Debt Shock Darrell Delamaide, 1985      The Collapse of State Socialism Bartolomiej Kaminski, 2014-07-14 Does the abrupt collapse of communist regimes in Eastern Europe arise only from errors in implementing the policy of state socialism leaving the concept itself still a potentially valid one Bartlomiej Kaminski argues to the contrary state socialism is a fundamentally defective idea that was well carried out enabling it to exist until its accumulated shortcomings made its survival extremely difficult How did the flawed state socialist system endure for so long Why is it failing now In answering these questions Kaminski who is both an economist and a political analyst proposes a general theory and then applies it to the case of Poland Contending that the breakdown of state socialism results from symbiosis of the state and the economy the book describes how communist governments searched for tools that would replace the market mechanism and the rule of law Doomed in advance by the absence of autonomy and competition this search generated new crises by undermining the state's capacity to suppress individual interests and to direct the economy Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905      **International Financial System** Ross P. advantage leaves out a number of factors which make economic activities qualitatively different as carriers of economic growth Based on a long intellectual tradition started by the Italian economists Giovanni Botero 1589 and Antonio Serra 1613 and later used in virtually all presently industrialised countries Reinert shows that the country which exports increasing returns goods e g high end manufacture has advantages over the country which exports diminishing returns goods e g commodities This has important implications for today s development strategies that Reinert argues should be seen as industrial strategies

**Groupthink or Deadlock** Paul A. Kowert,2012-02-01 The danger of groupthink is now standard fare in leadership training programs and a widely accepted explanation among political scientists for policy making fiascoes Efforts to avoid groupthink however can lead to an even more serious problem deadlock Groupthink or Deadlock explores these dual problems in the Eisenhower and Reagan administrations and demonstrates how both presidents were capable of learning and consequently changing their policies sometimes dramatically but at the same time doing so in characteristically different ways Kowert points to the need for

leaders to organize their staff in a way that fits their learning and leadership style and allows them to negotiate a path between groupthink and deadlock Future Survey Annual 1984 World Future Society, 1984-06-01 **Images and Behaviour of Private Bank Lending to Developing Countries** Margee M. Ensign, 2010-11-26 The primary questions addressed by this study first published in 1988 focus on how private bankers made decisions on the creditworthiness of developing countries during the 1970s and what the implications of these decision rules are for the developing countries today Based on interviews with senior bankers about their decision rules the author has developed artificial intelligence based simulations of their images of creditworthiness Discussed are contemporary proposals for solving the debt crisis

Whitson, 1988 *Warner Arundell* Edward Lanzer Joseph, 2001 Of all the islands in the Caribbean Trinidad has experienced the most varied ethnocultural and linguistic history Its relatively brief period of plantation slavery and extent of racial mixing have generated a wide range of literary responses Previous examinations of Trinidad's literary roots have largely dismissed works written prior to 1920 The first work in the series is Warner Arundell the Adventures of a Creole originally published in 1838 This was the first novel set at least partly in Trinidad and possibly the first Caribbean novel in English This extremely well written novel provides a good read as it chronicles the adventures of Warner Arundell a white Creole of British descent born in Grenada and brought up in Antigua and Trinidad After being defrauded by lawyers he studies law in Venezuela and medicine in England then goes to seek his fortune After many adventures he is reunited with the coloured branch of his family and his Venezuelan love The originally published novel has been heavily annotated and the contextualized edition of the original text makes it useful to scholars The book is of particular interest to students and faculty of Caribbean literature

**Combating Economic Crimes** Ndiva Kofele-Kale, 2013-03-01 In the last decade a new tool has been developed in the global war against official corruption through the introduction of the offense of illicit enrichment in almost every multilateral anti corruption convention Illicit enrichment is defined in these conventions to include a reverse burden clause which triggers an automatic presumption that any public official found in possession of inexplicable wealth must have acquired it illicitly However the reversal of the burden of proof clauses raises an important human rights issue because they conflict with the accused individual's right to be presumed innocent Unfortunately the recent spate of international legislation against official corruption provides no clear guidelines on how to proceed in balancing the right of the accused to be presumed innocent against the competing right of society to trace and recapture illicitly acquired national wealth Combating Economic Crimes therefore sets out to address what has been left unanswered by these multilateral conventions to wit the level of burden of proof that should be placed on a public official who is accused of illicitly enriching himself from the resources of the State balanced against the protection of legitimate community interests and expectations for a corruption free society The book explores the doctrinal foundations of the right to a presumption of innocence and reviews the basic due process

protections afforded to all accused persons in criminal trials by treaty customary international law and municipal law The book then goes on to propose a framework for balancing and situationalizing competing human rights and public interests in situations involving possible official corruption *Journal of Economic Literature* ,1984 Special Bibliography Series
