for the oppression of women Non Muslims point to the subjugation of women that occurs in many Muslim countries especially those that claim to be Islamic while many Muslims read the Qur an in ways that seem to justify sexual oppression inequality and patriarchy Taking a wholly different view Asma Barlas develops a believer s reading of the Qur an that demonstrates the radically egalitarian and antipatriarchal nature of its teachings Beginning with a historical analysis of religious authority and knowledge Barlas shows how Muslims came to read inequality and patriarchy into the Qur an to justify existing religious and social structures and demonstrates that the patriarchal meanings ascribed to the Qur an are a function of who has read it how and in what contexts She goes on to reread the Qur an s position on a variety of issues in order to argue that its teachings do not support patriarchy To the contrary Barlas convincingly asserts that the Qur an affirms the complete equality of the sexes thereby offering an opportunity to theorize radical sexual equality from within the framework of its teachings This new view takes readers into the heart of Islamic teachings on women gender and patriarchy allowing them to understand Islam through its most sacred scripture rather than through Muslim cultural practices or Western media

stereotypes For this revised edition of *Believing Women in Islam* Asma Barlas has written two new chapters *Abraham's Sacrifice in the Qur'an* and *Secular Feminism and the Qur'an* as well as a new preface an extended discussion of the Qur'an's wife beating verse and of men's presumed role as women's guardians and other updates throughout the book **Gender and Morality in Anglo-American Culture, 1650-1800** Ruth Heidi Bloch, 2003-02-10 Ruth Bloch's stellar essays on the origins of Anglo-American conceptions of gender and morality are brought together in this valuable book which collects six of her most influential pieces in one place for the first time and includes two new essays The volume illuminates the overarching theme of her work by addressing a basic historical question Why did the attitudes toward gender and family relations that we now consider traditional values emerge when they did Bloch looks deeply into eighteenth century culture to answer this question highlighting long term developments in religion intellectual history law and literature showing that the eighteenth century was a time of profound transformation for women's roles as wives and mothers for ideas about sexuality and for notions of female moral authority She engages topics from British moral philosophy to colonial laws regarding courtship and from the popularity of the sentimental novel to the psychology of religious revivalism Lucid provocative and wide ranging these eight essays bring a revisionist challenge to both women's studies and cultural studies as they ask us to reconsider the origins of the system of gender relations that has dominated American culture for two hundred years

Current Debates in Labour Economics, Demography & Gender Studies Derya Demirdizen Çevik, Gülçin Taşkıran, 2018 This book is written as an outcome of the sixth congress of CUDES Current Debates in Social Sciences This volume is broken down into three parts which fits logically into the subjects of the chapters The parts are composed of several defining papers that are basically in the area of Labour Economics Gender and Demography Studies The articles in this volume draw attention to work conditions of employees specifically regarding women extreme experiences of some minorities and gender issues in art and other social strata The opinions in each article reflect its author's own thoughts *The Triumphant Juan Rana* Peter E. Thompson, 2006-01-01 In *The Triumphant Juan Rana* Peter E Thompson examines the actor's sexuality both on and off the stage and demonstrates that his homosexuality was tolerated even understood and applauded by the public

Sexuality, Gender And Religion In Contemporary Discourses Fahimah Ulfat, Ali Ghandour, 2023-12-18 One of the most current issues occupying both public and academic discourse is sexuality and the related issues of sexual self determination gender order and homophobia Religion has a significant role to play in this discourse This centrality of religion is evident not only in the question of moral concepts but also in questions of the understanding of the body and gender In this context it should be emphasized that religion or more precisely a particular interpretation of the religious can have both a conflict promoting and an emancipatory effect If one wants to conceptualize a contemporary theological understanding then it is necessary to receive medical psychological as well as social and cultural science research The anthology aims to thematize these debates and to broaden the view for the multi layered processes of change taking place in the discourses

Gender Trouble and Current Archaeological Debates Uroš Matić, Bisserka Gaydarska, Laura Coltofean, Marta Díaz-Guardamino, 2024-10-28 This volume challenges the status quo by addressing a selection of intensely discussed themes in contemporary archaeological practice from a gender perspective. It aims to demonstrate that gender is intrinsic to archaeology and that gender archaeology can enrich our studies irrespective of the discipline's possible future directions and so-called paradigm shifts. The scholarly contributions commissioned for this volume critically discuss and reflect on a wide range of concepts, ideas, principles, and theories presently applied in archaeology within the framework of gender. The chapters included in the first part deal with themes in world archaeology that have little or no focus on gender, such as the Third Science Revolution (e.g. ancient DNA, stable isotopes, analyses, big data, posthumanism (e.g. new materialism, symmetrical archaeology and the ontological turn) and digital archaeology and heritage. The second part focuses on themes in which gender archaeology has made serious advances: intersectionality, social inequality, violence, mobility. The third part deals with themes crucial for contemporary archaeology and society, namely gender education, gender representation in museum exhibitions, and the future of gender archaeology. The volume concludes with a coda chapter that critically assesses the preceding contributions and the volume as a whole. The book offers a gender-balanced and inclusive authorship consisting of both well-established and early-career researchers closely connected to the EAA whose professionally, culturally, and geographically diverse backgrounds and experiences enrich the viewpoints discussed in the chapters. The targeted audience is archaeologists from all theoretical and scientific backgrounds at all stages of their career. Chapter 2, Sex, Gender, and the Third Science Revolution, is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com. **Sexuality and the Law** Vanessa Munro, Carl Stychin, 2007-05-07 Rediscovering the peculiarity of feminist perspectives rather than examining the broader range of gender-oriented analyses in the area of legal regulation and sexuality, this edited collection avoids the reductionist and essentialist shortcomings of feminism unmodified. With a substantial introductory chapter written by the editors summarizing the state of the law on core aspects of sexuality and providing a critical appraisal of the key themes and concerns it analyzes and transcends the traditional dichotomised thinking (e.g. coercion, choice, victim, agent) about the regulation of gender issues. It addresses a broad range of key themes including crime, the family, and child contract law, jurisprudence, public and international law. Offering a space in which to re-vitalize a feminist conception of sexuality, this book is an essential read for law students interested in the legal implications of gender and sexuality.
