Deciding To Intervene:

Humanitarian Intervention and the Responsibility To Protect James Pattison, 2010-02-25 Humanitarian Intervention and the Responsibility To Protect considers who should undertake humanitarian intervention in response to an ongoing or impending humanitarian crisis such as found in Rwanda in early 1994 Kosovo in 1999 and Darfur more recently The doctrine of the responsibility to protect asserts that when a state is failing to uphold its citizens human rights the international community has a responsibility to protect these citizens including by undertaking humanitarian intervention It is unclear however which particular agent should be tasked with this responsibility Should we prefer intervention by the UN NATO a regional or subregional organization such as the African Union a state a group of states or someone else This book answers this question by first determining which qualities of interveners are morally significant and second assessing the relative importance of these qualities For instance is it important that an intervener have a humanitarian motive Should an intervener be welcomed by those it is trying to save How important is it that an intervener will be effective and what does this mean in practice The book then considers the more empirical question of whether and to what extent the current interveners actually possess these qualities and therefore should intervene For instance how effective can we expect UN action to be in the future Is NATO likely to use humanitarian means Overall it develops a particular normative conception of legitimacy for humanitarian intervention It uses this conception of legitimacy to assess not only current interveners but also the desirability of potential reforms to the mechanisms and agents of humanitarian intervention

Assessing Trade-Offs in U.S. Military Intervention Decisions Bryan Frederick, Jennifer Kavanagh, Stephanie Pezard, Alexandra Stark, Nathan Chandler, James Hoobler, Joeeun Kim, 2021-12-13 In this report the authors create a framework that can be used to assess the trade offs involved in U S military intervention decisions following the outbreak of a war or crisis to inform future debates about whether and when to intervene

Just Intervention Anthony F. Lang Jr., 2003-12-01 What obligations do nations have to protect citizens of other nations As responsibility to our fellow human beings and to the stability of civilization over many years has ripened fully into a concept of a just war it follows naturally that the time has come to fill in the outlines of the realities and boundaries of what constitutes just humanitarian intervention Even before the world changed radically on September 11 policymakers scholars and activists were engaging in debates on this nettlesome issue following that date sovereignty human rights and intervention took on fine new distinctions and questions arose Should sovereignty prevent outside agents from interfering in the affairs of a state What moral weight should we give to sovereignty and national borders Do humanitarian emergencies justify the use of military force Can the military be used for actions other than waging war Can national interest justify intervention Should we kill in order to save These are profound and troubling questions and questions that the distinguished contributors of Just Intervention probe in all their complicated dimensions Sohail Hashmi analyzes how Islamic tradition and Islamic states understand humanitarian intervention Thomas Weiss strongly advocates the

use of military force for humanitarian purposes in Yugoslavia Martin Cook Richard Caplan and Julie Mertus query the use of force in Kosovo Michael Barnett drawing on his experience in the United Nations while it debated how best to respond to Rwandan genocide discusses how international organizations may become hamstrung in the ability to use force due to bureaucratic inertia and Anthony Lang ably envelopes these and other complex issues with a deft hand and contextual insight Highlighting some of the most significant issues in regard to humanitarian intervention Just Intervention braves the treacherous moral landscape that now faces an increasingly unstable world These contributions will help us make our way

Post-conflict Reconstruction and Development in Africa Theo Neethling, Heidi Hudson, 2013-10-01 Some of the bloodiest conflicts occur on the African continent An Afrocentric perspective is therefore a suitable starting point for research into the possible strategies for post conflict peacebuilding The authors of this book consider the problems around the concept of post conflict and the blurring of military and civilian roles analysing the UN roles in the DRC and Sierra Leone as well as the African Union Mission in Burundi The main context of the book however is the South African Army's strategy for PCRD in Africa which was developed with the African Union's 2006 Post Conflict Reconstruction and Development Needs Assessment Guide in mind This book emanates from this plan It therefore also explores South Africa's policy imperatives to integrate development projects and peace missions involving the military as well as civilian organisations While this book is not intended as an

instruction manual it hopes to ignite an understanding of the particular processes required to develop a sustainable and cohesive post conflict peacebuilding strategy within the African environment **Standards for the Administration of Juvenile Justice** United States.
