**News from the Empire** Fernando del Paso, 2009 If there was not so much fiction in News from the Empire it could be called a work of history In fact the focus of this broad work is history itself as well as the many unrecorded lives and events that history has forgotten from this strange era in Mexico's early nationhood Using Emperor Maximilian and his wife Carlota as a starting point Fernando Del Paso both considers what Mexico is and the country's place in the larger narrative of world history The book spans the palaces of Europe and the villages of Mexico yet despite its broad focus News is a book rich in characters and details a work that opens up this era of Mexican history to readers without specialized knowledge Maximilian and Carlota are the focus of the book and even if they are not explicitly on every page they are always in the background somewhere providing the humanizing contradictions that fill it Del Paso draws a complicated picture of two naive people placed in a situation they could not manage and a country they did not understand This innocence is especially inexplicable in the case of Maximilian who as brother of Austria's Emperor Franz Josef should have known something about ruling but is completely unable to govern
