Verbal Periphrases in a Functional Grammar of Spanish Hella Olbertz,2011-09-06 No detailed description available for Verbal Periphrases in a Functional Grammar of Spanish **Demons** Michael S. Heiser,2020-04-29 The truth about demons is far stranger and even more fascinating than what's commonly believed Are demons real Are they red creatures with goatees holding pitchforks and sitting on people's shoulders while whispering bad things Did a third of the angels really rebel with Satan Are demons and principalities and powers just terms for the same entities or are they different members of the kingdom of darkness Is the world a chaotic mess because of what happened in Eden or is there more to the story of evil What people believed about evil spiritual forces in ancient biblical times is often very different than what people have been led to believe about them today And this ancient worldview is missing from most attempts to treat the topic In Demons Michael Heiser debunks popular presuppositions about the very real powers of darkness Rather than traditions stories speculations or myths Demons is grounded in what ancient people of both the Old and New Testament eras believed about evil spiritual forces and in what the Bible actually says You'll come away with a sound biblical understanding of demons supernatural rebellion evil spirits and spiritual warfare

Crossfire Roberta Johnson,2021-10-21 The marriage of philosophy and fiction in the first third of Spain s twentieth century was a fertile one It produced some truly notable offspring novels that cross genre boundaries to find innovative forms and treatises that fuse literature and philosophy in new ways In her illuminating interdisciplinary study of Spanish fiction of the Silver Age Roberta Johnson places this important body of Spanish literature in context through a synthesis of social literary and philosophical history Her examination of the work of Miguel de Unamuno Pio Baroja Azorin Ramon Perez de Ayala Juan Ramon Jimenez Gabriel Miro Pedro Salinas Rosa Chacel and Benjamin Jarnes brings to light philosophical frictions and debates and opens new interpersonal and intertextual perspectives on many of the period s most canonical novels Johnson reformulates the traditional discussion of generations and isms by viewing the period as an intergenerational complex in which writers with similar philosophical and personal interests constituted dynamic groupings that interacted and constantly defined and redefined one another Current narratological theories including those of Todorov Genette Bakhtin and Martinez Bonati assist in teasing out the intertextual maneuvers and philosophical conflicts embedded in the novels of the period while the sociological and biographical material bridges the philosophical and literary analyses The result solidly grounded in original archival research is a convincingly complete picture of Spain s intellectual world in the first thirty years of this century Crossfire should revolutionize thinking about the Generation of 98 and the Generation of 14 by identifying the heterogeneous philosophical sources of each and the writers reactions to them in fiction

El corazón de un hombre Marie Ferrarella, 2009-11-01 Primero de la serie Desde que la princesa Amelia tenía el uso de razón el principio Reginald siempre había sido una molestia pero para asegurar aquella alianza de su país tendrá que casarse con él Aquello no era precisamente un cuento de hadas sobre todo teniendo en cuenta que su principio azul era en realidad lord Russell la mano derecha de Reginald Lord Russell duque de Carrington siempre había antepuesto su deber por encima de cualquier otra cosa Pero por el amor que sentía por Amelia estaría dispuesto a traicionar a su país y a su futuro rey

El amor hace ver Marisa Macor, 2023-03-01 La relación entre el amor y el conocimiento ha sido estudiada a lo largo de la historia de la Filosofía desde distintos matices y definiciones Sin embargo pocos lo han hecho bajo el enfoque del amor interpersonal y del conocimiento en su objetividad El presente abordaje sigue un itinerario iniciado por Karol Wojtyla en sus obras filosóficas sobre el amor interpersonal apertura y mutua donación de personas culmen de las relaciones tanto interpersonales como sociales y a su vez normativa fundante Finalmente el amor es el acto crucial de una verdadera participación en la humanidad de la otra persona e instaura por la reciprocidad la communio personarum realidad tercera que

posibilita un mayor acceso a la objetividad del conocimiento. Llevando las categorías wojtylianias hasta perspectivas intersubjetivas y cognitivas que el autor no explicitamente se analizan las bases para una visión de la relación amor/conocimiento todavía no explorada suficientemente.
