Deconstructing Apartheid Discourse Aletta J. Norval, 1996-04-17 The book thus seeks to trace the construction and contestation of the central axes around which its political frontiers were organized

Discourse David Howarth, 2000-12-16 What do we mean by discourse What are the different conceptions of discourse and methods of discourse analysis in the contemporary social sciences How can this concept help to clarify key theoretical problems and illuminate empirical cases The concept of discourse provokes considerable debate and is understood in a variety of ways in the contemporary social sciences This text presents a comprehensive overview of the different conceptions and methods of discourse analysis while setting out the traditions of thinking in which these conceptions have emerged It surveys structuralist post structuralist and post Marxist theory and the author sets out a fresh approach to discourse analysis drawing principally on the writings of Saussure Levi Strauss Gramsci Althusser Foucault Derrida Laclau and Mouffe He evaluates a number of pertinent criticisms of this approach and explores ways in which discourse analysis can assist our understanding of identity formation hegemony and the relationship between structure and agency This concise and engaging text provides a stimulating introduction to the concept of discourse for students and researchers across the social sciences

Laclau Simon Critchley, Oliver Marchart, 2012-12-06 Laclau A Critical Reader is the first full length critical appraisal of Laclau s work and includes contributions from several leading philosophers and theorists The first section examines Laclau s theory that the contest between universalism and particularism provides much of the philosophical background to political and social struggle taking up the important place accorded to amongst others Hegel and Lacan in Laclau s work The second section of the book considers what Laclau s radical democracy might look like and reflects on its ethical implications particularly in relation to Laclau s post Marxism and thinkers such as J rgen Habermas The final section investigates the place of hegemony in Laclau s work the idea for which he is perhaps best known This stimulating collection also includes replies to his critics by Laclau and the important exchange between Laclau and Judith Butler on equality making it an excellent companion to Laclau s work and essential reading for students of political and social theory

Logics of Critical Explanation in Social and Political Theory Jason Glynos, David Howarth, 2007-09-12 This book develops a novel approach to critical explanation as a function of logics taking a distinctive approach to social science explanation and political studies more specifically which avoids the problem of scientism

The Inter- and Transnational Politics of Populism Thorsten Wojczewski, 2023-01-01 Populism has lately experienced a meteoric rise to become one of the most widely used terms in academic and wider public discourses and a supposedly defining feature of both domestic and world politics Situated at the intersection of International Relations IR Political Theory and Comparative Politics this book makes a critical intervention into the burgeoning IR scholarship on populism and

problematizes the often hyperbolic and sweeping usage of the term as a general descriptor for non centrist politics of different persuasions The book seeks to move into a different theoretical direction and broaden the empirical focus of existing IR research Theoretically it bridges the gap between theories of populism and IR by bringing the Laclauian discursive approach and IR poststructuralism together in a theoretical framework The proposed framework moves away from the search for the policy preferences and impact of populism and instead conceptualizes foreign policy and world politics as potential sites for practicing populism ranging from the articulation of societal grievances to the construction of populist identities such as the people Empirically the book takes IR scholarship beyond the predominant focus on the populist radical right and single country and region studies Building on the discourse analysis of an original data set it offers a comparative analysis of right wing and left wing populist discourses in different world regions as well as populist cross border collaboration and identity construction

The Rise of Nationalist Populism Daniel Rueda,2024-10-03 The Rise of Nationalist Populism explores the intersection between populism and nationalism conducted through the discursive analysis of three Populist Radical Right parties that have gained prominence during the 2010s Rassemblement National France Lega Italy and Vox Spain Due to its rise in Europe the United States and further afield there is a growing interest in right wing populism an exclusionary and illiberal form of populism that has been able to attain success in several countries This book contributes to the analysis of how populism understood as a way of constructing the political is shaped by the ideologies that permeate it It examines how a certain form of nationalism is shaped by populist dynamics that is by a certain form of identity building The book analyses the intersection between nationalism and populism in right wing populist parties by using a discourse analysis methodology based on Ernesto Laclau s works thus conducting an examination similar to the ones presented by the Essex School of Discourse Analysis The empirical analysis focuses on party literature and carefully selected candidate speeches at a national level for its three case studies as well as providing an overarching comparison The book shows how the economic crisis and the irruption of issues related to sovereignty and national identity arising in France Italy and Spain paved the way for the emergence of their respective right wing populist forces The book will appeal to researchers and students of political science especially those with an interest in populism discourse analysis identity and the far right

States of Emergency Stephen Morton,2013-01-01 States of Emergency examines how violent anticolonial struggles and the legal military and political techniques employed by colonial governments to contain them have been imagined in both literary and legal narratives Through a series of case studies Stephen Morton considers how colonial states of emergency have been defined and represented in the contexts of Ireland India South Africa Algeria Kenya and Israel Palestine concluding with a compelling assessment of the continuities between colonial states of emergency and the war on terror in Iraq Afghanistan and Pakistan

Dictionary of Race and Ethnic Relations Professor Ellis Cashmore,Ellis Cashmore,2002-09-11 Ethnicity and racial relations are almost universally seen as a prime motivating force behind social conflict and change Often volatile and

complex racial interaction resonates through all aspects of contemporary society Social issues which appear to have little connection to race often become entangled with ethnic friction to create far more complex problems Race is often used by individuals and political organizations to further their own objectives Since the 1994 publication of the third edition of this acclaimed reference book there have been enormous changes in the area of race and ethnic relations throughout the world The Dictionary of Race and Ethnic Relations deals with these changes through in depth articles which both define and analyze the terms For this edition there has been a total revision of existing entries and many new entries that take account of developments in society and intellectual trends Features include Fully updated lists of further reading and cross references New entries include Black feminism Causes celebres Environmental racism Hybridity Postcolonialism Invaluable teaching and reference tool for students at all levels

Cape Radicals Crain Soudien, 2019-06-01 The history of a radical group of intellectuals who founded the New Era Fellowship which shaped human rights precedents and social justice policy in South Africa In 1937 a group of young Capetonians socialist intellectuals from the Workers Party of South Africa embarked on a project they called the New Era Fellowship NEF In doing so they sought to disrupt and challenge not only prevailing political narratives but the very premises class and race on which they were based In different forums public debates lectures study circles and cultural events the seeds of radical thinking were planted nurtured and brought to full flower Taking a position of non collaboration and non racialism the NEF played a vital role in challenging society s responses to events ranging from the problem of taking up arms during the Second World War for an empire intent on stripping people of colour of their human rights to the Hertzog Bills which foreshadowed apartheid in all its ruthless effectiveness In subsequent narratives of liberation their significance has been overlooked even disparaged and has never been fully understood and acknowledged By shining a contemporary light on the NEF and locating its contribution in current sociological and political discourse educationist Crain Soudien shows how its members were at the forefront of redefining the debate about social difference in a racially divided society

Hannah Arendt and the Uses of History Richard H. King, Dan Stone, 2008-09 Hannah Arendt first argued the continuities between the age of European imperialism and the age of fascism in Europe in The Origins of Totalitarianism This text uses Arendt s insights as a starting point for further investigations into the ways in which race imperialism slavery and genocide are linked

South Africa in Transition Aletta J. Norval, David Howarth, 2016-07-27 South Africa in Transition utilises new theoretical perspectives to describe and explain central dimensions of the democratic transition in South Africa during the late 1980s and early 1990s covering changes in the politics of gender and education the political discourses of the ANC NP and the white right constructions of identity in South Africa s black townships and rural areas the role of political violence in the transition and accounts of the democratization process itself

Freedom and Democracy in an Imperial Context Robert Nichols, Jakeet Singh, 2014-03-26 Freedom and Democracy in an Imperial Context Dialogues with James Tully gathers leading thinkers from across the humanities and social

sciences in a celebration of and critical engagement with the recent work of Canadian political philosopher James Tully Over the past thirty years James Tully has made key contributions to some of the most pressing questions of our time including interventions in the history of moral and political thought contemporary political philosophy democracy citizenship imperialism recognition and cultural diversity In 2008 he published *Public Philosophy in a New Key* a two volume work that promises to be one of the most influential and important statements of legal and political thought in recent history This work along with numerous other books and articles is foundational to a distinctive school of political thought influencing thinkers in fields as diverse as Anthropology History Indigenous Studies Law Philosophy and Political Science Critically engaging with James Tully's thought the essays in this volume take up what is his central and ever more pressing question how to enact democratic practices of freedom within and against historically sedimented and actually existing relationships of imperialism

Space, Place and Inclusive Learning Judy Hemingway, Felicity Armstrong, 2016-04-08 This collection explores ways in which theories of space and place can be used in understanding processes of exclusion and inclusion in education The contributions foreground how the spatial turn and geographical knowledges can inform debates on the relationships between learning space and place understandings of the ways in which space and place affect education and learning familiar research agendas through the application of conceptual perspectives from different disciplines The ten chapters which make up this book are by contributors from Australia Italy and the United Kingdom who draw in very different ways on spatial theory as a means of exploring processes of inclusion and exclusion in education Each one of the authors not only seeks to challenge growing orthodoxies in their respective field but is interested in cross disciplinarity and spatial theory in education This book provides key readings for experienced and beginning teachers studying for bachelors masters and research degrees or professional qualifications It will be particularly useful to equality and diversity post holders lecturers researchers and policy makers working in all education establishments which take issues of inclusion seriously The international content of the diverse papers in *Space Place and Inclusive Learning* will be of interest not only to those practising in the United Kingdom but to educationists working in other countries who seek to understand how space and place modulate opportunities for inclusion This book was originally published as a special issue of the *International Journal of Inclusive Education*

Practices of Freedom Steven Griggs, Aletta J. Norval, Hendrik Wagenaar, 2014-04-07 Inspired by theories of radical democracy this book examines political conflict to offer new perspectives on democratic governance **Social**

Psychology Kopano Ratele, Norman Duncan, 2003 Using current socio political thought and research this book examines topics such as violence social and political transition race and racism and sexualities Theoretical and empirical research are related to topical problems highlighting the complex relations of individuals to their societies and to one another The histories and complexities of problems and their interconnectedness are examined and possible solutions are suggested Special attention is paid to class sexuality gender and race making psychology in general and social psychology in particular

relevant and exciting **Imperial Networks** Alan Lester, 2005-08-19 Imperial Networks investigates the discourses and practices of British colonialism It reveals how British colonialism in the Eastern Cape region was informed by and itself informed imperial ideas and activities elsewhere both in Britain and in other colonies It examines the origins and development of the three interacting discourses of colonialism official humanitarian and settler the contests compromises and interplay between these discourses and their proponents the analysis of these discourses in the light of a global humanitarian movement in the aftermath of the antislavery campaign the eventual colonisation of the Eastern cape and the construction of colonial settler identities For any student or resarcher of this major aspect of history this will be a staple part of their reading diet Migration and National Identity in South Africa, 1860-2010 Audie Klotz, 2013-09-16 An extraordinary outbreak of xenophobic violence in May 2008 shocked South Africa but hostility toward newcomers has a long history Democratization has channeled such discontent into a non racial nationalism that specifically targets foreign Africans as a threat to prosperity Finding suitable governmental and societal responses requires a better understanding of the complex legacies of segregation that underpin current immigration policies and practices Unfortunately conventional wisdoms of path dependency promote excessive fatalism and ignore how much South Africa is a typical settler state A century ago its policy makers shared innovative ideas with Australia and Canada and these peers which now openly wrestle with their own racist past merit renewed attention As unpalatable as the comparison might be to contemporary advocates of multiculturalism rethinking restrictions in South Africa can also offer lessons for reconciling competing claims of indigeneity through multiple levels of representation and rights *Revisiting the Global Imaginary* Chris Hudson, Erin K. Wilson, 2019-04-02 Manfred B Steger s extensive body of work on globalization has made him one of the most influential scholars working in the field of global studies today His conceptualization of the global imaginary is amongst the most significant developments in thinking about globalization of the last three decades Revisiting the Global Imaginary pays tribute to Steger s contribution to our intellectual history with essays on the evolution ontological foundations and methodological approaches to the study of the global imaginary The transdisciplinary framework of this field of enquiry lends itself to investigation in diverse sites This volume of essays explores practices associated with the reproduction of the global imaginary in such diverse sites as mobile money Irish pubs cyber capitalism urban space music in post apartheid South Africa and global political movements amongst others **Systemic Racism in South Africa** Rupert Taylor, 2024-12-06 This book takes a critical macro level political sociological perspective to understanding South African politics and society Applying systemic racism theory to South Africa the author argues that South African society through its exclusionary social mechanisms has assumed a systemically racist form that deeply compromises questions of truth and justice Constitutive of and embedded in the structure of South African society racism has a reach and a durability that runs deep through the successive stages of segregationism apartheid and liberal democracy Showing the limits of the rule of law in a racist society the author offers a theoretically informed

interpretation as to why the national liberation struggle has fallen short of its promise to deliver a better life for all and as to why truth and justice remain so deeply compromised in South Africa today The arguments advanced are supported by over thirty semi structured interviews conducted by the author with high profile South African politicians jurists and intellectuals as well as by using Truth and Reconciliation Commission hearing transcripts both public and top secret This thought provoking book is driven by the imperative to offer a compelling and sustained argument for taking a systemic racism approach to interpreting South Africa for scholars and students of sociology political science race and ethnic studies law and South African history
