Decline Of Spain And The Thirty Years War 1609 59:

The Decline of Spain and the Thirty Years War, 1970 *Philip III and the Pax Hispanica, 1598-1621* Paul C.

Allen, 2000-01-01 Impoverished and exhausted after fifty years of incessant warfare the great Spanish Empire at the turn of the sixteenth century negotiated treaties with its three most powerful enemies England France and the Netherlands This intriguing book examines the strategies that led King Philip III to extend the laurel branch to his foes Paul Allen argues that contrary to widespread belief the king's gestures of peace were in fact part of a grand strategy to enable Spain to regain military and economic strength while its opponents were falsely lulled away from their military pursuits From the outset Allen contends Philip and his advisers intended the Pax Hispanica to continue only until Spain was able to resume its battles and defeat its enemies Drawing on primary sources from the four countries involved the book begins with a discussion of how Spanish foreign policy was formulated and implemented to achieve political and religious aims The author investigates the development of Philip's peace strategy the Twelve Years Truce and the decision to end the truce and engage in war with the Dutch and then with the English and French Renewed warfare was no failure of peace policy Allen shows but a conscious decision to pursue a consistent strategy Nevertheless the negotiation for peace did represent a new diplomatic method with significant implications for both the future of the Spanish Empire and the practices of European diplomacy **Spain's**

Struggle For Europe, 1598-1668 R. A. Stradling, 1994-01-01 This collection of essays contains an impressive body of the author's work on the history of Spain in the seventeenth century which has focused particularly on the issues of high politics international strategy and military infrastructure The essays consistently illustrate R A Stradling's revisionist emphasis on aspects of the Spanish monarchy's survival as opposed to orthodox treatments fixated upon decline The major questions about Spain in the period are all addressed the quality of leadership in particular that of Olivares and his master Philip IV the effect of war and the strains imposed by the demands of military provision and the perception and reality of the decline Stimulating and immediate in style the great majority of the essays are the result of sustained research work in the archives of Spain and other western European countries as well as concentrated consideration of the broader contexts They are all concerned to highlight interpretation and relevance in a way that enlivens the specific issues under review **The New**

Modern Shipping and Trade, 2018-08-07 Early modern trade and shipping through the Danish Sound has attracted the interest of many historians since a long time A prominent reason for this is that the route via the Sound connected Europe's main economies with the economically important Baltic Sea region The other reason why trade and shipping through the

Sound attracted the attention of so many scholars is the fact that they are so very well documented by the Sound Toll Registers STR the records of the toll levied by the king of Denmark on the passage of ships through the Sound Although the Sound Toll Registers have always been widely known as crucial their sheer volume and detail make them virtually impossible to handle To make the STR fully and quickly accessible to researchers the online database Sound Toll Registers Online STRO has been called into existence Since 2010 STRO has been becoming gradually available The articles collected in this volume are examples of the kind of research that can be done with STRO how it boosts the writing of the history of European maritime transport and trade and how its use contributes to our knowledge of that history Contributors are Lo c Charles Ana Crespo Solana Guillaume Daudin Maarten Draper Jari Eloranta Katerina Galani Lauri Karvonen Yuta Kikuchi Sven Lilja Maria Cristina Moreira Jari Ojala Pierrick Pourchasse Magnus Ressel Klas R nnb ck Werner Scheltjens Siem van der Woude Jerem van Duijl and Jan Willem Veluwenkamp

The Modern World-System II Immanuel Wallerstein,2011-05-11 The Modern World System Immanuel Wallerstein s influential multivolume reinterpretation of global history traces the emergence and development of the modern world from the sixteenth century to the twentieth From publisher s description [Spain, China, and Japan in Manila, 1571-1644](#) Birgit Tremml-Werner,2025-10-01 Spain China and Japan in Manila 1571 1644 offers a new perspective on the connected histories of Spain China and Japan as they emerged and developed following Manila s foundation as the capital of the Spanish Philippines in 1571 Examining a wealth of multilingual primary sources Birgit Tremml Werner shows that crosscultural encounters not only shaped Manila s development as a Eurasian port city but also had profound political economic and social ramifications for the three premodern states Combining a systematic comparison with a focus on specific actors during this period this book addresses many long held misconceptions and offers a more balanced and multifaceted view of these nations histories [A Critical Bibliography of French Literature](#) H. Gaston Hall,1983-02-01 Richard A Brooks general editor v **The State** John A. Hall,1994 The state is a concept surrounded with much dispute What exactly is the state Does it act impartially What changes has it undergone These three volumes provide a reliable and comprehensive guide to these questions **The Catholic Reformation** Michael A. Mullett,2023-03-08 The Catholic Reformation 1999 provides a dynamic and original history of this crucial movement in early modern Europe Starting from the late middle ages it clearly traces the continuous transformation of Catholicism in its structure bodies and doctrine Charting the gain in momentum of Catholic renewal from the time of the Council of Trent it also considers the ambiguous effect of the Protestant Reformation in accelerating the renovation of the Catholic Church It explores how and why the Catholic Reformation occurred stressing that many moves towards restoration were underway well before the Protestant Reformation The huge impact the Catholic renewal had not only on the papacy Church leaders and religious ritual and practice but also on the lives of ordinary people their culture arts attitudes and relationships is shown in colourful detail

Sovereignty Stephen D. Krasner,1999-08-02 The acceptance of human rights and minority rights the increasing role of international financial institutions and globalization have led many observers to question the continued viability of the sovereign state Here a leading expert challenges this conclusion Stephen Krasner contends that states have never been as sovereign as some have supposed Throughout history rulers have been motivated by a desire to stay in power not by some abstract adherence to international principles Organized hypocrisy the presence of longstanding norms that are frequently violated has been an enduring attribute of international relations Political leaders have usually but not always honored international legal sovereignty the principle that international recognition should be accorded only to juridically independent sovereign states while treating Westphalian sovereignty the principle that states have the right to exclude external authority from their own territory in a much more provisional way In some instances violations of the principles of sovereignty have been coercive as in the imposition of minority rights on newly created states after the First World War or the successor states of Yugoslavia after 1990 at other times cooperative as in the European Human Rights regime or conditionality agreements with the International Monetary Fund The author looks at various issues areas to make his argument minority rights human rights sovereign lending and state creation in the nineteenth and twentieth centuries Differences in national power and interests he concludes not international norms continue to be the most powerful explanation for the behavior of states

Popular Culture and Political Agency in Early Modern England and Ireland Michael J. Braddick, Phil Withington, 2017 An outstanding collection bringing together some of the leading historians of this period with some of the field's rising stars which examines key issues in popular politics the negotiation of power strategies of legitimation and the languages of politics One of the most notable currents in social cultural and political historiography is the interrogation of the categories of elite and popular politics and their relationship to each other as well as the exploration of why and how different sorts of people engaged with politics and behaved politically While such issues are timeless they hold a special importance for a society experiencing rapid political and social change like early modern England No one has done more to define these agendas for early modern historians than John Walter His work has been hugely influential and at its heart has been the analysis of the political agency of ordinary people The essays in this volume engage with the central issues of Walter's work ranging across the politics of poverty dearth and household popular political consciousness and practice more broadly and religion and politics during the English revolution This outstanding collection bringing together some of the leading historians of this period with some of the field's rising stars will appeal to anyone interested in the social cultural and political history of early modern England or issues of popular political consciousness and behaviour more generally MICHAEL J BRADDICK is professor of history at the University of Sheffield PHIL WITHINGTON is professor of history at the University of Sheffield CONTRIBUTORS Michael J Braddick J C Davis Amanda Flather Steve Hindle Mark Knights John Morrill Alexandra Shepard Paul Slack Richard M Smith Clodagh Tait Keith Thomas Phil Withington Andy Wood Keith Wrightson

Piracy and Privateering in the Golden Age Netherlands V. Lunsford, 2005-06-03 This exciting scholarly work examines Dutch maritime violence in the seventeenth century With its flourishing maritime trade and lucrative colonial possessions the young Dutch Republic enjoyed a cultural and economic pre-eminence becoming the leading commercial power in the world Dutch seamen plied the world's waters trading exploring and colonizing Many also took up pillaging terrorizing their victims on the high seas and on European waterways Surprisingly this story of Dutch freebooters and their depredations remains almost entirely untold until now *Piracy and Privateering in the Golden Age Netherlands* presents new data and understandings of early modern piracy generally and also sheds important new light on Dutch and European history as well such as the history of national identity and state formation and the history of crime and criminality

Acta Historiae Neerlandicae IX R. Baetens, H. Balthazar, H. Van Dijk, Rosemary Duke, P. J. Van Kessel, D. J. Roorda, Nicolette Van Santen-Mout, E. Stols, K. W. Swart, B. A. Sijes, C. A. Tamse, 2012-12-06 In the Survey of Recent Historical Works which

according to custom concludes this IXth volume of the Acta is a notice of the recent Report of the Dutch research with suggestions for future development Such a report could easily be classified as an attempt to bring pressure to bear on financial resources for support of a somewhat neglected branch of scientific effort indeed as a symptom of the current disease of notatititis A recent special issue Regeren door notas of the periodical Beleid and Maatschappij March April 1976 discusses this severe Dutch epidemic of official note writing for any purpose on any matter at any time by any sort of official committee to any sort of official body But even if such were the only reason for the production of this Report which indeed it is not the Report will stand on its own feet as significant and of consequence In general however this Report makes sad reading It would seem that Dutch historical research and historiography lags far behind comparable foreign developments There are said to be immense gaps in knowledge of and insight into virtually all fields of the Dutch past and moreover a total lack of modern sophistication Inevitably currently fashionable techniques such as programming co ordination and teamwork are suggested as desirable and a preference is expressed for the currently highly regarded socio historical approach
