Debating Southern History:

Debating Southern History Bruce Clayton, John A. Salmond, 1999 Noted historians Bruce Clayton and John Salmond explore the mind of the new South from the pivotal 1920s to the tempestuous 60s *Reading Southern History* Glenn Feldman, 2001-10-09 This collection of essays examines the contributions of some of the most notable interpreters of American southern history and culture The volume includes 18 chapters on such notable historians as John Hope Franklin Anne Firor Scott and W J Cash *The Southern Debate Over Slavery: Petitions to Southern legislatures, 1778-1864* Loren Schweninger, 2001 A collection of 180 county court petitions designed to offer as broad a selection as possible and include the voices of all participants black and white slave and free slaveholder and non slaveholder male and female **Southern Historical Society Papers** Southern Historical Society, 1886 **The Debate On the American Civil War Era** Hugh Tulloch, 1999 This study is the first to critically survey the changing and highly controversial historical literature surrounding the American Civil War era from contemporary interpretations up to the present The racial question was one of the central causes of the war there was recognition of the need for America to conform wholly to the Declaration of Independence that all men are created equal The book both analyzes historians attitudes and assumptions and suggests that each writer s perspective was partly determined by the dictates of time and place America's Great Debate Fergus M. Bordewich, 2013-04-16 The spellbinding story behind the longest debate in U S Senate history the Compromise of 1850 which brought together Senate luminaries on the eve of the Civil War in a desperate effort to save the Union **The debate on black civil rights in America** Kevern Verney, 2024-01-16 This book examines the historiography of the African American freedom struggle from the 1890s to the present It considers how and why the study of African American history developed from being a marginalized subject in American universities and colleges at the start of the twentieth century to become one of the most extensively researched fields in American history today There is analysis of the changing scholarly interpretations of African American leaders from Booker T Washington through to Barack Obama The impact and significance of the leading civil rights organizations are assessed as well as the white segregationists who opposed them and the civil rights policies of presidential administrations from Woodrow Wilson to Donald Trump The civil rights struggle is also discussed in the context of wider political social and economic changes in the United States and developments in popular culture **Free Black Charlestonians in Debate** Angela G. Ray, 2025-05-15 The comprehensive never before published records of a debating society run by free Black men From 1847 until 1858 when political disadvantages prompted its dissolution the Clonian Debating Society a group of young free Black men met regularly in Charleston South Carolina Reconstruction era leaders such as Henry Cardozo who would serve in the South Carolina legislature and Simeon W Baird who was elected to Georgia s state constitutional convention in 1867 were among its membership Free Black Charlestonians in Debate brings together the Clonian Society s minutes in a comprehensive scholarly edition reuniting the two original handwritten volumes that are now

housed in the collections of the Charleston Library Society and Duke University The annotated transcription is supported by an introduction appendixes summarizing key features of the society s membership and operations recommendations for further reading and an index Made easily accessible for the first time these minutes represent an important piece of Black intellectual history that offers insight into the educational training of young men of the free Black community in pre Civil War Charleston

The White House Looks South William Edward Leuchtenburg,2005 At a time when race class and gender dominate historical writing Leuchtenburg argues that place is no less significant In a period when America is said to be homogenized he shows that sectional distinctions persist And in an era when political history is devalued he demonstrates that government can profoundly affect people s lives and that presidents can be change makers Jacket *Religion and the Antebellum Debate Over Slavery* John R. McKivigan,Mitchell Snay,1998 Essays discuss proslavery arguments in the churches the urge toward compromise and unity the coming of schisms in the various denominations and the role of local conditions in determining policies

The Reconstruction Desegregation Debate Kirt H. Wilson,2022-09-01 In the decade that followed the Civil War two questions dominated political debate To what degree were African Americans now equal to white Americans and how should this equality be implemented in law Although Republicans entertained multiple even contradictory answers to these questions the party committed itself to several civil rights initiatives When Congress passed the Thirteenth Amendment the 1866 Civil Rights Act the Fourteenth Amendment and the Fifteenth Amendment it justified these decisions with a broad egalitarian rhetoric This rhetoric altered congressional culture instituting new norms that made equality not merely an ideal but rather a pragmatic aim for political judgments Kirt Wilson examines Reconstruction s desegregation debate to explain how it represented an important movement in the evolution of U S race relations He outlines how Congress fought to control the scope of black civil rights by contesting the definition of black equality and the expediency and constitutionality of desegregation Wilson explores how the debate over desegregation altered public memory about slavery and the Civil War while simultaneously shaping a political culture that established the trajectory of race relations into the next century

The Slavery Debates, 1952-1990 Robert William Fogel,2003 Fogel chronicles all of these events as well as the emergence of a new generations of intellectual and political historians who questioned the progressive synthesis In addition to reflecting on his own participation in the slavery debates he recalls the contributions of numerous noted historians including Ulrich B Phillips Kenneth Stampp Frederick Jackson Turner Eugene Genovese John Blassingame and Philip D Morgan Based on Fogel s 2001 Walter Lynwood Fleming Lectures in Southern History *The Slavery Debates 1952-1990* is both an enjoyable memoir and an information summary of the literature on the economics of American slavery Supporters and detractors of this brilliant and controversial historian will welcome his valuable glimpse into one of the most interesting chapters of the historical profession

BOOK JACKET *Public Debate in the Civil War Era* David Zarefsky,2023-08-01 Public debate and discussion was overshadowed by the slavery controversy during the period of the U S

Civil War Slavery was attacked defended amplified and mitigated This happened in the halls of Congress the courts the political debate the public platform and the lecture hall This volume examines the issues speakers and venues for this controversy between 1850 and 1877 It combines exploration of the broad contours of controversy with careful analysis of specific speakers and texts Landmark Debates in Congress Stephen W. Stathis,2009 Presents and analyzes numerous pivotal historical debates from the Declaration of Independence to authorizing war with Iraq **The Debate Over Slavery** David F. Ericson,2000-12 Frederick Douglass and George Fitzhugh disagreed on virtually every major issue of the day On slavery women s rights and the preservation of the Union their opinions were diametrically opposed Where Douglass thundered against the evils of slavery Fitzhugh counted its many alleged blessings in ways that would make modern readers cringe What then could the leading abolitionist of the day and the most prominent southern proslavery intellectual possibly have in common According to David F Ericson the answer is as surprising as it is simple liberalism In The Debate Over Slavery David F Ericson makes the controversial argument that despite their many ostensible differences most Northern abolitionists and Southern defenders of slavery shared many common commitments to liberal principles to the nation to the nation s special mission in history and to secular progress He analyzes side by side pro and antislavery thinkers such as Lydia Marie Child Frederick Douglass Wendell Phillips Thomas R Dew and James Fitzhugh to demonstrate the links between their very different ideas and to show how operating from liberal principles they came to such radically different conclusions His raises disturbing questions about liberalism that historians philosophers and political scientists cannot afford to ignore

The Debate on the Trial of the Templars (1307-1314) Helen Nicholson,Paul F. Crawford,Jochen Burgtorf,2016-03-23 Seven hundred years after the dissolution of the order the trial of the Templars still arouses enormous controversy and speculation In October 1307 all the brothers of the military religious order of the Temple in France were arrested on the instructions of King Philip IV and charged with heresy and other crimes In 1312 Pope Clement V at the Council of Vienne dissolved the order Since the 1970s there has been increasing scholarly interest in the trial and a series of books and articles have widened scholars understanding of causes of this notorious affair its course and its aftermath However many gaps in knowledge and understanding remain What were the Templars doing in the months and years before the trial Why did the king of France attack the Order What evidence is there for the Templars guilt What became of the Templars and their property after the end of the Order This book collects together the research of both junior and senior scholars from around the world in order to establish the current state of scholarship and identify areas for new research Individual chapters examine various aspects of the background to the trial the financial political and religious context of the trial in France the value of the Templars testimonies and consider the trial across the whole of Europe from Poland and Cyprus to Ireland and Portugal Rather than trying to close the discussion on the trial of the Templars this book opens a new chapter in the ongoing scholarly debate *Debating Slavery* Mark M. Smith,Economic History Society,1998-12-10 Even while slavery existed

Americans debated slavery Was it a profitable and healthy institution If so for whom The abolition of slavery in 1865 did not end this debate Similar questions concerning the profitability of slavery its impact on masters slaves and nonslaveowners still inform modern historical debates Is the slave South best characterized as a capitalist society Or did its dogged adherence to non wage labor render it precapitalist Today southern slavery is among the most hotly disputed topics in writing on American history With the use of illustrative material and a critical bibliography Dr Smith outlines the main contours of this complex debate summarizes the contending viewpoints and at the same time weighs up the relative importance strengths and weaknesses of the various competing interpretations This book introduces an important topic in American history in a manner which is accessible to students and undergraduates taking courses in American history Dixie Debates Richard H. King, Helen Taylor, 1996 The contemporary American South is a region of economic expansion political sophistication and particularly cultural ferment Its literature is well known and celebrated But what of the popular cultural forms of expression that have done so much to reflect the curious tensions between the traditional South white dominated rural religious and contemporary multicultural forms and discourses This collection offers a wealth of exciting new perspectives on cultural studies in general and of the particular forms of popular Southern culture from rock and roll to Cajun music to the impact on the South of tourism and the questions of genre and race in contemporary film making
