China Histories The earliest known written records of the history of China date from as early as 1250 BC from the Shang

dynasty c 1600 1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no

writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of

Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and

Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of

continuous history China is one of the world s oldest civilizations and is regarded as one of the cradles of civilization The

Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule

The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country

eventually splintered into smaller states during the Spring and Autumn period These states became independent and warred

with one another in the following Warring States period Much of traditional Chinese culture literature and philosophy first

developed during those troubled times In 221 BC Qin Shi Huang conquered the various warring states and created for

himself the title of Huangdi or emperor of the Qin marking the beginning of imperial China However the oppressive

government fell soon after his death and was supplanted by the longer lived Han dynasty 206 BC 220 AD Successive

dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly In the 21 centuries

from 206 BC until AD 1912 routine administrative tasks were handled by a special elite of scholar officials Young men well

versed in calligraphy history literature and philosophy were carefully selected through difficult government examinations

China s last dynasty was the Qing 1644 1912 which was replaced by the Republic of China in 1912 and in the mainland by

the People's Republic of China in 1949 Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood the most recent being the Chinese Civil War 1927-1949 China was occasionally dominated by steppe peoples most of whom were eventually assimilated into the Han Chinese culture and population Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China
