Decision For Europe The Necessity Of Britains Engagement:

Decision for Europe J. L. Zaring, 1964 **Britain Faces Europe** Robert L. Pfaltzgraff, Jr., 2016-11-11 Transformations of thought among British foreign policy makers since World War II have motivated this new study For the first time in its history during the postwar decade Britain began to abandon its world power outlook and to turn toward a European consensus substituting regional interests for its global perspective The author asks How does a people so attuned to worldwide interests and commitments reconcile itself to such drastically altered circumstances as those that followed World War II How does a people that has historically viewed with hostility the unification of continental Europe develop as a top foreign priority participation in the European integration movement The book focuses on the response of the British Government to changing international and domestic forces including elite groups at home Britain Faces Europe is the first book to examine both the development of British policy and the evolution of attitudes in the British private sector toward European integration between 1957 and 1967 Drawing on public documents and interviews the author traces the movement of British policy toward a more European outlook Investigating publications of interest groups such as the National Farmers Union the Trades Union Congress the Confederation of British Industry and such Europe oriented groups as Federal Union and the United Kingdom Council for Europe the author traces the development of support for Common Market membership in the private sector Developing attitudes in representative British newspapers and journals and those of parliamentary parties are described Publications and statements of anti European organizations and public opinion polls are also examined Important elements of the study for all students and observers of world affairs are its examination of British expectations from European integration and its assessment of the British Common Market case from propositions about integration drawn from theoretically oriented literature The book is an innovation in approach in that other studies have focused almost exclusively on descriptions of official policy without major reference to either the private sector or theories of integration at the international level De Gaulle and European Unity Hardev Singh Chopra, 1974 **Newsletter** United States. Department of State, 1969 Department of State News Letter United States. Department of State, 1969 *News Letter* United States. Newsletter, 1969 **British Public Opinion and Party Policy Towards European Integration, 1973-2016** Stuart Smedley, 2025-03-18 This book provides the first detailed historical account of British public opinion and party policy towards European integration from 1973 the year in which the UK joined the European Community to 2016 the year in which the UK voted to leave the European Union It takes a thematic approach towards this subject exploring party policy and public opinion towards significant developments in the European integration process during the period covered These include moves towards deeper and flexible integration economic and monetary union the Single Market enlargement and foreign and defence policy cooperation The author assesses the nature of British public opinion towards these developments some of

which Britain's government and main political parties supported and others which they opposed and analyses the extent to which party policies reflected public opinion **The Rise and Fall of British Policy for Membership of Europe** John S.F. Wright, 2024-08-17 This is a book about policy change that focusses on a single case study the rise and fall of the British policy for membership of European institutions It traces the establishment of British identity as a European Member State and the meaning of the country's participation in the block in 1973 to its deterioration through the 1980s 1990s and 2000s ending with its eventual failure at the 2016 referendum Considering the abject state into which the meaning and identity of the pro European policy had fallen by that time the book argues that while David Cameron might have lost his June referendum by a slender 1.8% majority he should have lost by a whole lot more It also raises important implications for understanding the nature and dynamics of policy change in UK politics and beyond It will appeal to scholars and students of political theory public policy British and European politics **Britain's Political and Military Position in the**

Commonwealth and in the Western Alliance Since 1945 Harald Husemann, 1970 **The Balancing Act** Atsuko Ichijo, 2017-01-10 This is a careful examination of the historical formation of Britain and of key moments in its relations with the European powers The author looks at the governing discourses of politicians the mass media and the British people The rhetoric of sovereignty among political elites and the population at large is found to conceive of Britain's engagement with Europe as a zero sum game A second theme is the power of geographical images island Britain in feeding the idea of the British nation as by nature separate and autonomous It follows that the EU is seen as other and involvement in European decision making tends to be viewed in terms of threat This is naive as nation states are not autonomous economically militarily or politically Only pooling sovereignty can maximize their national interests Atsuko Ichijo is Senior Researcher in European Studies at Kingston University European Documentation, 1970 **A Collection of Treaties, Engagements, and Sanads Relating to India and Neighbouring Countries** India. Foreign and Political Dept, 1892 **The Foreign Affairs 50-year Bibliography** Council on Foreign Relations, 1972 **Interplay of European/American Affairs**, 1968

The Oxford Handbook of Modern British Political History, 1800-2000 David Brown, Robert Crawford, Gordon Pentland, 2018 The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written about Britain's past politics This Handbook shows the ways in which political historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within

historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain's political past and a thought provoking long view for those interested in current political challenges

Iceland and European Integration Baldur Thorhallsson, 2004-03-01 Why has Iceland not sought membership of the European Union This unique volume uses the case study of Iceland the only Nordic state to have never applied for EU membership to explore the complex attitudes of small states to European integration and provide a new theoretical approach for understanding such relationships The contributors explain why the Icelandic political elite has been reluctant to participate in European integration In this context they analyse the influence that Iceland's special relationship with the US and the fisheries sector have had on their dealings with the EU Also considered are new variables such as national administrative characteristics and particular features of the domestic arena of the political elite as well as the elite's perception of international relations and its political discourse concerning independence and sovereignty *Iceland and European Integration* will appeal to all those interested in European integration and the international relations of small states *European Community*, 1968
