Defeating Mau Mau:

Defeating Mau Mau Louis Leakey, 2013-11-05 Many of the issues are still pertinent to other African countries in the 21st century e g clear parallels with Zimbabwe *Defeating Mau Mau* Louis Seymour Bazett Leakey, 1955 **Defeating Mau Mau** Louis S. B. Leakey, 1953 Defeating Mau Mau L. S. B. Leakey, 2003-01-01 Defeating Mau Mau, Creating Kenya Daniel Branch, 2009-08-31 This book details the devastating Mau Mau civil war fought in Kenya during the 1950s and the legacies of that conflict for the post colonial state As many Kikuyu fought with the colonial government as loyalists joined the Mau Mau rebellion Focusing on the role of those loyalists the book examines the ways in which residents of the country s Central Highlands sought to navigate a path through the bloodshed and uncertainty of civil war It explores the instrumental use of violence changes to allegiances and the ways in which cleavages created by the war informed local politics for decades after the conflict s conclusion Moreover the book moves toward a more nuanced understanding of the realities and effects of counterinsurgency warfare Based on archival research in Kenya and the United Kingdom and insights from literature from across the social sciences the book reconstructs the dilemmas facing members of society at war with itself and its colonial ruler **Mau Mau Memoirs** Marshall S. Clough, 1998 Clough history U of Northern Colorado analyzes 13 personal accounts by Kenyans in order to make a case for not only their historical value but their role in the struggle to define the importance of Mau Mau within Kenyan historiography and politics He argues that the recollections of the authors whose experiences ranged from organizing the secret movement to supplying the guerillas to active fighting to resistance in the British detention camps serve to refute both the British and Kenyan versions of the revolt Annotation copyrighted by Book News Inc Portland OR Human Rights in the Shadow of Colonial Violence Fabian Klose, 2013-04-22 Human Rights in the Shadow of Colonial Violence explores the relationship between the human rights movement emerging after 1945 and the increasing violence of decolonization Based on material previously inaccessible in the archives of the International Committee of the Red Cross and the United Nations Human Rights Commission this comparative study uses the Mau Mau War 1952 1956 and the Algerian War 1954 1962 to examine the policies of two major imperial powers Britain and France Historian Fabian Klose considers the significance of declared states of emergency counterinsurgency strategy and the significance of humanitarian international law in both conflicts Klose s findings from these previously confidential archives reveal the escalating violence and oppressive tactics used by the British and French military during these anticolonial conflicts in North and East Africa where Western powers that promoted human rights in other areas of the world were opposed to the growing global acceptance of freedom equality self determination and other postwar ideals Practices such as collective punishment torture and extrajudicial killings did lasting damage to international human rights efforts until the end of decolonization Clearly argued and meticulously researched Human Rights in the Shadow of Colonial Violence demonstrates the mutually impacting histories of international human rights and decolonization expanding our

understanding of political violence in human rights discourse

The End of Empires and a World Remade Martin Thomas, 2024-03-19 A capacious history of decolonization from the decline of empires to the era of globalization Empires until recently were everywhere They shaped borders stirred conflicts and set the terms of international politics With the collapse of empire came a fundamental reorganization of our world Decolonization unfolded across territories as well as within them Its struggles became internationalized and transnational as much global campaigns of moral disarmament against colonial injustice as local contests of arms In this expansive history Martin Thomas tells the story of decolonization and its intrinsic link to globalization He traces the connections between these two transformative processes the end of formal empire and the acceleration of global integration market reorganization cultural exchange and migration The End of Empires and a World Remade shows how profoundly decolonization shaped the process of globalization in the wake of empire collapse In the second half of the twentieth century decolonization catalyzed new international coalitions it triggered partitions and wars and it reshaped North South dynamics Globalization promised the decolonized greater access to essential resources to wider networks of influence and to worldwide audiences but its neoliberal variant has reinforced economic inequalities and imperial forms of political and cultural influences In surveying these two codependent histories across the world from Latin America to Asia Thomas explains why the deck was so heavily stacked against newly independent nations Decolonization stands alongside the great world wars as the most transformative event of twentieth century history In The End of Empires and a World Remade Thomas offers a masterful analysis of the greatest process of state making and empire unmaking in modern history

At the End of Military Intervention Robert Johnson, Timothy Clack, 2015 Written by leading scholars and practitioners this is the first book to explore the specifics of what happens at the end of military intervention It draws upon on a wide range of post 1945 examples from a variety of regions and periods providing a foundational source on what forms a crucial element of past and present interventions

Ancestral Passions Virginia Morell, 2011-01-11 This biography of the First Family of anthropology reveals how their discoveries collaborations and rivalries contributed to our own knowledge of the origins of humankind In this fascinating and authoritative work acclaimed science writer Virginia Morell brings to vivid life the famous and infamous Leakey family pioneers in the field of paleoanthropology Louis Leakey the patriarch who persisted through initial scientific failures and scandal ridden divorce to achieve spectacular success in digs throughout East Africa Mary his second wife who worked alongside Louis as they made their outstanding discoveries at Olduvai Gorge and elsewhere and Richard their son who ascended to the top of the field in his parents wake only to be threatened with both near fatal illness and fierce professional rivalry Morell transports us into the world of these compelling personalities demonstrating how a small clan of highly talented and fiercely competitive people came to dominate an entire field of science and to contribute immeasurably to our understanding of the origins of humanity

Witchcraft and Colonial Rule in Kenya, 1900-1955 Katherine Luongo, 2011-09-26 Focusing on colonial Kenya this book shows how

conflicts between state authorities and Africans over witchcraft related crimes provided an important space in which the meanings of justice law and order in the empire were debated Katherine Luongo discusses the emergence of imperial networks of knowledge about witchcraft She then demonstrates how colonial concerns about witchcraft produced an elaborate body of jurisprudence about capital crimes The book analyzes the legal wrangling that produced the Witchcraft Ordinances in the 1910s the birth of an anthro administrative complex surrounding witchcraft in the 1920s the hotly contested Wakamba Witch Trials of the 1930s the explosive growth of legal opinion on witch murder in the 1940s and the unprecedented state sponsored cleansings of witches and Mau Mau adherents during the 1950s A work of anthropological history this book develops an ethnography of Kamba witchcraft or uoi *Fight Or Flight* Martin Thomas,2014-03 The story of the dramatic collapse of the British and French colonial empires in the aftermath of the Second World War now told for the first time as part of one global process **The Contested Lands of Laikipia** Marie Ladekjær Gravesen,2020-11-16 Pastoralists ranchers of European descent conservationists smallholders and land investors with political influence converge on the Laikipia plateau in Kenya Land is claimed by all the tactics differ Private property rights are presented histories of presence are told charges of immorality are applied fences are electrified and some resort to violence The region marked by enclosures is left as a tense fragmented frontier Marie Gravesen embedded herself in the region prior to a wave of land invasions that swept the plateau leading up to Kenya s 2017 general election Through a rich telling of the history of Laikipia s social political and environmental dynamics she invites a deeper understanding of the pre election violence and general tensions as never done before The manuscript is a revised version of the author s dissertation accepted by the Faculty of Arts and Humanities at the University of Cologne in 2018 Naturalizing Africa Cajetan Iheka,2018 This book analyzes how African literary texts have engaged with pressing ecological problems in Africa It is a multi disciplinary text for both researchers and scholars of African Studies the environment and postcolonial literature Colonial Psychiatry and the African Mind Jock McCulloch,1995-01-12 In this first history of psychiatry in colonial Africa Jock McCulloch describes the clinical approaches of well known European practitioners including Frantz Fanon and Wulf Sachs They operated independently of one another Yet despite their differences they shared a coherent set of ideas about the African Mind based on the colonial notion of African inferiority By exploring the association between settler ideology and psychiatric research this study examines colonial science as a system of knowledge and power The British Way in Counter-Insurgency, 1945-1967 David French,2011-09-29 The claim by the Ministry of Defence in 2001 that the experience of numerous small wars has provided the British Army with a unique insight into this demanding form of conflict unravelled spectacularly in Iraq and Afghanistan One important reason for that David French suggests was because contemporary British counter insurgency doctrine was based upon a serious misreading of the past Until now many observers believed that during the wars of decolonisation in the two decades after 1945 the British had discovered how western liberal notions of right and

wrong could be made compatible with the imperatives of waging war amongst the people that force could be used effectively but with care and that a more just and prosperous society could emerge from these struggles By using only the minimum necessary force and doing so with the utmost discrimination the British were able to win by securing the hearts and minds of the people But this was a serious distortion of actual British practice on the ground David French's main contention is that the British hid their use of naked force behind a carefully constructed veneer of legality In reality they commonly used wholesale coercion including cordon and search operations mass detention without trial forcible population resettlement and the creation of free fire zones to intimidate and lock down the civilian population The British waged their counter insurgency campaigns by being nasty not nice to the people The British Way in Counter Insurgency is a seminal reassessment of the historical foundation of British counter doctrine and practice *Warfare and Tracking in Africa, 1952-1990* Timothy J Stapleton, 2015-10-06 During the decolonization wars in East and Southern Africa tracking became increasingly valuable as a military tactic Drawing on archival research and interviews Stapleton presents a comparative study of the role of tracking in insurgency and counter insurgency across Kenya Zimbabwe and Namibia *People's Resistance to Colonialism and Imperialism in Kenya* Durrani, Shiraz, 2018-08-03 This book looks at the third pillar of resistance to British colonialism people's resistance the others being Mau Mau and radical trade union movement It brings together several aspects of people's resistance to colonialism and imperialism before and after independence and includes resistance by nationalities women students peasants and workers in what can only be described as people's resistance While Mau Mau and trade unions were essential in the liberation struggle on their own they would have faced innumerable difficulties to achieve their goal Peasants nationalities women children and young people students independent churches independent schools all played a part in reinforcing the organized and ideology led resistance of Mau Mau and trade unions Additional material is included to provide thought for reflections The first two essays deal with the question of nationalities and with the contradictions between capitalism and socialism with the collapse of USSR They point to the fact that the struggle in Kenya influences and is in turn influenced by developments around the world The next section is the presentation at the launch of Kenya's War of Independence in Nairobi on February 21 2018 The final section contains solidarity messages from Shiraz Durrani Abdilatif Abdalla and Kang'ethe Mungai at the event to commemorate and celebrate the revolutionary work of Karimi Nduthu held on March 24 2018 at the Professional Centre in Nairobi The Kenya Resists Series covers different aspects of resistance by people of Kenya to colonialism and imperialism It reproduces material from books unpublished reports research and oral or visual testimonies The three aspects chosen for the first three publications in the Series Mau Mau Trade Unions and People's Resistance make up the three pillars of resistance of the people of Kenya Unlawful Combatants Sibylle Scheipers, 2015 The book investigates the emergence and the development of irregular fighters such as guerrillas rebels insurgents and terrorists throughout the history of modern war It presents a historically based critique of the twenty first century notion of

the irregular fighter as an unlawful combatant Singing the Law Peter Leman, 2020-04-18 Singing the Law is about the legal lives and afterlives of oral cultures in East Africa particularly as they appear within the pages of written literatures during the colonial and postcolonial periods In examining these cultures this book begins with an analysis of the cultural narratives of time and modernity that formed the foundations of British colonial law Recognizing the contradictory nature of these narratives i e both promoting and retreating from the Euro centric ideal of temporal progress enables us to make sense of the many representations of and experiments with non linear open ended and otherwise experimental temporalities that we find in works of East African literature that take colonial law as a subject or point of critique Many of these works furthermore consciously appropriate orature as an expressive form with legal authority This affords them the capacity to challenge the narrative foundations of colonial law and its postcolonial residues and offer alternative models of temporality and modernity that give rise in turn to alternative forms of legality East Africa s oral jurisprudence ultimately has implications not only for our understanding of law and literature in colonial and postcolonial contexts but more broadly for our understanding of how the global south has shaped modern law as we know and experience it today
