Goodman, 2011-03-16 A sharp and lively text that covers issues in depth but not to the point that they become inaccessible to beginning students An Introduction to Architectural Theory is the first narrative history of this period charting the veritable revolution in architectural thinking that has taken place as well as the implications of this intellectual upheaval The first comprehensive and critical history of architectural theory over the last fifty years surveys the intellectual history of architecture since 1968 including criticisms of high modernism the rise of postmodern and poststructural theory critical regionalism and tectonics Offers a comprehensive overview of the significant changes that architectural thinking has undergone in the past fifteen years Includes an analysis of where architecture stands and where it will likely move in the coming years *How Architecture Got Its Hump* Roger Connah, 2001-04-13 Fables of content and undoing on the current state of architecture In *How Architecture Got Its Hump* Roger Connah explores the interference of other disciplines with and within contemporary architecture He asks whether photography film drawing philosophy and language are merely fashionable props for architectural hallucinations or alibis for revisions of history Or are they a means for widening the site of architecture Connah shows how these disciplines have not only contributed to new developments in architectural theory and practice but have begun to insinuate new possibilities of space Sometimes seamless sometimes awkward like the hump acquired by the camel in one of Rudyard Kipling's *Just So Stories* these disciplines have had their own responsibilities and excesses grafted onto architecture just as architecture has tried to shake off their limitations Taking interference a step further Connah also considers the implications of philosophical incongruity and architectural unrest He asks how architecture loses its head transcends the dead language it now entraps and houses meanings it wants to contest Hardly bleak questions suggests Connah for they point to ways for architecture to rescue itself **Theory for Classics** Louise

Hitchcock, 2008-01-10 *Theory for Classics* provides a concise and clear introduction to the work of major contemporary theorists of the past century and how they can be applied to Classical studies today **Design Strategies in Architecture**

Geoffrey H. Baker, 2003-09-01 Modern architecture has become extremely complex and its study has been made more difficult by changes in fashion and a proliferation of design modes In this book Geoffrey Baker develops a methodology for design analysis that reveals the underlying organisation of buildings Part One explains the nature and role of architecture in a wide ranging discussion extending from geometry to symbolism Part Two demonstrates the analytical methodology by reference to cities and works by modern masters such as Aalto Mies and Stirling In this second revised edition Dr Baker has added a chapter outlining the relationship between some current perceptions of science art and philosophy and how these impinge on architecture The discussion compares Futurism Constructivism Suprematism High Tech Deconstruction and the attitude of the avant garde with the phenomenology of Bachelard and Heidegger *Introducing Urban Design* Clara Greed, Marion Roberts, 2014-10-14 *Introducing Urban Design Interventions and Responses* is a new departure in the town planning series under the editorship of Clara Greed The dynamic new subject and profession of urban design straddles the fields of town planning architecture landscape architecture and transport planning This book recognises that a key feature of modern urban design practice is the ability to integrate a concern with the visual and aesthetic aspects of urban form with a strong social awareness of the need of user groups plus a sensitivity to wider environmental and sustainability issues In this it continues the themes already introduced in earlier volumes such as the changing nature of the profession social problems and the means of implementing policy Written by a team of eminent urban designers architects and planners under the joint editorship of Clara Greed and Marion Roberts the book introduces the reader to the subject through a discussion of current issues approaches and user responses *Introducing Urban Design Interventions and Responses* is an ideal resource for undergraduate courses in town planning architecture landscape architecture estate management and housing studies It is also suitable as an introductory text for first year diploma and masters programmes in urban design and suitable for RTPI RICS CIOH CIOB ASI ISVA and RIBA courses and will be of interest to professional practitioners in the urban design field
