Decision Making In Criminal Justice Toward The Rational Exercise Of Discretion:

Decision Making in Criminal Justice Michael R. Gottfredson, Don M. Gottfredson, 2013-07-01 The study of decisions in the criminal justice process provides a useful focus for the examination of many fundamental aspects of criminal justice. These decisions are not always highly visible. They are made or dinarily within wide areas of discretion. The aims of the decisions are not always clear and indeed the principal objectives of these decisions are often the subject of much debate. Usually they are not guided by explicit decision policies. Often the participants are unable to verbalize the basis for the selection of decision alternatives. Adequate information for the decisions is usually unavailable. Rarely can the decisions be demonstrated to be rational. By a rational decision we mean that decision among those possible for the decisionmaker which in the light of the information available maximizes the probability of the achievement of the purpose of the decisionmaker in that specific and particular case. Wilkins 1974a 70 also 1969 This definition which stems from statistical decision theory points to three fundamental characteristics of decisions. First it is as sumed that a choice of possible decisions or more precisely of possible alternatives is available. If only one choice is possible there is no decision problem and the question of rationality does not arise. Usually of course there will be a choice even if the alternative is to decide not to decide a choice that of course often has profound consequences.

Decisionmaking in Criminal Justice Michael R. Gottfredson, Don M. Gottfredson, 1980 *Judicial Decision Making, Sentencing Policy, and Numerical Guidance* Austin Lovegrove, 2012-12-06 This book describes an original empirical study of judicial decision making. The process of determining sentences is a difficult one for judges and often unnecessarily intuitive, subjective and complex. The present study introduces a conceptual outline and empirical technique for increasing the precision of sentencing policy thus offering an aid to judges who sentence in the light of this policy. The primary purpose of this model of judicial decision making is to provide a framework for scaling the seriousness of any single case in relation to the facts of that case and for relating this assessment to the appropriate quantum of sentence. The validity of the model is tested and cross validated in an archival study. This innovative research serves as an important prototype for a system of numerical guidance to judges and sentencers. *Federal Sentencing Revision* United States. Congress. House. Committee on the Judiciary. Subcommittee on Criminal Justice, 1987

The Fourth Amendment Michael J. Z. Mannheimer, 2023-08-22 Police are required to obey the law. While that seems obvious, courts have lost track of that requirement due to misinterpreting the two constitutional provisions governing police conduct: the Fourth and Fourteenth Amendments. The Fourth Amendment forbids unreasonable searches and seizures and is the source of most constitutional constraints on policing. Although that provision technically applies only to the federal government, the Fourteenth Amendment ratified in the wake of the Civil War has been deemed to apply the Fourth Amendment to the States. This book contends that the courts' misinterpretation of these provisions has led them to hold federal and state law enforcement mistakenly to the same constitutional standards. The Fourth Amendment was originally understood as a

federalism or states rights provision that in effect required federal agents to adhere to state law when searching or seizing. Thus applying the same constraint to the States is impossible. Instead the Fourteenth Amendment was originally understood in part as requiring that state officials 1 adhere to state law 2 not discriminate and 3 not be granted excessive discretion by legislators. These principles should guide judicial review of modern policing. Instead constitutional constraints on policing are too strict and too forgiving at the same time. In this book Michael J Z Mannheimer calls for a reimagination of what modern policing could look like based on the original understandings of the Fourth and Fourteenth Amendments. **Equal Justice and the Death Penalty** David C. The Power to Arrest Robin S. Engel, Robert E. Worden, Nicholas Corsaro, Hannah D. McManus, Danielle Reynolds, Hannah Cochran, Gabrielle T. Isaza, Jennifer Calnon Cherkaskas, 2019-07-06. This insightful volume examines key research questions concerning police decision to arrest as well as police led diversion. The authors critically evaluate the tentative answers that empirical evidence provides to those questions and suggest areas for future inquiry. Nearly seven decades of empirical study have provided extensive knowledge regarding police use of arrest. However, this research highlights important gaps in our understanding of factors that shape police decision making and what is required to alter current police practice. Reviewing this research base, this brief takes stock of what is known empirically about all aspects related to the use of arrests, providing important insights on the knowledge needed to make evidence based policy decisions moving forward. With the potential to better impact policy and programs for alternatives to arrest, this brief will appeal to researchers and practitioners in evidence based policing and police decision making as well as those interested in alternatives to arrest and related fields such as public policy. **Criminal Justice** Philip P.
