Decline Of Laissez Faire:

The Decline of Laissez Faire Harold U. Faulkner, 1962 **The Decline of Laissez Faire** H. U. Faulkner, 1960 **The Fall and Rise of Freedom of Contract** F. H. Buckley, 1999-08-27 Original essays by prominent legal scholars on the recent intellectual revival of freedom of contract and the value of free bargaining the essays will be gleaned from a series of conferences organized around areas where bargaining rights might be expanded **The Decline of Laissez Faire, 1897-1917** Harold U. Faulkner, 1951 Contract and status Donald Niven Wheeler, Reed College (Portland, Or.). Division of History and Social Sciences, 1935 *The Rise and Fall of Corporate Social Responsibility* Douglas M. Eicher, 2017-05-25 Corporate social responsibility was one of the most consequential business trends of the twentieth century Having spent decades burnishing reputations as both great places to work and generous philanthropists large corporations suddenly abandoned their commitment to their communities and employees during the 1980s and 1990s indicated by declining job security health insurance and corporate giving Douglas M Eicher argues that for most of the twentieth century the benevolence of large corporations functioned to stave off government regulations and unions as corporations voluntarily adopted more progressive workplace practices or made philanthropic contributions Eicher contends that as governmental and union threats to managerial prerogatives withered toward the century's end so did corporate social responsibility Today with shareholder value as their beacon large corporations have shredded their social contract with their employees decimated unions avoided taxes and engaged in all manner of risky practices and corrupt politics This book is the first to cover the entire history of twentieth century corporate social responsibility It provides a valuable perspective from which to revisit the debate concerning the public purpose of large corporations It also offers new ideas that may transform the public debate about regulating larger corporations The decline of laissez faire 1897-1917 Harold Underwood Faulkner, 1951 **The Decline of Laissez Faire, 1897-1917** Harold Underwood Faulkner, 1977 Part of a series of detailed reference manuals on American economic history this volume traces the development and growth of the factory system labour movements and foreign and domestic commerce *Myths of the Free Market* Kenneth S. Friedman, 2003 *Myths of the Free Market* is arguably the most significant book in economics and politics since John Maynard Keynes It systematically presents a broad range of telling criticisms of free market economics criticisms that have not been presented elsewhere Despite our genuine faith in the free market laissez faire has not maximized wealth When we moved from the purer free market policies of the 1920s and early 1930s to the proto socialism of Roosevelt our economic growth increased As we have moved back to a purer free market growth has slowed We have lagged our trading partners who have mixed economies Nor is this new In the late 1800s the mixed economies of Bismarck's Germany and Meiji Japan outperformed the relatively free market economies of Great Britain and France It is worse Even in principle laissez faire cannot work it is incompatible with institutions that increase wealth Patent protection is one example easily generalized It is worse yet Laissez faire promotes the excessive

concentration of wealth and exposes us all to avoidable danger Over the last millennium there has been a 200 300 year cycle of wealth dispersion Each time wealth disparity grew beyond a critical point it presaged decline and disaster for all of society We now have the greatest disparity of wealth in our history Kenneth Friedman holds an MS in Physics and PhD in Philosophy of Science from MIT He has been interviewed in Barron s and on CNBC and quoted in The Wall Street Journal The Rise of Big Government Harold G. Vatter, John F. Walker, 2015-02-24 The Rise of Big Government chronicles the phenomenal growth of local state and federal government over the last 100 years The authors explain this growth by arguing that public and social acceptance of government intervention has allowed government to maintain a presence at all levels of the economy The authors take issue with the opposing argument that government has grown by itself and by the bureaucracy s constant push for its own expansion The Decline of Laissez Faire, 1897-1917 Harold Underwood Faulkner, 1968 Class Struggle and the New Deal Rhonda F. Levine, 1988 In this reassessment of New Deal policymaking Rhonda Levine argues that the major constraints upon and catalysts for FDR s policies were rooted in class conflict Countering neo Marxist and state centred theories which focus on administrative and bureaucratic structures she contends that too little attention has been paid to the effect of class struggle **Social Responsibilities of the Businessman** Howard R. Bowen, 2013-12 Corporate social responsibility CSR expresses a fundamental morality in the way a company behaves toward society It follows ethical behavior toward stakeholders and recognizes the spirit of the legal and regulatory environment The idea of CSR gained momentum in the late 1950s and 1960s with the expansion of large conglomerate corporations and became a popular subject in the 1980s with R Edward Freeman s Strategic Management A Stakeholder Approach and the many key works of Archie B Carroll Peter F Drucker and others In the wake of the financial crisis of 2008 2010 CSR has again become a focus for evaluating corporate behavior First published in 1953 Howard R Bowen s Social Responsibilities of the Businessman was the first comprehensive discussion of business ethics and social responsibility It created a foundation by which business executives and academics could consider the subjects as part of strategic planning and managerial decision making Though written in another era it is regularly and increasingly cited because of its relevance to the current ethical issues of business operations in the United States Many experts believe it to be the seminal book on corporate social responsibility This new edition of the book includes an introduction by Jean Pascal Gond Professor of Corporate Social Responsibility at Cass Business School City University of London and a foreword by Peter Geoffrey Bowen Daniels College of Business University of Denver who is Howard R Bowen s eldest son **Adam Smith** John Cunningham Wood, 1993 The first series of Smith Critical Assessments included major articles on Adam Smith and set a new standard for Smith scholarship However the years since its publication have seen further developments in the vast field of work on this leading economist Adam Smith Critical Assessments Second Series completes the project of the earlier volumes by making available the many significant articles which have appeared during the past decade It will be an invaluable reference for scholars of Smith Together the two series

market liberalism in the 1970s to the ruin generated by the 2008 global financial crisis that places America at the center

Econocide Seymour Drescher, 2010-08-30 In this classic analysis and refutation of Eric Williams's 1944 thesis Seymour Drescher argues that Britain's abolition of the slave trade in 1807 resulted not from the diminishing value of slavery for Great Britain but instead from the British public's mobilization against the slave trade which forced London to commit what Drescher terms econocide This action he argues was detrimental to Britain's economic interests at a time when British slavery was actually at the height of its potential Originally published in 1977 Drescher's work was instrumental in undermining the economic determinist interpretation of abolitionism that had dominated historical discourse for decades following World War II For this second edition which includes a foreword by David Brion Davis Drescher has written a new preface reflecting on the historiography of the British slave trade since this book's original publication **The American Economist**, 1977 Some issues include Minutes of the annual convention
