Deconstructing Macbeth The Hyperontological View:

Deconstructing Macbeth Harald William Fawkner, 1990 Macbeth is discussed in relation to Derrida's notion of the metaphysics of presence Fawkner argues that the quest for metaphysical certitude in Macbeth is related to the hero s transformation from a heroic to a post heroic status Thinking About Shakespeare Kay Stockholder, 2018-09-24 Explores the challenges of maintaining bonds living up to ideals and fulfilling desire in Shakespeare's plays In Thinking About Shakespeare Kay Stockholder reveals the rich inner lives of some of Shakespeare's most enigmatic characters and the ways in which their emotions and actions shape and are shaped by the social and political world around them In addressing all genres in the Shakespeare canon the authors explore the possibility of people being constant to each other in many different kinds of relationships those of lovers kings and subjects friends and business partners While some bonds are irrevocably broken many are reaffirmed In all cases the authors offer insight into what drives Shakespeare's characters to do what they do what draws them together or pulls them apart and the extent to which bonds can ever be eternal Ultimately the most durable bond may be between the playwright and the audience whereby the playwright pleases and the audience approves The book takes an in depth look at a dozen of The Bard's best loved works including A Midsummer Night's Dream Romeo and Juliet The Merchant of Venice Richard II Henry IV Part I Hamlet Troilus and Cressida Othello Macbeth King Lear Antony and Cleopatra and The Tempest It also provides an epilogue titled Prospero and Shakespeare Written in a style accessible for all levels Discusses 12 plays making it a comprehensive study of Shakespeare's work Covers every genre of The Bard's work giving readers a full sense of Shakespeare's art thought over the course of his oeuvre Provides a solid overall sense of each play and the major characters plot lines in them Providing new and sometimes unconventional and provocative ways to think about characters that have had a long critical heritage Thinking About Shakespeare is an enlightening read that is perfect for scholars and ideal for any level of student studying one of history s greatest storytellers Macbeth Multiplied Christoph Clausen, 2005 In what sense did Shakespeare's representation of the Weird Sisters participate in the rewriting of village witchcraft Was it likely to encourage the Sword Did opera s specific medial conditions offer Verdi special opportunities to justify the presence of stage witches more than three centuries later How valid is the parallel between 19th century opera and the voyeurism of madhouse spectacle Was Shakespeare s play really engaged in the project of exorcizing Queen Elizabeth's cultural memory What does Verdi's chorus of Scottish refugees have to do with shifting representations of the people These are among the questions tackled in this study It provides the first in depth comparison of Shakespeare's and Verdi s Macbeth that is written expressly from the perspective of current Shakespearean criticism whilst striving to do justice to the topic s musicological dimension at the same time Exploring to what extent the play s matrix of possible readings is distinct from Verdi s two operatic versions the book seeks to relate such differences both to the historical contexts of the works geneses and to their respective medial conditions In doing so it pays particular attention to shifting negotiations of

witchcraft gender madness and kingship The study eventually broadens its discussion to consider other Shakespearean plays and their operatic offshoots reflecting on some possible relations between historical and medial difference **William**Shakespeare's Macbeth Harold Bloom, 2010 A collection of literary criticism focusing on Shakespeare s play Macbeth

The Reception of Derrida M. Thomas, 2006-05-31 This book explores the cross cultural reception of Derrida s work specifically how that work in all its diversity has come to be identified with word deconstruction It is the first book to consider the cultural reception of Derrida's works its accessible language and structure help to make this a benchmark amongst introductory Derrida studies THE TRAGEDY OF MACBETH BY WILLIAM SHAKESPEARE SENGUPTA. GAUTAM, 2022-04-04 The Tragedy of Macbeth is the shortest tragedy written by William Shakespeare Macbeth the protagonist of the play is portrayed as a successful Scottish general in the army of King Duncan Macbeth one day gets politically instigated by a trio of witches that he would become the King of Scotland soon Encouraged by his wife Lady Macbeth and taken over by greed and action Macbeth murders King Duncan and becomes the King of Scotland Key Features Clear language with complete annotations Act wise Scene wise summary given at the end of every Act Plot wise Commentary given at the end of the text Critical Essay explaining Themes that emerge out of Macbeth and Under the Critics Lens have been provided Target Audience B A M A English Shakespeare and the Art of Physiognomy Sibylle Baumbach, 2008 This book deals with the poetics of the human face the art of physiognomy and strategies of nonverbal communication in Shakespeare s plays It offers new insight into Shakespeare s modes of characterisation and his art of performance In Shakespeare s plays the human face is a focal point As an area where expression and impression meet and ideally correspond its reliability and trustworthiness are frequently put to the test sparking off a controversy which serves as a significant and highly challenging subtext to the overall plot Professor Baumbach studied at Heidelberg Cambridge and Munich and has taught at the universities of Warwick Giessen and Stanford She is now at the University of Innsbruck Her publications include Let me behold thy face Physiognomik und Gesichtslektueren in Shakespeares Tragoedien 2007 An Introduction to the Study of Plays and Drama as co author 2009 and Literature and Fascination 2015 Theory after Derrida Kailash C. Baral, R. Radhakrishnan, 2012-04-27 A critical anthology that re examines Jacques Derrida's thought by way of theory and praxis this volume reflects on his striking legacy and the future of theory Among contemporary thinkers Derrida challenges not only our ways of thinking but also hitherto methods of critical inquiry. In the attempt to renovate and re energise philosophy Derrida questions the fundamental assumptions of Western philosophical thought and in turn exposes the intricate lie behind binaries such as speech writing nature culture male female black white literature criticism etc which have continued to shape our worldview where a hegemonic centre is always already in place dominating marginalising the other This book explores not only the status of Derrida's contribution as a critical thinker but also the status of critical theory as such in the contemporary milieu The central question that it asks is whether we should dismiss Derrida as a thinker who

espoused an extreme form of relativism bordering on nihilism or has he something fundamental to contribute to the future of theory Could it be that deconstruction is not destruction but a possibility that casts doubts on whether the present can have faith in future The volume addresses some important concerns of our times such as religious practice art and aesthetics translation sociology of philosophy and democracy making a significant contribution to literary theory Scholars of English literature philosophy sociology and cultural studies will find this work particularly appealing Discourses of Space Judit Pieldner, 2014-07-18 Ever since the emergence of the spatial turn in several scientific discourses special attention has been paid to the surrounding space conceived as a construct created by the dynamics of human activity The notion of space assists us in describing the most varied spheres of human existence We can speak of various physical metaphysical social and cultural and communicative spaces as structuring components providing access to various literary linguistic social and cultural phenomena thus promoting the initiation of a cross disciplinary dialogue. The essays selected in this volume cover a wide range of topics related to space intercultural and interethnic spaces linguistic textual space formation the narratology of space spatial temporal relationships space construction in literature and film space in contemporary art inter art relations and intermediality spaces of cultural memory nature and culture cultural geography cross cultural connections between the East and the West Central and Eastern European geocultural paradigms the relationship between geographical space and cyberspace and relational spaces The approaches used in this volume range across various discursive practices related to space outlining the shifts and displacements concerning existence and identity in the continuously changing restructuring always transitory in between spaces "We Three" Laura Annawyn Shamas, 2007 Original Scholarly Monograph

Martyrdom and Terrorism Dominic Janes, Alex Houen, 2014 This pioneering collection of essays explores the intertwined histories of martyrdom and terrorism from antiquity to the twenty first century Christian and Islamic traditions of moral witness and debate over the justified use of militant sacrifice are situated in relation to the development of Western nationalism with a particular focus on the French Revolution and imperialism Hölderlin and the Poetry of Tragedy Jeremy Tambling, 2014-01-01 H Iderlin 1770 1843 is the magnificent writer whom Nietzsche called my favourite poet His writings and poetry have been formative throughout the twentieth century and as influential as those of Hegel his friend At the same time his madness has made his poetry infinitely complex as it engages with tragedy and irreconcilable breakdown both political and personal with anger and with mourning This study gives a detailed approach to H Iderlin s writings on Greek tragedy especially Sophocles whom he translated into German and gives close attention to his poetry which is never far from an engagement with tragedy H Iderlin s writings always fascinating enable a consideration of the various meanings of tragedy and provide a new reading of Shakespeare particularly Julius Caesar Hamlet and Macbeth the work proceeds by opening into discussion of Nietzsche especially The Birth of Tragedy Since H Iderlin was such a decisive figure for Modernism to say nothing of modern Germany he matters intensely to such differing theorists and philosophers as Walter

Benjamin Theodor Adorno Martin Heidegger Maurice Blanchot and Jacques Derrida all of whose views are discussed herein Drawing upon the insights of Hegelian philosophy and psychoanalysis this book gives the English speaking reader ready access to a magnificent body of poetry and to the poet as a theorist of tragedy and of madness H lderlin's poetry is guoted freely with translations and commentary provided This book is the first major account of H Iderlin in English to offer the student and general reader a critical account of a vital body of work which matters to any study of poetry and to all who are interested in poetry's relationships to madness It is essential reading in the understanding of how tragedy pervades literature and politics and how tragedy has been regarded and written about from Hegel to Walter Benjamin Towards a Revival of Analytical Philosophy of History Krzysztof Brzechczyn, 2017-11-06 Towards a Revival of Analytical Philosophy of History Around Paul A Roth's Vision of Historical Sciences presents the state of the art in the philosophy of history The purpose of this book is to discuss the revival of analytical philosophy of history proposed by Paul A Roth a world known analytical philosopher of the social sciences and the humanities The first four papers outline the reasons for the decline of philosophy of history its present phase of development and its possible future The other authors discuss important questions of this field of research including the ontological status of the past the epistemological assumptions of historical research the explanatory dimensions of the narrative In the last group of papers the authors apply some of Roth's theoretical ideas within their own fields of research Contributors are Krzysztof Brzechczyn Nancy D Campbell Serge Grigoriev G za K llay Piotr Kowalewski Jouni Matti Kuukkanen Chris Lorenz Herman Paul Dawid Rogacz Paul A Roth Laura Stark Stephen Turner Rafa Pawe Wierzchos awski and Eugen Zele k Commonplace Books and Reading in Georgian England David Allan, 2010-07-08 This pioneering exploration of Georgian men and women s experiences as readers explores their use of commonplace books for recording favourite passages and reflecting upon what they had read revealing forgotten aspects of their complicated relationship with the printed word It shows how indebted English readers often remained to techniques for handling absorbing and thinking about texts that were rooted in classical antiquity in Renaissance humanism and in a substantially oral culture It also reveals how a series of related assumptions about the nature and purpose of reading influenced the roles that literature played in English society in the ages of Addison Johnson and Byron how the habits and procedures required by commonplacing affected readers tastes and so helped shape literary fashions and how the experience of reading and responding to texts increasingly encouraged literate men and women to imagine themselves as members of a polite responsible and critically aware public Subjects to the King's Divorce Olga L. Valbuena, 2003 Focusing on the rhetorical aftermath and political consequences of Henry VIII s double divorce from Katherine of Aragon and from the Church of Rome this book understands divorce as both culturally powerful and an instrument for examining division in early modern England Satanic Feminism Per Faxneld, 2017 The notion of woman as the Devil's accomplice is prominent throughout Christian history and was used to legitimise the subordination of wives and daughters In the 19th century

rebellious females performed counter readings of this misogynist tradition and Lucifer was reconceptualised as a feminist liberator Per Faxneld shows how this surprising Satanic feminism was expressed in a wide range of 19th century texts and artistic productions Myth, Telos, Identity Iván Nyusztay, 2021-09-20 Iv n Nyusztay s Myth Telos Identity The Tragic Schema in Greek and Shakespearean Drama for the first time presents a systematic comparison of Greek and Shakespearean tragedy By thematizing the common modes of the tragic it measures their structural regularities against corresponding philosophical and ethical reflections The comparative theory of tragedy evolves through a constant debate with the traditional views of Aristotle Hegel Schelling Paul Ricoeur and others An architectonic survey of plays leads to a generic distinction between pure tragedy and melodrama and proposes a possible description of Christian tragedy This generic differentiation is considered by means of a teleological approach to tragedy as well as from a formal perspective The criticism of traditional notions of character stresses the relevance of dividedness and internal collision tragic phenomena which are explored as necessary stages of self in the constitution and formation of tragic or internal alterity. This form of alterity is underpinned by a discussion of action theory and speech act theory This book will be of interest for readers of Greek and Shakespearean drama as well as for students of comparative literature and genre theory classicists and philosophers and for everyone interested in the relation between literature and philosophy Masks in Horror Cinema Alexandra Heller-Nicholas, 2019-10-15 First critical exploration of the history and endurance of masks in horror cinema Written by an established award winning author with a strong reputation for research in both academia and horror fans Interdisciplinary study that incorporates not only horror studies and cinema studies but also utilises performance studies anthropology Gothic studies literary studies and folklore studies Shakespeare as Prompter Murray Cox, Alice Theilgaard, 1994 Prompting is the thematic thread that pervades the pages of this book Its primary connotation is that of the prompter who is urgently called into action at moments of anxiety when narrative begins to fail The central dynamic issue concerns the amending imagination as a prompting resource which through creativity and the aesthetic imperative can be invoked in this therapeutic space when the patient through fear resistance or distraction is unable to continue with his story Psychotherapy can be regarded as a process in which the patient is enabled to do for himself what he cannot do on his own Shakespeare as the spokesman for all other poets and dramatists prompts the therapist in the incessant search for those resonant rhythms and mutative metaphors which augment empathy and make for deeper communication and which also facilitates transference interpretation and resolution The cadence of the spoken word and the different laminations of silence always call for more finely tuned attentiveness than the therapist unprompted can offer The authors show how Shakespeare can prompt therapeutic engagement with inaccessible patients who might otherwise be out of therapeutic reach At the same time they demonstrate that the clinical off stage world of therapy can also prompt the work of the actor in his on stage search Shakespeare Quarterly, 1993 Provides image and full text online access to back issues for representational precision
