Debo, luego sufro Guadalupe Loaeza, 2000 *Debo, luego sufro* Guadalupe Loaeza, México. Procuraduría Federal del Consumidor, 2011 The Middle Classes in Latin America Mario Barbosa Cruz, A. Ricardo López-Pedrerros, Claudia Stern, 2022-07-13 As a collective effort this volume locates the formation of the middle classes at the core of the histories of Latin America in the last two centuries Featuring scholars from different places across the Americas it is an interdisciplinary contribution to the world histories of the middle classes histories of Latin America and intersectional studies It also engages a larger audience about the importance of the middle classes to understand modernity democracy neoliberalism and decoloniality By including research produced from a variety of Latin American North American and other audiences the volume incorporates trends in social history cultural studies and discursive theory It situates analytical categories of race and gender at the core of class formation This volume seeks to initiate a critical and global conversation concerning the ways in which the analysis of the middle classes provides crucial re readings of how Latin America as a region has historically been understood Waking from the Dream Louise E. Walker, 2013-02-20 When the postwar boom began to dissipate in the late 1960s Mexico's middle classes awoke to a new economically terrifying world And following massacres of students at peaceful protests in 1968 and 1971 one party control of Mexican politics dissipated as well The ruling Institutional Revolutionary Party struggled to recover its legitimacy but instead saw its support begin to erode In the following decades Mexico's middle classes ended up shaping the history of economic and political crisis facilitating the emergence of neo liberalism and the transition to democracy Waking from the Dream tells the story of this profound change from state led development to neo liberalism and from a one party state to electoral democracy It describes the fraught history of these tectonic shifts as politicians and citizens experimented with different strategies to end a series of crises In the first study to dig deeply into the drama of the middle classes in this period Walker shows how the most consequential struggles over Mexico's economy and political system occurred between the middle classes and the ruling party **The Boom Femenino in Mexico** Nuala Finnegan, Jane E. Lavery, 2010-04-16 The Boom Femenino in Mexico Reading Contemporary Women's Writing is a collection of essays that focuses on literary production by women in Mexico over the last three decades In its exploration of the boom femenino phenomenon the book traces the history of the earlier boom in Latin American culture and investigates the implications of the use of the same term in the context of contemporary women's writing from Mexico In this way it engages critically with the cultural historical and literary significance of the term illuminating the concept for a wide range of readers It is clear that the entry of so many women writers into an arena traditionally reserved for men has prompted discussion around concepts such as women's writing and the very definition of literature itself Many of the contributors grapple with the theoretical tensions that such debates provoke offering an important opportunity to think critically about the texts produced during this period and the ways in which they have impacted on the Mexican and international cultural spheres The project is

comprehensive in its scope and for the first time brings together scholars from Mexico the U S and Europe in a transnational forum The book posits that despite certain aesthetic and thematic commonalities the increased output by women writers in Mexico cannot be appraised as a unified literary movement Instead it embraces a wide range of different generic forms and the subjects under study in the essays in the book include the best selling work of Angeles Mastretta Elena Poniatowska and Laura Esquivel as well as the social and political preoccupations of journalists Rosanna Reguillo and Cristina Pacheco Contributors offer readings of the aesthetic visions of writers as diverse as Carmen Boullosa Ana Garc a Bergua and Eve Gil while other essays examine the nuances of contemporary gender identity in the work of Ana Clavel Sabina Berman Brianda Domecq and Mar a Luisa Puga There are essays devoted to poetry by indigenous Mayan women and an analysis of the complex place of poetry within the broader framework of literary production The problems that emerge as a result of literary cataloguing based on gender politics are also considered at length in a number of essays that take a panoramic view of literary production over the period Various critical approaches are employed throughout and the collection as a whole demonstrates that academic interest in Mexican women s writing of the boom femenino is thriving Above all the essays here provide a space in which the location of women within prevailing cultural paradigms in Mexico and their role in the mapping of power in evolving textual canons may be interrogated It is clear from the collection that interest in such issues is still alive and that the debate is far from over
