**Declaring War** Fiona Young-Brown, 2018-12-15 The Constitution sets forth clear guidelines that must be followed for the United States to declare war on another nation However in the centuries since the Constitution was written the nature of the world and war have changed drastically This book contextualizes some of the conflicts in American history from the last declaration of war for World War II to the conflicts of Vietnam through to Iraq and Afghanistan It investigates how Congress and the president have historically followed the rules how those rules have evolved and how citizens and politicians influence the process of declaring war This resource closely aligns with the objectives of the C3 Framework for Social Studies State Standards

**The Lost Art of Declaring War** Brien Hallett, 2024-03-18 Historically it has been assumed that war is violence and declarations of war are simply public announcements that serve to initiate combat Brien Hallett denies both assumptions and claims that war is policy not violence The Lost Art of Declaring War analyzes the crucial differences between combat and war and convincingly argues that the power to declare war is in actuality the power to compose a text draft a document write a denunciation Once written the declaration then serves three functions to articulate the political

purposes of the war to guide and direct military operations and to establish the boundary between justified combat and unjustified devastation Hallett sounds a clarion call urging the people and their representatives to take up the challenge and write fully reasoned declarations of war Then and only then can a civilized nation like the United States lay claim to being fully democratic not only in peacetime but in wartime as well **Congress Declares War** Roland H. Worth, Jr.,2010-06-28 The dramatic events of the Pearl Harbor attack have been covered in detail from a wide variety of approaches What came next the American declaration of war the intervention of Germany and Italy and the U S proclaiming war against them as well has been given considerably less attention This detailed volume fills that gap with careful analysis of how the public and Congress reacted to the attack and how it began to modify their past attitudes toward foreign war Excerpts from the Congressional Record of 1941 support the author s discussion of the debates leading to the decision to declare war The book explores the rationales defending past conduct by those who had been of both interventionist and anti interventionist sentiments as well as their collective effort to forge a national consensus that would support a multi year international conflict Emphasis is also placed on the reasoning behind war not being immediately declared on Germany as well as Japan and the motivations behind Germany s decision to enter the conflict on it s own initiative Lengthy attention is given to Jeanette Rankin the only House member to vote against the war **Hitler Attacks Pearl Harbor** Richard F. Hill,2003 Hill theorizes that the diplomatic community opened the European theater to a full scale war on Germany because Hitler s pressure on his Japanese allies caused the Pearl Harbor attack **History of World War II.** Tim Cooke,Edward Horton,Christer Jorgensen,2005 Presents a comprehensive discussion of the origins events campaigns and personalities of World War II Thus Saith the Lord, "Declare War Against the Enemies of the Cross Attacking You and the Works of Your Hands" Apostle Sharon Loving Ruff,2015-11-30 Apostle Sharon Loving Ruff shares an amazing journey in her quest for a greater anointing from the Lord for spiritual warfare After years of being used in the deliverance ministry she encountered individuals who didn t receive the fullness of relief they desired Being one who had suffered torments from demonic attacks from childhood her heart cried out for their plight One day she decided to experiment with a warfare strategy recorded in Ezekiel 4 in the Bible The results she sought did not manifest so she lost interest in that approach Years later the Holy Spirit whispered Enemies are all around you Shortly afterwards she received a visit from an Angel of the Lord In a voluminous voice he said Declare war against the enemies of the Cross attacking you and the works of your hands Little did she know that the manner in which she followed those instructions wasn t sufficient to protect the works of her hands or her from the spiritual enemies that the Holy Spirit had told her were surrounding her This truth was revealed about four months later when the Angel of the Lord made his second visit This time his visitation brought a message that was a strong rebuke Her book chronicles her experiences manifested changes in her life and members of her church and ends with an amazing breakthrough She invites others to seek the Lord for permission to use His declaration of warfare prayer delivered by the

**The Story of the Great War (Complete)** Various Authors, What lesson will America draw from the present Great War? Must she see the heads of her own children at the foot of the guillotine to realize that it will cut or will she accept the evidence of the thousands which have lain there before? Will she heed the lesson of all time that national unpreparedness means national downfall or will she profit from the experience and misfortunes of others and take those needed measures of preparedness which prudence and wisdom dictate? In a word, will she draw any valuable lessons from the Great War? This is the question which is so often asked. As yet there is no answer. It is the question uppermost in the minds of all those who are intelligently interested in our country's welfare and safety. It is the question which vitally concerns all of us as it concerns the defense and possibly the very existence of our nation. The answer must be Preparedness. If we are to live preparedness to oppose the force of wrong with the strength of right. Will it be? That's the question. Or will America drift on blind to the lessons of the world tragedy, heedless of consequences, concerned with the accumulation of wealth, satiated with a sense of moral worth which the world does not so fully recognize, planning to capture the commerce of the warring nations and expecting at the same time to retain their friendship and regard? Let us hope that in the light of what is and as a preparation against what may be the answer will be characteristic of a great people: peaceful but prudent and foreseeing that it will be thorough, carefully thought out, preparedness against war. A preparedness which if it is to be lasting and secure must be founded upon the moral organization of our people, an organization which will create and keep alive in the heart of every citizen a sense not only of obligation for service to the nation in time of war or trouble but also of obligation to so prepare himself as to render this service effective. An organization which will recognize that the basic principle upon which a free democracy or representative government rests and must rest if they are to survive the day of stress and trouble is that with manhood suffrage goes manhood obligation for service, not necessarily with arms in hand but for service somewhere in that great complex mass which constitutes the organization of a nation's might and resources for defense, organization which will make us think in terms of the nation and not those of city, State or personal interest, organization which will result in all performing service for the nation with singleness of purpose in a common cause, preparedness for defense, preparedness to discharge our plain duty whatever it may be. Such service will make for national solidarity, the doing away with petty distinctions of class and creed and fuse the various elements of this people into one homogeneous mass of real Americans and leave us a better and a stronger people. Once such a moral organization is accomplished the remaining organization will be simple. This will include an organization of transportation on land and sea.

and of communications An organization of the nation s industrial resources so that the energy of its great manufacturing plants may be promptly turned into making what they can best make to supply the military needs of the nation By military needs we mean all the complex requirements of a nation engaged in war requirements which are many of them requirements of peace as well as of war It will also include a thorough organization of the country s chemical resources and the development thereof so that we may be as little dependent as possible upon materials from oversea At present many important and essential elements come from oversea nations and would not be available in case of loss of sea control
