France, the United States, and the Algerian War Irwin M. Wall, 2001-07-20 In this study the author unravels the intertwining threads of the protracted agony of France's war with Algeria the American role in the fall of the Fourth Republic the long shadow of Charles de Gaulle and the decisive postwar power of the United States The Transformation of Southeast Asia Ronald W. Pruessen, Marc Frey, Tan-Tai

Yong, 2015-05-22 Providing the basis for a reconceptualization of key features in Southeast Asia's history this book examines evolutionary patterns of Europe's and Japan's Southeast Asian empires from the late 19th century through to the 1960s

France and the Algerian War, 1954-62 Martin S. Alexander, John F. V. Keiger, 2002 The French army's war in Algeria has

always aroused passions This study offers an honest appraisal of the atrocities carried out on both sides to reveal that what happened in Algeria was indeed a war and not just a minor conflict *France and the Algerian War, 1954-1962* Martin S. Alexander, J.F.V. Keiger, 2013-10-14 The French Army's war in Algeria has always aroused passions This book does not whitewash the atrocities committed by both sides rather it focuses on the conflict itself a perspective assisted by the French republic's official admission in 1999 that what happened in Algeria was indeed a war **Une décolonisation française, l'île de la Réunion, 1942-1946** Yvan Combeau, 2006 *Britain, France and the Decolonization of Africa* Andrew W.M. Smith, Chris Jeppesen, 2017-03-01 Looking at decolonization in the conditional tense this volume teases out the complex and uncertain ends of British and French empire in Africa during the period of late colonial shift after 1945 Rather than view decolonization as an inevitable process the contributors together explore the crucial historical moments in which change was negotiated compromises were made and debates were staged Three core themes guide the analysis development contingency and entanglement The chapters consider the ways in which decolonization was governed and moderated by concerns about development and profit A complementary focus on contingency allows deeper consideration of how colonial powers planned for colonial futures and how divergent voices greeted the end of empire Thinking about entanglements likewise stresses both the connections that existed between the British and French empires in Africa and those that endured beyond the formal transfer of power *The Invention of Decolonization* Todd Shepard, 2006 In this account of the Algerian War's effect on French political structures and notions of national identity Todd Shepard asserts that the separation of Algeria from France was truly a revolutionary event with lasting consequences for French social and political life For more than a century Algeria had been legally and administratively part of France after the bloody war that concluded in 1962 it was other its eight million Algerian residents deprived of French citizenship while hundreds of thousands of French pieds noirs were forced to return to a country that was never home This rupture violated the universalism that had been the essence of French republican theory since the late eighteenth century Shepard contends that because the amputation of Algeria from the French body politic was accomplished illegally and without explanation its repercussions are responsible for many of the racial and religious tensions that confront France today In portraying decolonization as an essential step in the inexorable tide of history the French state absolved itself of responsibility for the revolutionary change it was effecting It thereby turned its back not only on the French of Algeria Muslims in particular but also on its own republican principles and the 1958 Constitution From that point onward debates over assimilation identity and citizenship once focused on the Algerian province colony have troubled France itself In addition to grappling with questions of race citizenship national identity state institutions and political debate Shepard also addresses debates in Jewish history gender history and queer theory *Fictions of 1947* Kate Marsh, 2007 The end of the British Raj and the creation of the two states of India and Pakistan in August 1947 is a recognizable narrative within British Anglophone culture and colonial history In contrast the persistence of the five French trading posts or comptoirs on the

Indian subcontinent until 1954 remains largely ignored by both French and British historians of French colonialism and the popular culture of the Hexagone In examining metropolitan French language representations of Indian decolonization this book demonstrates the importance of the British imperial loss in 1947 as a reference point within French cultural production The critical investigation into the strategies of representation used problematizes existing Anglophone theoretical models by critics such as Said Bhabha and Spivak for the analysis of colonial discourse It reveals that French language representations of Indian decolonization cannot be fully appreciated without engaging methodologically with France's politically subordinate status in India The book thus challenges the commonly accepted binary between colonizer and colonized proposing in its place a triangular model composed of the colonized India the subaltern colonizer France and the dominant colonizer Britain Through a systematic critical evaluation of the range of texts journalistic intellectual political and literary produced in metropolitan France by authors such as Romain Rolland Jean Rous H l ne Cixous Catherine Cl ment and Marguerite Duras the book challenges the current postcolonial orthodoxy that the story of Indian decolonization is solely an Anglophone space

The Road to War Martin Shipway, 2003-01-01 How did France become embroiled in Vietnam in the first of long wars of decolonization And why did the French colonial administration in late 1946 having negotiated with Ho Chi Minh for a year adopt a warlike stance towards Ho's regime which ran counter to the liberal colonial doctrine of liberated France Based on French archival sources almost all of them previously unavailable to the English speaking reader the author assesses the policy that emerged from the 1944 Brazzaville conference and the doomed attempt to apply that policy in Indo China

sur ses prises de position en matière de politique étrangère et de politique européenne est particulièrement évidente durant cette période. Sur le plan international, la question du type d'aide à accorder aux pays en voie de développement interpelle tous les États industrialisés membres du monde communiste ou occidental. Pour Moscou et Washington, l'enjeu est l'appui du tiers monde, une région qui compte plus de la moitié de la population mondiale, dans la lutte de l'un contre l'autre. Pour la France de De Gaulle, le soutien du tiers monde doit servir sa politique d'influence, la recherche d'un équilibre mondial en dehors des deux blocs.

L'ère des décolonisations Charles Robert Ageron, Marc Michel, 1995-01-01 *Colonial Continuities and Decoloniality in the French-Speaking World* Sarah Arens, Nicola Frith, Jonathan Lewis, Rebekah Vince, 2024-02-06

This volume pays tribute to the work of Professor Kate Marsh 1974-2019, an outstanding scholar whose research covered an extraordinarily wide range of interests and approaches encompassing the history of empire, literature, politics and cultural production across the Francophone world from the eighteenth to the twenty-first century. Each of the chapters within engages with a different aspect of Marsh's interest in French colonialism and the entanglements of its complex afterlives, whether it be her interest in the longevity of imperial rivalries, loss and colonial nostalgia, exoticism and the female body, decolonization and the ends of empire, the French colonial imagination, the policing of racialized bodies or anti-colonial activism and resistance. As well as reflecting the geographical and intellectual breadth of Marsh's research, the volume demonstrates how her work continues to resonate with emerging scholarship around decoloniality, transcolonial mobilities and anti-colonial resistance in the Francophone world. From French India to Algeria and from the Caribbean to contemporary France, this collection demonstrates the persistent relevance of Marsh's scholarship to the histories and legacies of empire while opening up conversations about its implications for decolonial approaches to imperial histories and the future of Francophone Postcolonial Studies.

Colonisation et décolonisation française Monique Le Corre, 1987 Human Rights in the Shadow of Colonial Violence Fabian Klose, 2013-05-31

Based on previously inaccessible material from international archives, *Human Rights in the Shadow of Colonial Violence* examines the relationship between emerging human rights concepts after 1945 and repressive British and French actions against anticolonial movements in Africa.

La décolonisation économique de l'Afrique noire française Joubert Nouafo, 2017-11-15

Plus d'un demi-siècle après avoir conquis leurs indépendances, les habitants des États de l'Afrique noire française croupissent toujours dans la pauvreté et la misère. Cette situation résulte du fait que l'ancienne métropole, en leur laissant le champ politique, a conservé le pouvoir économique grâce des artifices savants qu'elle a mis en place. Certains pays de l'indépendance avaient compris avec lucidité que sans indépendance économique, l'indépendance politique n'est qu'un vain mot.
