**The Modern Cultural Myth of the Decline and Fall of the Roman Empire** Jonathan Theodore, 2016-08-13 This book investigates the decline and fall of Rome as perceived and imagined in aspects of British and American culture and thought from the late nineteenth through the early twenty first centuries It explores the ways in which writers filmmakers and the media have conceptualized this process and the parallels they have drawn deliberately or unconsciously to their contemporary world Jonathan Theodore argues that the decline and fall of Rome is no straightforward historical fact but a myth in terms coined by Claude L vi Strauss meaning not a falsehood but a complex social and ideological construct Instead it represents the fears of European and American thinkers as they confront the perceived instability and pitfalls of the civilization to which they belonged The material gathered in this book illustrates the value of this idea as a spatiotemporal concept rather than a historical event a narrative with its own unique moral purpose **Early Christianity** Wendy Elgersma Helleman, Musa A. **Development of the Idea of History in Antiquity** Gerald A. Press,2003-09-10 An extensive scholarly literature written in the past century holds that in ancient Greek and Roman thought history is understood as circular and repetitive a consequence of their anti temporal metaphysics in contrast with Judaeo Christian thought which sees history as linear and unique a consequence of their messianic and hence radically temporal theology Gerald Press presents a more general view that the Graeco Roman and Judaeo Christian cultures were fundamentally alien and opposed cultural forces and that therefore Christianity s victory over paganism included the replacement or supersession of one intellectual world by another and then shows that contrary to this view there was substantial continuity between pagan and Christian ideas of history in antiquity rather than a striking opposition between cyclic and linear patterns He finds that the foundation of the Christian view of history as goal directed lies in the rhetorical rather than the theological motives of early Christian writers **The History of the Decline and Fall of the Roman Empire** Edward Gibbon,1998 Published between 1776 and 1788 this text is acknowledged as a masterpiece of English historical writing Covering the history of Europe from the 2nd century AD to the fall of Constantinople in 1453 this edition includes footnotes explanatory comments and a precis of the chapters not included

**The Decline of the Ancient World, a General History of Europe** A. H. M. Jones, 1978

**Marx's Resurrection of Aristotle** Norman Levine, 2021-01-24 This book seeks to show how Karl Marx's vision of communism was a continuation of Aristotle's classical humanist philosophy Challenging the Engelsian distortion of Marx it presents a negation of previous interpretations of Marx which present him in materialist terms Engels proposed a picture of the highest stage of communist society as an economic egalitarianism a vision which became an axiom of Leninist Stalinist Soviet Communism By contrast here it is shown that Marx embraced the Aristotelian concept of distributive justice of proportionate equality Spanning the works of Marx from his university education and doctoral dissertation on the differences between the Democritean and Epicurean philosophy of the atom to the study of his *Rheinische Zeitung* period and the persistence of classical humanism in Marx's defense of the freedom of the press Levine skillfully reveals the gravitational pull between Marx and Aristotle Showing how classical humanism is the dominant ethos in the communism of Marx the book includes chapters on Hegel as a transition point between Aristotle and Marx The links between Marx's theory of labor and Aristotle's idea of the constitutive subject located in *The Politics* How the local methodologies of Aristotle and Hegel provided Marx with the social methodologies by which to interpret the functioning of capitalism Marx's *Resurrection of Aristotle* is the culmination of Norman Levine's life long work to establish the correct placement of Marx and Marx's communism within the classical humanist tradition

**From the Later Roman Empire to Late Antiquity and Beyond** Averil Cameron, 2023-05-23 Averil Cameron is one of the leading historians of late antiquity and Byzantium This collection Cameron's third in the *Variorum* series discusses the changing approach among historians of the later Roman empire from the 1960s to the present and the articles reproduced have been chosen to reflect both these wider changes in

treatments of the subject as well as Cameron's own development as a historian over many decades. It provides a revealing and important survey of some profound historiographical changes. Her volume contains fundamental papers and reviews that tell a story in which she has played a leading part. They move from her early days as an ancient historian to her important contribution in the establishment of the field of late antiquity and point to her later work as a Byzantinist, a trajectory rivalled by few other scholars. The book will be important for scholars and students of the later Roman empire and late antiquity and for anyone interested in the inheritance of Edward Gibbon, the perennial questions about the end of the Roman empire and its supposed decline or the emergence of Islam in the early seventh century and its relation to the late antique world. *Writings of the Young Marx on Philosophy and Society* Karl Marx, 1997-01-01. The most comprehensive one-volume collection in English of Marx's writings from 1835 to 1847. *Writings of the Young Marx on Philosophy and Society* ranges broadly in subject from the nature of religion to freedom of the press and to the relation of the state to democracy from the humanistic critique of philosophical idealism to the alienation of humanity and to the relation of communism to historical praxis. It features Easton and Guddat's own highly regarded translations based on the best German editions as well as on the original manuscripts and first editions and reveals differences as well as continuities between the young and the old Marx. A substantial introduction and detailed analytical headnotes indicate the significance and historical setting of each selection as well as its relationship to Marx's other writings. With one exception, *Defense of the Moselle Correspondent*, each article, chapter, or book section is presented in its entirety without internal deletions.

**The Meaning of History** Nikolaĭ Berdĭĭ, aĭ, iev, Berdyaev considered the philosophy of history as a field that laid the foundations of the Russian national consciousness. Its disputes were centered on distinctions between slavophiles and Westerners, East and West. *The Meaning of History* was an early effort following World War I that attempted to revive this perspective. With the removal of Communism as a ruling system in Russia, that nation returned to an elaboration of a religious philosophy of history as the specific mission of Russian thought. This volume thus has contemporary significance. Its sense of the apocalypse which distinguishes Russian from Western thought gives the book its specifically religious character.
