**Administration's Request for Additional Funding for Amtrak, Hearings Before the Subcommittee on Surface Transportation...92-1, October 26, 1971** United States. Congress. Senate. Commerce, 1971      **Train Time** John R. Stilgoe, 2007 Trains have a nostalgic connotation for most Americans but John Stilgoe argues that we should be looking to rail lines as the path to our future not just our past Train Time picks up where his acclaimed work Metropolitan Corridor left off carrying Stilgoe's ideas about the spatial consequences of railways up to the present moment With containers bringing the production of a global economy to our ports the price of oil skyrocketing and congestion and sprawl forcing many Americans to live far from work trains offer an obvious alternative to a culture dependent on cars and long haul trucking Arguing that the train is returning an economic and cultural tsunami about to transform the United States Stilgoe posits a future for railways as powerful shapers of American life For anyone looking for prescient analysis and compelling history of the American landscape and economy in general and railroad and transit history in particular Train Time is an engaging look at the future of our railroads and of transportation and land development For those familiar with John Stilgoe's talent for seeing things that elude the rest of us and delivering those observations in pithy asides about real estate corporate culture and other aspects of American life this book will not disappoint      **World Railways of the Nineteenth Century** Jim Harter, 2005 With its gallery of over 360 striking and unfamiliar images and extensive historical text World Railways of the Nineteenth Century invites readers to experience an unparalleled glimpse into the world of nineteenth century railroading Peter Skinner Foreword      **The Progress of Invention in the Nineteenth Century** Edward W. Byrn, 2022-06-13 The Progress of Invention in the Nineteenth Century by Edward Wright Byrn is a book about scientific innovation from the perspective not of someone who was in the field of inventing Rather the book is written from the point of view of someone who worked in the patent office a crucial step in all inventions The outside perspective gives refreshing insight in some of what were at the time amazing advancements in technology      *Books in Print*, 1991      **The Indiana Rail Road Company, Revised and Expanded Edition** Christopher Rund, Fred W. Frailey, Eric Powell, 2011-11-28 The Indiana Rail Road Company is a story of extraordinary success among the scores of independent short line and regional railroads spawned in the wake of railroad deregulation Christopher Rund chronicles the development of the company from its origins as part of America's first

land grant railroad the Illinois Central through the political and financial juggling required by entrepreneur Tom Hoback to purchase the line when it fell into disrepair Reborn as a robust profitable carrier the INRD has become a model for the new American regional railroad This revised edition with a new foreword by acclaimed author Fred Frailey and four new chapters brings readers up to date on Tom Hoback s amazing railroad adventure     Books in Print Supplement ,1994     **Trains** ,1978     **The Rail, the Body and the Pen** Brian Cowlshaw,2021-08-11 Many of the best known British authors of the 1800s were fascinated by the science and technology of their era Dickens included spontaneous human combustion and mesmerism hyptnotism in his plots Mary Shelley created the immortal Dr Victor Frankenstein and his creature H G Wells imagined the Time Machine the Invisible Man and invaders from Mars Percy Shelley was as infamous at Oxford for his smelly experiments and for his atheism This book of essays explores representations of technology in the work of various nineteenth century British authors Essays cluster around two important areas of innovation transportation and medicine Each essay contributor accessibly maps out the places where art and science meet detailing how these authors both affected and reflected the technological revolutions of their time     *American Heritage Society's Americana* ,1980     **The New Yorker** ,1993
