

The background of the entire slide is a photograph of a rural landscape. In the foreground, there is a field of dry, brownish vegetation, possibly a cornfield after harvest. A rustic wooden fence runs across the middle ground. The sky above is overcast with grey clouds.

Debt And Dispossession Farm Loss In Americas Heartland:

Debt and Dispossession Kathryn Marie Dudley, 2002-05-15 Explores the social impact of the farm debt crisis of the 1980 s through interviews with members of an agricultural community Geographical Perspectives on Sustainable Rural Change ,2010 This book focuses on three multi faceted aspects of rural sustainability farms and farming the remaking of rural communities and rural spaces and policy and action in rural development The research is focused on three global regions North America the United Kingdom and Ireland and Australia back cover **The Technological Fix** Lisa Rosner, 2013-02-01 The term technological fix should mean a fix provided by technology a solution for all of our problems from medicine and food production to the environment and business Instead technological fix has come to mean a cheap quick fix using inappropriate technology that usually creates more problems than it solves This collection sets out the distinction between a technological fix and a true technological solution Bringing together scholars from a variety of disciplines the essays trace the technological fix as it has appeared throughout the twentieth century Addressing such fixes as artificial hearts industrial agriculture and climate engineering these essays examine our need to turn to technology for solutions to all of our problems **Trump Studies** Tara Brabazon, Steve Redhead, Runyararo S. Chivaura, 2018-11-24 This book addresses the seismic political events of Donald Trump s presidency and the British vote to leave the EU It explores why citizens vote against their own best interests and demonstrates the role and value of universities in a time when evidence expertise and facts often dissolve into opinion emotion and fake news Green, Fair, and Prosperous Charles Connerly, 2020-09-01 At the center of what was once the tallgrass prairie Iowa has stood out for clearing the land and becoming one of the most productive agricultural states in the nation But its success is challenged by multiple issues including but not limited to a decline in union representation of meatpacking workers lack of demographic diversity the advent of job replacing mechanization growing income inequality negative contributions to and effects of climate change and environmental hazards To become green fair and prosperous Connerly argues that Iowa must reckon with its past and the fact that its farm economy continues to pollute waterways while remaining utterly unprepared for climate change Iowa must recognize ways in which it can bolster its residents standard of living and move away from its demographic tradition of whiteness For development to be sustainable society must balance it with environmental protection and social justice Connerly provides a crucial roadmap for how Iowans can move forward and achieve this balance Guitar Makers Kathryn Marie Dudley, 2014-11-10 It whispers it sings it rocks and it howls It expresses the voice of the folk the open road freedom protest and rebellion youth and love It is the acoustic guitar And over the last five decades it has become a quintessential American icon Because this musical instrument is significant to so many in ways that are emotional cultural and economic guitar making has experienced a renaissance in North America both as a popular hobby and for some a way of life In Guitar Makers Kathryn Marie Dudley introduces us to builders of artisanal guitars their place in the art world and the specialized

knowledge they've developed Drawing on in depth interviews with members of the lutherie community she finds that guitar making is a social movement with political implications Guitars are not simply made they are born Artisans listen to their wood respond to its liveliness and strive to endow each instrument with an unforgettable tone Although professional luthiers work within a market society Dudley observes that their overriding sentiment is passion and love of the craft Guitar makers are not aiming for quick turnover or the low cost reproduction of commodities but the creation of singular instruments with unique qualities and face to face transactions between makers buyers and dealers are commonplace In an era when technological change has pushed skilled artisanship to the margins of the global economy and in the midst of a capitalist system that places a premium on ever faster and more efficient modes of commerce Dudley shows us how artisanal guitar makers have carved out a unique world that operates on alternative more humane and ecologically sustainable terms

American Studies Philip J. Deloria, Alexander I. Olson, 2017-08-29 Introduction the object of American studies Why History Four American studies mixtapes An institutional history of American studies or what's the matter with mixtapes Method and methodology Texts an interpretive toolkit Archives a curatorial toolkit Genres and formations an analytical toolkit Power a theoretical toolkit A few thoughts on ideas and arguments Dispenser a case study *Chippewa Lake* Cindy L. Hull, 2012-10-01 Chippewa Lake is an idyllic waterfront community in north central Michigan popular with retirees and weekenders The lake is surrounded by a rural farming community but the area is facing a difficult transition as local demographics shift and as it transforms from an agriculture based economy to one that relies on wage labor As farms have disappeared local residents have employed a variety of strategies to adapt to a new economic structure The community meanwhile has been indelibly affected by the advent of newcomers and retirees challenging the rural cultural values An anthropologist with a background in sociology Cindy L Hull deftly weaves together oral accounts historic documents and participant surveys compiled from her nearly thirty years of living in the area to create a textured portrait of a community in flux Who Cares? Katherine S. Newman, Elisabeth S. Jacobs, 2010-03-15 Why major changes to America's social safety net have always required bold presidential leadership Americans like to think that they look after their own especially in times of hardship Particularly for the Great Depression and the Great Society eras the collective memory is one of solidarity and compassion for the less fortunate Who Cares challenges this story by examining opinion polls and letters to presidents from average citizens This evidence some of it little known reveals a much darker more impatient attitude toward the poor the unemployed and the dispossessed during the 1930s and 1960s Katherine Newman and Elisabeth Jacobs show that some of the social policies that Americans take for granted today suffered from declining public support just a few years after their inception Yet Americans have been equally unenthusiastic about efforts to dismantle social programs once they are well established Again contrary to popular belief conservative Republicans had little public support in the 1980s and 1990s for their efforts to unravel the progressive heritage of the New Deal and the Great Society Whether creating or rolling back such

programs leaders like Roosevelt Johnson Nixon and Reagan often found themselves working against public opposition and they left lasting legacies only by persevering despite it Timely and surprising Who Cares demonstrates not that Americans are callous but that they are frequently ambivalent about public support for the poor It also suggests that presidential leadership requires bold action regardless of opinion polls

The Prairie Agrarian Movement Revisited Kenneth Murray Knuttila, 2007 The formation of the Territorial Grain Growers Association in 1901 was not the only important event in the early history of what has come to be known broadly as the agrarian movement in the Canadian prairies but it was a defining moment in some respects Arguably it signalled the formation of an agrarian class but at least it was an indicator of an awakening of a democratic consciousness among family farmers Ultimately the Association provided a venue for analysis and critique the development of strategies and tactics and of course the nurturing of leadership and organizational forms that would have a profound influence upon politics and the state in the three prairie provinces and the Dominion as well as the creation of co operatives and other forms of direct action These eighteen essays honouring the 100th anniversary in 2001 of the formation of the TGGA explore important aspects of the historical legacy of the agrarian movement and contemplate their relevance to the current setting for the rural prairies pub desc

The Political Development of American Debt Relief Emily Zackin, Chloe N. Thurston, 2024-06-21 This book is about why debt relief was a salient political issue for so long and why it then ceased to be one It is also about the United States constitutional tradition and the contradictions it embodies Tracing the geographic sectoral and racial politics of debt relief over time and examining the roles that social movements interest groups and constitutional interpretation played Emily Zackin and Chloe N Thurston show how the politics of debt relief has interacted with race and other social hierarchies that have conditioned both state action and debtors opportunities to mobilize Although the twentieth and early twenty first century saw the erosion of debt protection history reminds us that Americans once mounted large scale grassroots campaigns for debt relief These activists made radical claims about economic justice and they reshaped constitutional law and the American state

Aryan Cowboys Evelyn A. Schlatter, 2009-06-03 During the last third of the twentieth century white supremacists moved both literally and in the collective imagination from midnight rides through Mississippi to broadband wired cabins in Montana But while rural Montana may be on the geographical fringe of the country white supremacist groups were not pushed there and they are far from fringe elements of society as many Americans would like to believe Evelyn Schlatter s startling analysis describes how many of the new white supremacist groups in the West have co opted the region s mythology and environment based on longstanding beliefs about American character and Manifest Destiny to shape an organic home grown movement Dissatisfied with the urbanized culturally progressive coasts disenfranchised by affirmative action and immigration white supremacists have found new hope in the old ideal of the West as a land of opportunity waiting to be settled by self reliant traditional families Some even envision the region as a potential white homeland Groups such as Aryan Nations The Order and Posse

Comitatus use controversial issues such as affirmative action anti-Semitism immigration and religion to create sympathy for their extremist views among mainstream whites while offering a solution in the popular conception of the West as a place of freedom opportunity and escape from modern society Aryan Cowboys exposes the exclusionist message of this American ideal while documenting its dangerous appeal Each in Our Own Language Benjamin Durham, 2025-10-14 The so called rural urban divide in the United States has by many accounts become increasingly wide and deep Most attempts however sincere to find ways to heal bridge or otherwise help rural and urban Americans understand their interdependence fail to account for the deep and disparate symbolic layers that suffuse these landscapes Benjamin Durham steps into this space to offer an insightful and compelling guidebook for understanding Via story semiotic analysis and careful ethical theological and liturgical reflection Durham plumbs the depths of symbol and meaning in rural America Being able to read and write symbol well is essential for ministry liturgical practice and crafting social ethics in ways that fully humanize disparate factions Understanding rural Americans symbolic world is an essential precursor to forming social conditions where love might flourish To help social reality bend toward the good in the context of rural America requires a literacy of its symbolic depth and bedrock Durham's careful work draws needed attention to symbol's social function something with which rural Christian ministry theological ethics and rural sociology all must urgently reckon Mortgaging the Ancestors Parker Shipton, 2009-01-06 This title looks briefly at European and North American theories on private property and the mortgage then shows how these theories have played out as attempted economic reforms in Africa Harlemworld John L. Jackson Jr., 2010-05-01 Harlem is one of the most famous neighborhoods in the world a historic symbol of both black cultural achievement and of the rigid boundaries separating the rich from the poor But as this book shows us Harlem is far more culturally and economically diverse than its caricature suggests through extensive fieldwork and interviews John L Jackson reveals a variety of social networks and class stratifications and explores how African Americans interpret and perform different class identities in their everyday behavior **Tobacco Capitalism** Peter Benson, 2012 Tells the story of the people who live and work on US tobacco farms at a time when the global tobacco industry is undergoing profound changes This book explores the cultural and ethical ambiguities of tobacco farming and offers concrete recommendations for the tobacco control movement in the United States and worldwide **The Radical Middle Class** Robert D. Johnston, 2006-02-19 America has a long tradition of middle class radicalism albeit one that intellectual orthodoxy has tended to obscure The Radical Middle Class seeks to uncover the democratic populist and even anticapitalist legacy of the middle class By examining in particular the independent small business sector or petite bourgeoisie using Progressive Era Portland Oregon as a case study Robert Johnston shows that class still matters in America But it matters only if the politics and culture of the leading player in affairs of class the middle class is dramatically reconceived This book is a powerful combination of intellectual business labor medical and above all political history Its author also humanizes the middle class by describing the

lives of four small business owners Harry Lane Will Daly William U Ren and Lora Little Lane was Portland's reform mayor before becoming one of only six senators to vote against U S entry into World War I Daly was Oregon's most prominent labor leader and a onetime Socialist U Ren was the national architect of the direct democracy movement Little was a leading antivaccinationist The Radical Middle Class further explores the Portland Ku Klux Klan and concludes with a national overview of the American middle class from the Progressive Era to the present With its engaging narrative conceptual richness and daring argumentation it will be welcomed by all who understand that reexamining the middle class can yield not only better scholarship but firmer grounds for democratic hope

Trucking Country Shane Hamilton, 2008-09-15 Trucking Country is a social history of long haul trucking that explores the contentious politics of free market capitalism in post World War II America Shane Hamilton paints an eye opening portrait of the rural highways of the American heartland and in doing so explains why working class populist voters are drawn to conservative politicians who seemingly don't represent their financial interests Hamilton challenges the popular notion of red state conservatism as a devil's bargain between culturally conservative rural workers and economically conservative demagogues in the Republican Party The roots of rural conservatism Hamilton demonstrates took hold long before the culture wars and free market fanaticism of the 1990s As Hamilton shows truckers helped build an economic order that brought low priced consumer goods to a greater number of Americans They piloted the big rigs that linked America's factory farms and agribusiness food processors to suburban supermarkets across the country Trucking Country is the gripping account of truckers whose support of post New Deal free enterprise was so virulent that it sparked violent highway blockades in the 1970s It's the story of bandit drivers who inspired country songwriters and Hollywood filmmakers to celebrate the last American cowboy and of ordinary blue collar workers who helped make possible the deregulatory policies of Jimmy Carter and Ronald Reagan and set the stage for Wal Mart to become America's most powerful corporation in today's low price low wage economy Some images inside the book are unavailable due to digital copyright restrictions

The Life of Cheese Heather Paxson, 2012-12-10 The Life of Cheese is the definitive work on America's artisanal food revolution Heather Paxson's engaging stories are as rich sharp and well grounded as the product she scrutinizes A must read for anyone interested in fostering a sustainable food system Warren Belasco author of *Meals to Come A History of the Future of Food* Heather Paxson's lucid and engaging book The Life of Cheese is a gift to anyone interested in exploring the wonderful and wonderfully complex realities of artisan cheesemaking in the United States Paxson deftly integrates careful considerations of the importance of sentiment value and craft to the work of cheesemakers with vivid stories and lush descriptions of their farms cheese plants and cheese caves While she beguiles you with the stories and tastes of cheeses from Vermont Wisconsin and California she also asks you to envision a post pastoral ethos in the making This ethos reconsiders contemporary beliefs about America's food commerce and culture reimagines our relationship to the natural world and redefines how we make eat and appreciate food For cheese aficionados food activists

anthropologists and food scholars alike reading *The Life of Cheese* will be a transformative experience Amy Trubek author of *The Taste of Place A Cultural Journey into Terroir* Finding a New Midwestern History Jon K. Lauck, Gleaves Whitney, Joseph Hogan, 2018-11 In comparison to such regions as the South the far West and New England the Midwest and its culture have been neglected both by scholars and by the popular press Historians as well as literary and art critics tend not to examine the Midwest in depth in their academic work And in the popular imagination the Midwest has never really ascended to the level of the proud literary South the cultured democratic Northeast or the hip innovative West Coast *Finding a New Midwestern History* revives and identifies anew the Midwest as a field of study by promoting a diversity of viewpoints and lending legitimacy to a more in depth rigorous scholarly assessment of a large region of the United States that has largely been overlooked by scholars The essays discuss facets of midwestern life worth examining more deeply including history religion geography art race culture and politics and are written by well known scholars in the field such as Michael Allen Jon Butler and Nicole Etcheson
