*Cancer Nursing* Jessica Corner, Christopher D. Bailey, 2009-03-16

The needs of cancer patients and their families are complex. Yet still more complex are the powerful social and cultural forces that shape the delivery of cancer care and the way in which it is experienced. *Cancer Nursing: Care in Context* addresses this by adopting a unique approach that situates cancer care in the context of society's attitudes to the disease and the broader everyday needs of both patients and their carers. By combining evidence-based information, a critical view of care and treatment, and first-hand accounts of having cancer and caring for people with cancer, the book provides a new perspective on how best to deliver the care that patients truly require. This second edition includes new chapters on prevention, diagnosis, symptoms, self-help, and self-management and living with cancer long-term. It also addresses significant changes in cancer care, including expansion of nursing roles, the establishment of cancer networks, and cancer collaborative projects. Considers NICE guidance on Supportive and Palliative care. Incorporates material on prevention and early detection. Includes evidence tables based on relevant literature. *Cancer Nursing: Care in Context* is an invaluable resource for all those involved in the provision of cancer care and support to patients and their families.
