A Protestant Theology of Religious Pluralism Livingstone Thompson,2009 In this book three main things have been accomplished First it locates the emergence of religious pluralism as a problem for Christian theology Secondly it shows the critical weaknesses in the approaches to pluralism that we find in the works of Gavin D Costa George Lindbeck and John Hick all major players in the field of religious pluralism Retrieving theological material from seventeenth century Comenius and eighteenth century Zinzendorf the book

shows that the Protestant tradition has suitable theological material that can better serve the development of a theology of religious pluralism Thirdly the book enters into dialogue with Islam and highlights exciting new approaches to addressing the issues of salvation the Qur'an and Christology One critical outcome of the book is that it breaks new ground in showing the limitations of liberation theology and proposes a fascinating new pluralism sensitive hermeneutical approach to contextual theology Christians and Muslims Hugh Goddard,2003-09-02 One of the most persistent problems in Christian Muslim relations over the centuries has been the tendency by each to judge the other by standards and criteria not used in assessing itself Goddard argues that such is no longer admissible and proceeds to offer a number of useful insights *Martyrdom, Mysticism and Dissent* Asghar Seyed-Gohrab,2021-08-23 This book is the first extensive research on the role of poetry during the Iranian Revolution 1979 and the Iran Iraq War 1980 1988 How can poetry especially peaceful medieval Sufi poems be applied to exalt violence to present death as martyrdom and to process war traumas Examining poetry by both Islamic revolutionary and established dissident poets it demonstrates how poetry spurs people to action even leading them to sacrifice their lives The book's originality lies in fresh analyses of how themes such as martyrdom and violence and mystical themes such as love and wine are integrated in a vehemently political context while showing how Shiite ritual such as the pilgrimage to Mecca clash with Saudi Wahhabi appreciations A distinguishing quality of the book is its examination of how martyrdom was instilled in the minds of Iranians through poetry employing Sufi themes motifs and doctrines to justify death Such inculcation proved effective in mobilising people to the front ready to sacrifice their lives As such the book is a must for readers interested in Iranian culture and history in Sufi poetry in martyrdom and war poetry Those involved with Middle Eastern Studies Iranian Studies Literary Studies Political Philosophy and Religious Studies will benefit from this book From his own memories and expert research the author gives us a ravishing account of a poetry stained with blood violence and death His brilliantly layered analysis of modern Persian poetry shows how it integrates political and religious ideology and motivational propaganda with age old mystical themes for the most traumatic of times for Iran Alan Williams Research Professor of Iranian Studies University of Manchester When Asghar Seyed Gohrab a highly prolific academician publishes a new book you can be certain he has paid attention to an exciting and largely unexplored subject Martyrdom Mysticism and Dissent The Poetry of the 1979 Iranian Revolution and the Iran Iraq War 1980 1988 is no exception in the sense that he combines a few different cultural religious mystic and political aspects of Iranian life to present a vivid picture and thorough analysis of the development and effect of what became known as the revolutionary poetry of the late 1970s and early 1980s This time he has even enriched his narrative by inserting his voice into his analysis It is a thoughtful book and a fantastic read Professor Kamran Talattof University of Arizona *Genesis 1-11* Anwarul Azad,Ida Glaser,2022-09-07 Genesis is the book of beginnings and creation begins with light Most religious people live with shuttered windows receiving light only from their own people and their own tradition Genesis 1 11 calls us to recognize all peoples as created by God and under the

rainbow covenant of his light This commentary opens windows on seeds of truth from Genesis 1 11 which are planted in the various environments in front of the text including the New Testament rabbinic tradition the Qur'an and Bangladeshi culture It examines those seeds in their original seedbed discerning how their truths will unfurl from the fragrant Genesis 1 11 bud of theology through the blessings given to Eve Noah and Abraham Windows on the Text is a ground breaking Bible commentary series written by followers of Jesus in Muslim contexts It develops biblical insight in deliberate conversation with the Qur'an the Hadith and local Islamic cultures Confident that the Bible in its entirety speaks directly into Muslim contexts it opens new windows into the holy word of God to equip and empower believers to live out their faith in loving service and clear communication within their communities
