## **Deer Camp Last Light In The Northeast Kingdom:**

**Deer Camp** Meg Ostrum, 1992 Neither advocacy nor indictment of deer hunting Deer Camp documents the rituals and traditions of hunting season in Vermont's fabled Northeast Kingdom a landscape increasingly threatened by development and changing social values Killing Tradition Simon J. Bronner, 2008-11-21 Across the country and around the world people avidly engage in the cultural practice of hunting Children are taken on rite of passage hunting trips where relationships are cemented and legacies are passed on from one generation to another Meals are prepared from hunted game often consisting of regionally specific dishes that reflect a community's heritage and character Deer antlers and bear skins are hung on living room walls decorations and relics of a hunter's most impressive kills Only 5 percent of Americans are hunters but that group has a substantial presence in the cultural consciousness Hunting has spurred controversy in recent years inciting protest from animal rights activists and lobbying from anti cruelty demonstrators who denounce the custom But hunters have responded to such criticisms and the resulting legislative censures with a significant argument in their defense the claim that their practices are inextricably connected to a cultural tradition Further they counter that they as representatives of the rural lifestyle pioneer heritage and traditional American values are the ones being victimized Simon J Bronner investigates this debate in *Killing Tradition Inside Hunting and Animal Rights Controversies* Through extensive research and fieldwork Bronner takes on the many questions raised by this problematic subject Does hunting promote violence toward humans as well as animals Is it an outdated activity unnecessary in modern times Is the heritage of hunting worth preserving *Killing Tradition* looks at three case studies that are at the heart of today's hunting debate Bronner first examines the allegedly barbaric rituals that take place at deer camps every late November in rural America He then analyzes the annual Labor Day pigeon shoot of Hegins Pennsylvania which brings animal rights protests to a fever pitch Noting that these aren't simply American concerns and that the animal rights movement in America is linked to British animal welfare protests Bronner examines the rancor surrounding the passage of Great Britain's Hunting Act of 2004 the most comprehensive and divisive anti hunting legislation ever enacted The practice of hunting is sure to remain controversial as it continues to be touted and defended by its supporters and condemned and opposed by its detractors With *Killing Tradition* Bronner reflects on the social psychological and anthropological issues of the debate reevaluating notions of violence cruelty abuse and tradition as they have been constructed and contested in the twenty first century *The changing faces of tradition : a report on the folk and traditional arts in the United States* , Wild Games Dennis Ray Cutchins, Eric Alden Eliason, 2009 Humans understand at least some of what it means to be human both literally and figuratively in reference to wild animals Our relationships with wildlife have traditionally been expressed in terms of hunting more recently these relationships have also been manifest as efforts to prevent hunting Hunting and fishing traditions are in fact under fire by critics at the same time that they are receding of their own accord perhaps becoming even more endangered than any of the pursued animals These traditions

form the major focus of *Wild Games* a new collection of essays that looks at the folklore and culture of various hunting and fishing practices documenting the central importance of hunting to many rural societies even in modern times Editors Dennis Cutchins and Eric Eliason contend that hunters often don't perceive of themselves as separate from the wild but rather identify strongly with a natural order integrated with rather than standing apart from the fluctuation of ecosystems And they frequently don't see wild animals as set apart but understand them as food sources competitors friendly rivals and even equals Featuring contributions from a variety of distinguished scholars and writers including an essay by the noted folklorist Simon Bronner on the culture of the deer camp a fascinating account of coyote tracking by Eric Eliason and an examination of the role of gender in outdoor life by Diane Humphrey Lueck this book shows how the traditions of hunting and fishing tend to bind hunter and prey into ancient patterns that often defy contemporary culture Book Jacket *Image-based Research* Jon Prosser, 2005-08-12 Just what is a picture worth Qualitative research is dominated by language However researchers have recently shown a growing interest in adopting an image based approach This is the first volume dedicated to exploring this approach and will prove an invaluable sourcebook for researchers in the field The book covers a broad scope including theory and the research process and provides practical examples of how image based research is applied in the field It discusses use of images in child abuse investigation exploring children's drawings in health education cartoons the media and teachers **Vermont History News**, 1990 **Encyclopedia of American Folklife** Simon J Bronner, 2015-03-04 American folklife is steeped in world cultures or invented as new culture always evolving yet often practiced as it was created many years or even centuries ago This fascinating encyclopedia explores the rich and varied cultural traditions of folklife in America from barn raisings to the Internet tattoos and Zydeco through expressions that include ritual custom crafts architecture food clothing and art Featuring more than 350 A-Z entries *Encyclopedia of American Folklife* is wide ranging and inclusive Entries cover major cities and urban centers new and established immigrant groups as well as native Americans American territories such as Guam and Samoa major issues such as education and intellectual property and expressions of material culture such as homes dress food and crafts This encyclopedia covers notable folklife areas as well as general regional categories It addresses religious groups reflecting diversity within groups such as the Amish and the Jews age groups both old age and youth gangs and contemporary folk groups skateboarders and psychobillies placing all of them in the vivid tapestry of folklife in America In addition this resource offers useful insights on folklife concepts through entries such as community and group and tradition and culture The set also features complete indexes in each volume as well as a bibliography for further research *A Matter of Life and Death* Marc A. Boglioli, 2004 **Legendary Deer Camps** Wegner Rob, 2001-10-22 This second book in the *Deer and Deer Hunting Classics* series rekindles the deer hunting history and the role of deer camps in hunting's culture Relive the hunts joy and trepidation of famous American deer hunters such as William Faulkner Aldo Leopold and Oliver Hazard Perry Rare historical paintings and photographs capture the spirit of long past deer
