Deep Rivers José María Arguedas, 2002-03-28 Fiction In English translation Jos Mara Arguedas is one of the few Latin American authors who loved and described his natural surroundings and he ranks among the greatest writers of any time and place He saw the beauty of the Peruvian landscape as well as the grimness of social conditions in the Andes through the eyes of the Indians who are a part of it Ernesto the narrator of Deep Rivers is a child with origins in two worlds The son of a wandering country lawyer he is brought up by Indian servants until he enters a Catholic boarding school at age 14 In this urban Spanish environment he is a misfit and a loner The conflict of the Indian and the Spanish cultures is acted out within him as it was in the life of Arguedas For the boy Ernesto salvation is his world of dreams and memories While Arguedas poetry was published in Quechua he invented a language for his novels in which he used native syntax with Spanish vocabulary This makes translation into other languages extremely difficult and Frances Horning Barraclough has done a masterful job winning the 1978 Translation Center Award from Columbia University

Frostick,2009-04-13 Stratigraphers and sedimentologists who are presently describing and interpreting the infill of sedimentary basins are generally agreed that it is difficult to disentangle the signatures of tectonic processes from those of climate and eustatic sea level change in the resultant rock succession Until better criteria are developed to distinguish between the roles played by the major variables it is still most useful to document and interpret basin fill architectures where we know from independent evidence that one of the main controls is likely to have been a major contributor This book contains a collection of papers describing situations

where the tectonic setting is fairly well established and it can be assumed that at least the tectonic factor has contributed to the resultant signatures **Echinoderms: Munchen** Thomas Heinzeller, James H.
