Of Death and Birth Barbara Schuler, 2009 Scholars of popular Hindu religion in India have always been fascinated by oral texts and rituals but surprisingly only few attempts have as yet been made to analyse the relationship between rituals and texts systematically This book contributes to the filling of this gap Focusing on the dynamics of a local non Brahmanical ritual its modular organisation and inner logic the interaction between narrative text and ritual and the significance of the local versus translocal nature of the text in the ritual context the study provides a broad range of issues for comparison It demonstrates that examining texts in their context helps to understand better the complexity of religious traditions and the way in which ritual and text are programmatically employed The author offers a vivid description of a hitherto unnoticed ritual system along with the first translation of a text called the Icakkiamman Katai IK Composed in the Tamil language the IK represents a substantially longer and embellished form of a core version which probably goes as far back as the seventh century C E Unlike the classical source this text has been incorporated into a living tradition and is being constantly refashioned A range of text versions have been encapsulated in the form of a conspectus which will shed light on the text's variability or fixity and will add to our knowledge of bardic creativity Includes a film by the author on DVD

A Girl's Paradise Lost Nawal Halawa, 2023-12-04 Sitt Zubaida's idyllic childhood on the al Ajami Beach in Jaffa is nothing short of paradise She spends her days with her loving family and with the enchanting sea and spends her nights reading novels immersing herself in stories of romance But Sitt Zubaida's world is changed with the arrival of the Palestinian Nakba in 1948 and her paradise is lost forever The girl and her family join the more than 750 000 Palestinian Arabs displaced from their homes Due to the tumultuous Israel Palestine conflict Sitt Zubaida and her family move from home to home city to city and country to country causing years of anguish as she reflects on what was and yearns to return to her paradise The partly autobiographical partly fictionalized narrative of daily life and family traditions before and after the Nakba is interspersed with nostalgic memories and emotional reflections

Sitt Zubaida's story captures the deeply human experience of loss and displacement combined with a love and longing that can never be extinguished. *A Girl's Paradise Lost* shines a humanizing light on the personal and social impact of a tragedy too often ignored in political accounts of historic Palestine and portrayals of Palestinians as either victims or terrorists. [Her Sister's Death](#) K. L. Murphy, 2022-12-13 A January 2023 Once Upon a Book Club Pick You'll get nothing done until you've reached the end of this excellent book. Lisa Regan USA Today and WSJ bestselling author of the Detective Josie Quinn series. A riveting tale. Library Journal. She wanted the truth. She should have known better. When her sister is found dead in a Baltimore hotel room, reporter Val Ritter's world is turned upside down. An empty pill bottle at the scene leads the police to believe the cause of death is suicide. In 1921, Bridget Wallace, a guest on the brink of womanhood, is getting ready to marry an eligible older man. But what seems like a comfortable match soon takes a dark turn. Does the illustrious history of the stately Franklin hotel hide another lesser-known history of death?

Hare offers a meticulously detailed and poignant autobiography that resonates as a reflective piece of the Victorian era. Readers will find themselves transported to another time, experiencing the life of a unique individual whose narrative is an indelible part of the cultural heritage.

Near Death, Appleman, 2023-08-22 The human race needs to do exactly as it is prescribed in the Bible, as I explain in my book. We need to turn swords into plowshares, and we need to turn all nuclear weapons into AI computerized robots that can maneuver into space and attach any asteroids that might pose a threat to earth. These powerful robots can guide dangerous asteroids into safe orbits so they cannot collide with other asteroids or with earth. According to nuclear physicists, our sun will last another five billion years. Consequentially, we need to guarantee

that our planet earth can last another five billion years as well Most likely man will have developed intergalactic travel in less than one billion years Then we can prove our love of life and our love of our creator by demonstrating to Him and to all fellow inhabitants of our universe a good and peacefully loving example Several years ago a special friend told me All the answers to life are in the Bible Very true you just have to see the rhetorical answers through God s eyes My out of body experience gave me a sneak preview of what God sees 24 7 It was like viewing a live picture show in St Vincent s Chapel I witnessed from above while Dad was pushing my wheelchair up to a statue of the Blessed Virgin Mary in a chapel full of soft enveloping light Then instantaneously my spirit went back into my body Due to the fact that I had eleven days rest and because of temporary amnesia I had forgotten all my problems I felt 100 percent wonderful This day January 3 1967 was the best day of my life However four and a half years later I encountered an even better day On July 2 1971 I met my wife That was my first day in paradise
