Bulmer,2017-07-12 A rich source of ideas about sociological research methods to assist the researcher in determining what method will provide the most reliable and useful knowledge how to choose between different methodologies and what constitutes the most fruitful relationship between sociological theories and research methods

#### **Understanding Social**

**Research** Angela Dale,Jennifer Mason,2011 The book explores methodological approaches in three key areas personal life and relationships places and mobilities and socio cultural change These work as vehicles to expound methodological issues and challenges that are relevant across a much wider range of domains Understanding Social Research brings together leading researchers in the social sciences including sociology health geography psychology and social statistics to elaborate their approach to research design and practice based on their own research experience and to consider what kinds of knowledge their methods can produce Each of the contributing authors reflects on their own methods and identifies what is distinctive about them The book contains fascinating insights into how the knowledge we produce is shaped by the methods we choose and use

*Surveys in Social Research* D. A. De Vaus,2002 As well as explaining how to conduct effective social research surveys the author of *Surveys in Social Research* provides a range of tools to enable the reader to become a critical consumer of research findings

*Surveys in Social Research* David de Vaus,2013-01-11 This work provides advice on how to plan conduct and analyze social surveys It emphasizes the links between theory and research the logic and interpretation of statistics and the practices of social research The fifth edition includes a new chapter on ethics and a glossary It assumes no background in statistical analysis and gives readers the tools they need to come to grips with this often confusing field

**Qualitative Educational Research in Developing Countries** Michael Crossley,Graham Vulliamy,2013-10-15 This collection of 11 original in depth accounts of qualitative research and evaluation in developing countries argues that such innovative methods offer considerable advantages over traditional methods With examples drawn from Asia Africa the South Pacific Central America and the Caribbean each chapter focuses upon a specific method such as qualitative interviews

fieldwork or document analysis and considers related theoretical and practical issues Key issues addressed include the identification of appropriate research questions access research ethics practitioner research case study evaluation North South collaboration and the potential of qualitative research for policy making and theory *Practical Social Investigation* Richard Lampard, Christopher Pole, 2015-10-15 *Practical Social Investigation* provides within a single text an introduction to a wide range of both long standing and newer social research methods Its balanced and integrated coverage of qualitative and quantitative approaches demonstrates that they can be complementary While research practice is emphasised readers are encouraged to reflect on methodological issues as well as being provided with tools for their own research This coherent accessibly written book draws upon the authors extensive experience of conducting research and teaching research methods Numerous examples based on real research studies illustrate key issues in a way that acknowledges both the messiness and the creativity of social research *In the Field* Robert G. Burgess, An authoritative guide to the problems and procedures associated with data collection and analysis in field research *Research Methods for Law* Mike McConville, Wing Hong (Eric) Chui, 2024-12-31 This third edition of *Research Methods for Law* offers students in a range of disciplines law sociology psychology criminology forensic science social legal studies and social welfare an advanced introduction to research methods in an accessible and grounded way As well as covering theoretical comparative and interdisciplinary methods the book breaks new ground by offering a focus on topics of contemporary and developing concerns in areas such as Artificial Intelligence BRICS Continental Legal Systems Islamic Law Gender Race and the Virtual World The expert contributors draw on their vast experience in teaching and research to encourage students and provide sure pathways for their own enterprises with technical competence and adherence to ethical standards **Analyzing Qualitative Data** Alan Bryman, Bob Burgess, 2002-09-09 This major inter disciplinary collection is edited by two of the best respected figures in the field and provides a superb general introduction to the analysis of qualitative data for all students **Doing Research/Reading Research** Paul Dowling, Andrew Brown, 2012-12-06 This bestselling text enables beginning researchers to organise and evaluate the research they read and to plan and implement small scale research projects of their own It gives structured practical guidance on the development of a research question techniques of data collection qualitative and quantitative forms of analysis the writing and dissemination of research The authors present research as a principled activity that begins with the establishing and structuring of theoretical and empirical fields and research findings as serving to ask questions of educational practice rather than directing it This revised and updated second edition includes a new chapter dealing with the complex issue of research ethics It also includes consideration of digital technologies and new media both as settings of research and research tools the chapters on qualitative and quantitative analysis have been expanded and the annotated bibliography updated The authors have been active researchers in educational studies for more than twenty years They have also supervised numerous doctoral and masters dissertations and taught research methods programmes in various higher

education institutions around the world as well as in the Institute of Education University of London

**Sociology and Development** Tony Barnett, 2003-09-02 First Published in 1988 This stimulating and original book examines how sociological theory helps us to understand development The author writing with clarity and from long practical experience in the field of development aims to show how different sociological theories cast light on the process of development both in the Third World and in the Developed World He pays particular attention to the way in which that theory reflects the social economic political and racial assumptions of the time in which it originates Tony Barnett maintains that the development process requires an understanding of the economic cultural and political ways in which people organize their lives This is facilitated throughout the book with the use of carefully selected and wide ranging examples quotations and case studies which support and amplify ideas in the narrative producing a truly interactive text that fully involves the reader Sociology and Development is as illuminating about the developed world as it is about the underdeveloped world But as the author asserts we are all citizens of the same world increasingly although unequally sharing common resources ideas and experiences Sociology can tell us about the origins of this inequality and how it is maintained Indeed it is the book's main argument that an understanding of the relationship between sociology and the analysis of development can tell us much about whether how and why development has occurred Sociology and Development will be of great value to students of Development Studies Third World Studies Area Studies and those wanting to supplement their work in economics and other development related disciplines in both the social and environmental sciences It is also a thought provoking entertaining and enlightening introduction for non specialists

**Methods, Sex and Madness** Dr Derek Layder, Julia O'Connell Davidson, 2012-08-21 Social research yields knowledge which powerfully affects our daily lives The facts it generates shape not just how we see ourselves and others but also whether or not we see the existing status quo as normal just and legitimate This book examines and questions the methods used by social researchers to produce such knowledge It focuses chiefly on research into human sexuality and madness It introduces and critically assesses everything from survey methods to participant observation It opens up broader philosophical debates about the nature of knowledge and highlights issues surrounding the ethics and politics of research The book looks at the research community and the research process in detail before moving on to examine the main techniques used in social research the use of official statistics the survey method interviewing laboratory observation ethnography the use of documentary sources textual analysis By exploring both technical and conceptual problems in the work of researchers like Freud and Kinsey and by considering the difficulties faced by researchers concerned with phenomena such as rape witch hunts and prostitution this book makes methodological issues both interesting and accessible

*Researching into Student Learning and Support in Colleges and Universities* Jones, Margaret, Siraj-Blatchford, John (both Lecturers, Westminster College, Oxford University), 2013-09-13 This work looks at the issues of student learning and support in the context of their own institution Issues covered include student representation underachievement and the

overall aims and ethics of further and higher education      Class and Conflict in the Fishers' Community in Indonesia Rilus A. Kinseng, 2020-01-14 This book analyses social conflict among fishers in Indonesia by implementing class theory thus adopting a new approach to analysing fishers conflicts in Indonesia In using this approach the book enables a comprehensive understanding of the nature of fishers social conflicts It demonstrates that the primary cause triggering conflict among fishers in Indonesia is not exploitation but domination This domination causes injustice in terms of access among fishers which in turn threatens their livelihood The author unpacks the influence of political parties and how macro economic conditions and public policy have become contextual variables of these class conflicts in the fisheries community The book presents the unique characteristics of class conflicts among fishers compared to class conflicts in industrial sectors underpinned by Marxist theory This book will be relevant to fisheries policy makers in Indonesia and abroad researchers and students in anthropology sociology and development economics as well as community and rural development specialists and conservationists      **Representations of Death** Mary Bradbury, 2012-11-12 Drawing upon a rare and highly original ethnography of contemporary mortuary practices Representations of Death takes the reader through the medical bureaucratic commercial and ritual aspects of death Going behind the scenes at hospitals funeral parlours crematoria and cemeteries as well as holding poignant in depth interviews with bereaved women Bradbury has been able to illuminate the very different perspectives of the deathwork professional and the grieving relative Illustrated with stunning photographs this fascinating book makes a significant contribution to the growing literature in death studies      **Stepping Stones To Achieving Your Doctorate: By Focusing On Your Viva From The Start** Trafford, Vernon, Leshem, Shosh, 2008-10-01 This title focuses specifically on how doctoral candidates can raise levels of thinking about their topic their research process and their contributions to knowledge It emphasises the nature of conceptualisation sought by examiners within theses
