Decisions Choosing Life Or Choosing Death:

Decisions Christal Gardner, 2003-10-01 Why do some Christians prosper while others do not Why can God's power be seen in some lives and not in others Are God's promises only to a few No The answer lies in the decisions we make Some Christians are blessed by making the hard decisions to be obedient to God while others make decisions contrary to His will thereby nullifying the great power that is available to them This book teaches us how to live victorious lives merely by the choices we make I have set before you life and death blessings and curses Now choose life Deut 30 19

Family Therapy with Suicidal Adolescents Anthony P. Jurich, 2012-01-26 This book describes a blend of insight oriented behavioral and strategic family therapy which the author has developed over thirty four years of dealing with suicidal adolescents It aims not to replace other forms of therapy but to augment the therapist's own therapeutic style The book offers an informative and personally told story bringing together scholarship and meaningful glimpses into the thought processes of suicidal youth Written in an understandable friendly and practical style it will appeal to those in clinical practice as well as graduate level students pursuing clinical work

Choosing Life, Choosing Death Charles Foster, 2009-02-27 Autonomy is a vital principle in medical law and ethics It occupies a prominent place in all medico legal and ethical debate But there is a dangerous presumption that it should have the only vote or at least the casting vote This book is an assault on that presumption and an audit of autonomy's extraordinary status This book surveys the main issues in medical law noting in relation to each issue the power wielded by autonomy asking whether that power can be justified and suggesting how other principles can and should contribute to the law It concludes that autonomy's status cannot be intellectually or ethically justified and that positive discrimination in favour of the other balancing principles is urgently needed in order to avoid some sinister results This book is a sustained attack on the hegemony of the idea of autonomy in medical ethics and law Charles Foster is no respecter of authority whether of university professors or of law Lords He grabs his readers by their lapels and shakes sense into them through a combination of no nonsense rhetoric and subtle argument that is difficult to resist Tony Hope Professor of Medical Ethics Oxford University This book is unlikely to be in pristine state by the time you have finished reading it Whether that is because you have thrown it in the air in celebration or thrown it across the room in frustration will depend on your perspective But this book cannot leave you cold It is a powerful polemic on the dominance of autonomy in medical law which demands a reaction Charles Foster sets out a powerful case that academic medical lawyers have elevated autonomy to a status it does not deserve in either ethical or legal terms In a highly engaging accessible account he challenges many of the views which have become orthodox within the academic community This will be a book which demands and will attract considerable debate Jonathan Herring Exeter College Oxford University This is a learned lively and thought provoking discussion of problems central to the courts approach to ethical issues in medical law What principles are involved More significantly which really underlie and inform the process of seeking justice in difficult cases Charles Foster persuasively

argues and demonstrates that respect for autonomy is but one of a number of ethical principles which interact and may conflict. He also addresses the sensitive issue of the extent to which thoughts and factors which go to influence legal decisions may not appear in the judgments. Adrian Whitfield QC *Introducing the Jake La Motta of medical ethics*. Foster is an academic street fighter who has bloodied his hands in the court room. He provides a stinging relentless ground attack on the Goliath of medical ethics, the central place of autonomy in liberal medical ethics. This is now the first port of call for those who feel that medical ethics has become autonomized. Julian Savulescu, Uehiro Chair in Practical Ethics, University of Oxford. This important book offers a robust challenge to anyone, whether lawyer or ethicist, who sees respect for autonomy as the only game in town. It argues eloquently and effectively that on the one hand, despite the reverence paid to it by judges in practice, the law even in the context of consent weaves together a number of moral threads of which autonomy is merely one in the pursuit of a good decision. It argues on the other hand that were the day to day practice of law to be guided primarily by respect for autonomy, this would be wrong. Foster concludes that whilst any society that does not have laws robustly protecting autonomy is an unsafe and unhappy one, so too would be a society in which too much emphasis was placed on respect for autonomy at the expense of other important moral principles. This is essential reading for anyone interested in the role of autonomy and indeed of medical ethics in the law. Michael Parker, Professor of Bioethics, University of Oxford.

Morning and Evening Meditations from the Word of God Michael J. Akers, 2014-03-18. There are many devotional books available containing brief daily inspirations that benefit all who read them. This book is different in two respects. The first is obvious: it contains two readings per day, 732 in all. The second, more important difference is that the author wanted to do more than offer inspiration; this would make this book no different than so many others. The messages in the book are study sketches in that the content is not only inspirational but also educational, challenging and encouraging. Most of these writings were based on author Michael J. Akers's teaching of adult Bible studies for more than thirty years and learning what really brought adults to want to deepen their knowledge and application of the Word of God. **Just a Closer Walk**

Jonathan Temple, 2015-02-19. *Just a Closer Walk* is a thirty-one day daily devotional book inspired by the realization that it is God who desires a closer walk with us. It is God who wants to spend more time with us than we realize. As His children, we do not have to work our spiritual fingers to the bone to earn His love. Through Jesus, our Savior, we have God's total love, grace and mercy. The devotionals are written from the heart and written for the regular person facing life's struggles. Regular, often broken people are who God uses to illustrate love, mercy and forgiveness. These devotionals are simple, easy to understand and use real life experiences to convey a message of love and hope. God is chasing His children and wants to be a part of their daily lives. Let the adventure begin for, as His children, we are loved more than we could ever know. **Judaism and**

Environmental Ethics Martin D. Yaffe, 2002-05-09. Martin D. Yaffe's *Judaism and Environmental Ethics: A Reader* is a well conceived exploration of three interrelated questions: Does the Hebrew Bible or subsequent Jewish tradition teach

environmental responsibility or not What Jewish teachings if any appropriately address today s environmental crisis Do ecology Judaism and philosophy work together or are they at odds with each other in confronting the current crisis Yaffe s extensive introduction analyzes and appraises the anthologized essays each of which serves to deepen and enrich our understanding of current reflection on Judaism and environmental ethics Brought together in one volume for the first time the most important scholars in the field touch on diverse disciplines including deep ecology political philosophy and biblical hermeneutics This ambitious book illustrates precisely because of its interdisciplinary focus how longstanding disagreements and controversies may spark further interchange among ecologists Jews and philosophers Both accessible and thoroughly scholarly this dialogue will benefit anyone interested in ethical and religious considerations of contemporary ecology
