**The Public Insult Playbook** Ruth Colker, 2021-10-26 The rules of the public discourse game have changed and this book argues that the political left needs to account for the power of vitriol in crafting their theories for social and political change Ruth Colker offers insights into how public insults have come to infect contemporary public discourse a technique not invented by but certainly refined by Donald Trump and importantly highlights lessons learned and tools for fighting back Public insults act as a headwind and dead weight to structural reform By showcasing the power of insults across a number of civil rights battlegrounds Colker uncovers the structural nature of personal attacks and offers a blueprint for a legal and political strategy that anticipates the profound but poorly understood damage they can inflict to whole movements The book catalogues how public insults have been used against people with disabilities immigrants pregnant women women seeking abortions women who are sexually harassed members of the LGBTQ community and of course Black Americans These examples demonstrate both the pervasiveness of the deployment of insults by the political right and the ways in which the left has been caught flat footed by this tactic She then uses the Black Lives Matter movement as a case study to consider how to effectively counter these insults and maintain an emphasis on structural reform

**Rhetorics of Motherhood** Lindal Buchanan, 2013-04-08 Becoming a mother profoundly alters one's perception of the world as Lindal Buchanan learned firsthand when she gave birth Suddenly attentive to representations of mothers and mothering in advertisements fiction film art education and politics she became intrigued by the persuasive force of the concept of motherhood an interest that unleashed a host of questions How is the construct defined How are maternal appeals crafted presented and performed What do they communicate about gender and power How do they affect women Her quest for answers has produced *Rhetorics of Motherhood* the first book length consideration of the topic through a feminist rhetorical lens Although both male and female rhetors employ motherhood to promote themselves and their agendas Buchanan argues it is particularly slippery terrain for women on the one hand affording them authority and credibility but on the other positioning them disadvantageously within the gendered status quo *Rhetorics of Motherhood* investigates that paradox by detailing the cultural construction and performance of the Mother in American public discourse tracing its use and impact in three case studies and by theorizing how when and why maternal discourses work to women's benefit or detriment In the process the reader encounters a fascinating array of issues including birth control civil rights and abortion and rhetors ranging from Diane Nash and Margaret Sanger to Sarah Palin and Michelle Obama As Buchanan makes clear motherhood is a rich site for investigating the interrelationships among gender power and public discourse Her latest book contributes to the discipline of rhetoric by attending to and making a convincing case for the significance of this understudied subject With its examination of timely controversies contemporary and historical figures and powerful women *Rhetorics of Motherhood* will appeal to a wide array of readers in rhetoric communications American studies women's studies and beyond

Ruud Ganzevoort, Srdjan Sremac, 2017-03-08 This volume explores the ways in which lived religion encourages and contributes to conflicts as well as fosters tolerance in the interlocking rural urban and virtual social spheres Through ten case studies with vast geographical and religious variation the contributors address some of the shortcomings in analyses of the relationship between religion and in tolerance and offers a theoretically and empirically more nuanced understanding of the micro politics of in tolerance and the roles of lived religion in it The book argues that in tolerance and its connection to religion cannot be fully understood unless analyzed from below which means that the focus needs to be not only on public institutions or religious political spaces but also on in tolerance of ordinary people and their performativity practices and interests in non institutionalized spaces This showcases the ambiguous interconnectedness of lived religion and in tolerance *Lived Religion and the Politics of In Tolerance* will be of interest to students and scholars interested in lived religion the relationship between politics and religion and those working in cross cultural dialogue and through an anti racism and anti violence lens

**Crafting Equality** Celeste Michelle

Condit, John Louis Lucaites, 2012-12-10 Philosophers and historians often treat fundamental concepts like equality as if they existed only as fixed ideas found solely in the canonical texts of civilization In *Crafting Equality* Celeste Michelle Condit and John Louis Lucaites argue that the meaning of at least one key word equality has been forged in the day to day pragmatics of public discourse Drawing upon little studied speeches newspapers magazines and other public discourse Condit and Lucaites survey the shifting meaning of equality from 1760 to the present as a process of interaction and negotiation among different social groups in American politics and culture They make a powerful case for the critical role of black Americans in actively shaping what equality has come to mean in our political conversation by chronicling the development of an African American rhetorical community The story they tell supports a vision of equality that embraces both heterogeneity and homogeneity as necessary for maintaining the balance between liberty and property A compelling revision of an important aspect of America's history *Crafting Equality* will interest anyone wanting to better understand the role public discourse plays in affecting the major social and political issues of our times It will also interest readers concerned with the relationship between politics and culture in America's increasingly multi cultural society
