Deep South:

Deep South Allison Davis, Burleigh Bradford Gardner, Mary R. Gardner, 2009 First published in 1941 Deep South is the cooperative effort of a team of social anthropologists to document the economic racial and cultural character of the Jim Crow South through a study of a representative rural Mississippi community Researchers Allison Davis Burleigh B Gardner and Mary R Gardner lived among the people of Natchez Mississippi as they investigated how class and caste informed daily life in a typical southern community This Southern Classics edition of their study offers contemporary students of history a provocative collection of primary material gathered by conscientious and well trained participant observers who found then as now intertwined social and economic inequalities at the root of racial tensions Expanding on earlier studies of community stratification by social class researchers in the Deep South Project introduced the additional concept of caste which parsed a community through rigid social ranks assigned at birth and unalterable through life a concept readily identifiable in the racial divisions of the Jim Crow South As African American researchers Davis and his wife Elizabeth along with his assistant St Clair Drake were able to gain unrivaled access to the black community in rural Mississippi unavailable to their white counterparts Through their interviews and experiences the authors vividly capture the nuances in caste enforcing systems of tenant landlord relations local government and law enforcement But the chief achievement of Deep South is its rich analysis of how the southern economic system and sharecropping in particular functioned to maintain rigid caste divisions along racial lines In the new introduction to this edition Jennifer Jensen Wallach situates this germinal study within the field of social anthropology and against the backdrop of similar community studies of the era She also details the subsequent careers of this distinguished team of researchers

Deep South Paul Theroux, 2015 Paul Theroux has spent fifty years crossing the globe adventuring in the exotic seeking the rich history and folklore of the far away Now for the first time in his tenth travel book Theroux explores a piece of America the Deep South He finds there a paradoxical place full of incomparable music unparalleled cuisine and yet also some of the nation's worst schools housing and unemployment rates It's these parts of the South so often ignored that have caught Theroux's keen traveler's eye

Deep South's Oldest Rivalry, The: Auburn vs. Georgia Douglas Stutsman, 2017 The rivalry between Auburn University and the University of Georgia began in 1892 and has largely been a competition more brotherly than bitter According to one legend Auburn's War Eagle battle cry originated at the first game between the two schools The first overtime game in SEC history occurred in 1996 when Georgia topped the heavily favored Tigers 56-49 in four extra periods Renowned UGA coach Vince Dooley graduated from Auburn while Auburn coach Pat Dye was an All American at UGA Join award winning journalist Doug Stutsman as he recounts the unforgettable games moments and personalities on the 125th anniversary of the Deep South's Oldest Rivalry

Social Transformations in India, Myanmar, and Thailand: Volume I Chosein Yamahata, Donald M. Seekins, Makiko Takeda, 2021-01-02 This book focuses on the different challenges and opportunities for social transformation in India Myanmar and Thailand by centering

communities and individuals as the main drivers of change. In doing so it includes discussions on a wide array of issues including women's empowerment and political participation, ethno-religious tensions, plurilingualism, education reform, community-based healthcare, climate change, disaster management, ecological systems, and vulnerability reduction. Two core foundations are introduced for ensuring broader transformations. The first is the academic diplomacy project, a framework for an engaged academic enquiry focusing on causative, curative, transformative, and promotive factors. The second is a community-driven collective struggle that serves as a grassroots possibility to facilitate positive social transformation by using locally available resources and enabling the participation of the resident population. As a whole, the book conveys the importance of a diversification of engagement at the grassroots level to strengthen the capacity of individuals as decisive stakeholders where the process of social transformation makes communities more interconnected, interdependent, multicultural, and vital in building an inclusive society.

First Published in 2004 Routledge is an imprint of Taylor Francis, an informal company.

The Crisis, 1936-07 The Crisis founded by W. E. B. Du Bois as the official publication of the NAACP is a journal of civil rights history, politics, and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color. For nearly 100 years The Crisis has been the magazine of opinion and thought leaders, decision makers, peacemakers, and justice seekers. It has chronicled, informed, educated, entertained, and in many instances set the economic, political, and social agenda for our nation and its multi-ethnic citizens.

Unjust Restitution Michael Kingsley Brown, 2025-02-04 The question of economic justice for Black Americans remains unresolved and continues to be the subject of contentious political debate. In *Unjust Restitution* Michael K. Brown examines the meaning of racial equality during three transformative periods in American history when significant changes to economic status and opportunity appeared to be a real possibility in the US: Reconstruction, the New Deal, and the Great Society. Political leaders believed slavery and Jim Crow degraded Black people and enacted policies to rehabilitate formerly subjugated individuals. Black Americans challenged this conception and repudiated the idea that they were damaged people in need of repair. Repeatedly, Black people's vision of economic justice was based on anti-privilege egalitarianism, the idea that a just restitution for their oppression required abolishing the political and legal privileges whites had acquired. Black opposition reveals what was at stake at each historical moment and what might constitute economic justice in the twenty-first century. Equality of opportunity can be a just restitution for continuing durable racial inequality only if it changes the structure of people's economic opportunities.

Reporting Thailand's Southern Conflict Phansasiri Kularb, 2016-02-12 Since 2004 Thailand's southern border provinces have been plagued by violence. There are a wide array of explanations for this violence from the revival of Malay nationalist movements and the influence from the global trend of radical Islam to the power play among the regional underground crime syndicates, politicians, and state authorities. The disparate interpretations signal the dynamic and complex discursive contention of this

damaging and enduring conflict and this book looks at how this is played out in the Thai media and with what possible consequences In analysing the southern conflict coverage the book presents the deficiencies in news coverage as produced by four news organisations of different natures across a seven year review period and discusses the professional practices that hinder journalism from serving as a fair arena for healthy and rational democratic debates Based on in depth interviews with news workers it argues that Thai journalism is not always monolithic and static as shown in the discursive shifts in news content the variations of journalistic practices and news workers disparate stances on the conflict The book goes on to highlight the less immediately apparent difficulties of political conflict reporting such as the subtle patterns of intimidation and media manipulation as well as the challenges of countering socially prevailing hegemonic beliefs in Thai society Exploring the political contingencies and socio cultural influences at play this book provides an in depth study of journalism s role in politics in Thailand and is of interest to students and scholars of Southeast Asian Politics Media Studies and Peace and Conflict Studies Research Paper SE. ,1991 *Black Americans in Congress, 1870-2007* ,2008 From the publisher Provides a comprehensive history of the more than 120 African Americans who have served in the United States Congress Written for a general audience this book contains a profile of each African American Member including notables such as Hiram Revels Joseph Rainey Oscar De Priest Adam Clayton Powell Shirley Chisholm Gus Hawkins and Barbara Jordan Individual profiles are introduced by contextual essays that explain major events in congressional and U S history Illustrated with many portraits photographs and charts **A Tyrannous Eye** Pearl Amelia McHaney,2014-07-17 A Tyrannous Eye Eudora Welty s Nonfiction and Photographs is the first book length study of Eudora Welty s full range of achievements in nonfiction and photography A preeminent Welty scholar Pearl Amelia McHaney offers clear eyed and complex assessments of Welty s journalism book reviews letters essays autobiography and photographs Each chapter focuses on one genre filling in gaps left by previous books With keen skills of observation finely tuned senses intellect wit awareness of audience and modesty Welty applied her genius in all that she did holding a tough line on truth breaking through the veil of indifference to each other s presence each other s wonder each other s plight McHaney s study brings critical attention to the under evaluated genres of Welty s work and discusses the purposeful use of arguments examples and styles demonstrating that Welty pursued her craft to a high standard across genres with a greater awareness of context than she admitted in her numerous interviews Welty consistently dared new styles new audiences and new publishing venues in order to express her ideas to their fullest It is serious daring as she wrote in One Writer s Beginnings that makes for great writing In Place in Fiction Welty asks How can you go out on a limb if you do not know your own tree No art ever came out of not risking your neck And risk experiment is a considerable part of the joy of doing Occasional Paper ,1946 **A Proposal to Divide the Fifth Circuit** United States. Federalism, Secession, and the American State Lawrence M. Anderson, 2013-05-20 One important tradition in political science conceives of the Civil War in the United States serving as the functional equivalent of the English and French Revolutions bringing with it the victory of liberal democratic industrialism over aristocratic agriculturalism From this perspective the Civil War is notable for its impact on the American state Surprisingly however little attention has been paid to the distinguishing features of this historic rupture in American politics Through primary source research and the re analysis of the rich historical literature about the antebellum era and the causes of the Civil War Lawrence A Anderson explores the relationship between federalism and the movement for secession in the United States during the pre civil war era Focusing primarily on South Carolina Anderson carefully revisits theory on institutional analysis of political development to expose what caused secession in the United States

Proof that high health care spending is linked directly to poverty In Poverty and the Myths of Health Care Reform Dr Richard Buz Cooper argues that US poverty and high health care spending are inextricably entwined Our nation's health care system bears a financial burden that is greater than in any other developed country in large part because impoverished patients use more health care driving up costs across the board Drawing on decades of research Dr Cooper illuminates the geographic

patterns of poverty wealth and health care utilization that exist across neighborhoods regions and states and among countries He chronicles the historical threads that have led to such differences examines the approaches that have been taken to combat poverty throughout US history and analyzes the impact that structural changes now envisioned for clinical practice are likely to have His research reveals that ignoring the impact of low income on health care utilization while blaming rising costs on waste inefficiency and unnecessary care has led policy makers to reshape clinical practice in ways that impede providers who care for the poor The first book to address the fundamental nexus that binds poverty and income inequality to soaring health care utilization and spending Poverty and the Myths of Health Care Reform is a must read for medical professionals public health scholars politicians and anyone concerned with the heavy burden of inequality on the health of Americans
