Leira-Casti eira, John Sakkas, 2025-09-30 This edited collection examines the violence experienced by non combatants during the civil wars which took place in Europe in the first half of the twentieth century The determinants of violence in civil wars are highly complex and variable By focusing on both the victims and perpetrators of violence in eight European countries including Russia Ireland France and Spain the book explores what happened when differing groups within a polity clashed and in which ways internal conflicts manifested themselves and permeated societies Divided into two parts the chapters firstly identify and analyse how rearguard violence was produced and exercised during the European civil wars and secondly they examine the violence perpetrated by and against women Shedding light on the violence that was inflicted upon European civilians in the early to mid twentieth century this book presents insights for historians of Europe political scientists and international relations scholars alike     Culture and Crisis Nina Witoszek, Lars Tr g r d h, 2002 It is often argued that Germany and Scandinavia stand at two opposite ends of a spectrum with regard to their response to social economic disruptions and cultural challenges Though in many respects they have a shared cultural inheritance it is nevertheless the case that they mobilize different mythologies and different modes of coping when faced with

breakdown and disorder The authors argue that it is at these critical junctures points of crisis and innovation in the life of communities that the tradition and identity of national and local communities are formed polarized and revalued it is here that social change takes a particular direction *Languages of Resistance, Transformation, and Futurity in Mediterranean Crisis-Scapes* Maria Boletsi,Janna Houwen,Liesbeth Minnaard,2020-09-01 This collection rethinks crisis in relation to critique through the prism of various declared crises in the Mediterranean the refugee crisis the Eurozone crisis the Greek debt crisis the Arab Spring the Palestinian question and others With contributions from cultural literary film and migration studies and sociology this book shifts attention from Europe to the Mediterranean as a site not only of intersecting crises but a breeding ground for new cultures of critique visions of futurity and radical imaginaries shaped through or against frameworks of crisis If crisis rhetoric today serves populist xenophobic or anti democratic agendas can the concept crisis still do the work of critique or partake in transformative languages by scholars artists and activists Or should we forge different vocabularies to understand present realities This collection explores alternative mobilizations of crisis and forms of art cinema literature and cultural practices across the Mediterranean that disengage from dominant crisis narratives Chapter 1 is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com) *Crisis and Class War in Egypt* Sean F. McMahon,2016-10-15 In 2011 capital s crisis erupted in Egyptian society This eruption and subsequent politics have been misrepresented as revolutionary as the working class was and is increasingly so devalued and disempowered In *Crisis and Class War in Egypt* Sean F McMahon critically analyses Egypt s recent political history He argues that the so called revolution was the appearance of capital s destruction of the value of the Egyptian working class and an existential crisis for capital In response productive capital in the form of the military used disposed of and replaced its junior partners in governing first the predatory capital of the Mubarak state with the commodity capital of the Muslim Brotherhood and then commodity capital with the finance capital of the Gulf Cooperation Council These reconfigurations have been expressed in all manner of reactionary governmental arrangements including constitutions legislation and currency reform Extending today s analysis into the near future McMahon sees the war of Egyptian society intensifying and increasingly violent lives for Egyptian workers **European Approaches to Crisis Management** Knud Erik Jørgensen,2023-12-11 This book presents an up to date scholarly analysis of European crisis management during the 1990s and is one of the first books to summarize European experiences in the field of peacekeeping and crisis management With the help of eight case studies the authors explore how European governments have responded to international crises The book also contains in depth studies on key concepts like humanitarian intervention military doctrine and Petersberg tasks The book describes Europe s increasing responsibility for the proper functioning of international society It points to a pronounced move to collective action and highlights Europe s political and military adaptation to the post Cold War strategic environment The authors detect an ever stronger belief in the use of military power and thereby the contours of an emerging

**The New Twenty Years' Crisis** Philip Cunliffe, 2020-09-01 The liberal order is decaying Will it survive and if not what will replace it On the eightieth anniversary of the publication of E H Carr's *The Twenty Years Crisis 1919 1939* Philip Cunliffe revisits this classic text juxtaposing its claims with contemporary debates on the rise and fall of the liberal international order The *New Twenty Years Crisis* reveals that the liberal international order experienced a twenty year cycle of decline from 1999 to 2019 In contrast to claims that the order has been undermined by authoritarian challengers Cunliffe argues that the primary drivers of the crisis are internal He shows that the heavily ideological international relations theory that has developed since the end of the Cold War is clouded by utopianism replacing analysis with aspiration and expressing the interests of power rather than explaining its functioning As a result a growing tendency to discount political alternatives has made us less able to adapt to political change In search of a solution this book argues that breaking through the current impasse will require not only dissolving the new forms of utopianism but also pushing past the fear that the twenty first century will repeat the mistakes of the twentieth Only then can we finally escape the twenty years crisis By reflecting on Carr's foundational work *The New Twenty Years Crisis* offers an opportunity to take stock of the current state of international order and international relations theory

**Global Transformations of the 21st Century** Sergey Bodrunov, 2026-01-22 This new volume articulates the most striking and interesting points of view of scientists from different countries on current issues of socioeconomic development The volume discusses the basic methodology of applying the noonomy approach not only to the analysis of the modern socioeconomic system but also to forecasting the prospects for its transformation and long term development drawing attention to the fact that it is knowledge and not scientific and technological progress per se that is the deep engine driving humanity society and civilization forward At the same time the theory conjectures the long term development of society must have a humanistic content therefore inevitably along with socioeconomic transformations changes in humans themselves should be expected The theoretical aspects and basic postulates as well as the applied tools for measuring and managing quality in economics at all levels are explored discussing the current stage of socioeconomic development in accordance with dialectical concepts of development accompanied by the transition of accumulated quantitative changes into qualitative ones

**The 20th Century** Vittorio Giudici, 1999 This fascinating survey divides the century into four periods First is 1900 1914 1914 1945 dominated by two world wars 1945 1970 and 1970 to the present

*The Changing Agenda of Israeli Sociology* Uri Ram, 2012-02-01 This study explores the changing agenda of Israeli sociology by linking content with context and by offering a historically informed critique of sociology as a theory and as a

social institution It examines on the one hand the general theoretical perspectives brought to bear upon sociological studies of Israel and on the other the particular social and ideological persuasions with which these studies are imbued Ram shows how the agenda of Israeli sociology has changed in correlation with major political transformations in Israel the long term hegemony of the Labor Movement up to the 1967 war the crisis of the labor regime following the 1973 war and the ascendance of the right wing to governmental power in 1977 Three stages in Israeli sociology corresponding to these political transformations are identified the domination of a functionalist school from the 1950s to the 1970s a crisis in the mid 1970s and the profusion of alternative and competing perspectives since the late 1970s Ram concludes with a plea for a new sociological agenda that would shift the focus from nation building to democratic and egalitarian citizenship formation This book offers the first systematic and comprehensive overview of sociological thought in Israel and by doing so offers a unique interpretation of the social and intellectual history of Israel Critical Companion to Contemporary Marxism ,2007-12-31

The Critical Companion to Contemporary Marxism is an international and interdisciplinary volume which aims to provide a thorough and precise panorama of recent developments in Marxist theory in the US Europe Asia and beyond Drawing on the work of thirty of the most authoritative scholars the Companion spans all the humanities and social sciences with particular emphasis on philosophy The work is divided into three parts General Trends which provides a broad intellectual and historical context Currents which tracks the trajectories of twenty specific currents or disciplinary fields and Figures which examines in detail the work of fifteen key actors of Marxist or para Marxist theory Adorno Althusser Badiou Benjamin Bhaskar Bourdieu Deleuze Derrida Foucault Gramsci Habermas Jameson Lefebvre Uno Williams The Companion is set to be unsurpassed for many years in breadth and depth as the definitive guide to contemporary Marxism Wanted Eduardo Fernandez-Arias,Ricardo Hausmann,2000 This volume examines issues discussed at two Inter American Development Bank conferences Crisis and Contagion in Emerging Financial Markets The New Policy Agenda and New Initiatives to Tackle International Financial Turmoil Parameters ,2014 *Thinkers of the Twenty Years' Crisis : Inter-War Idealism Reassessed* David Long,Peter Wilson,1995-12-14 This book reassesses the contribution to international thought of some of the most important thinkers of the inter war period It takes as its starting point E H Carr s famous critique which more than any other work established the reputation of the period as the utopian or idealist phase of international relations theorizing This characterization of inter war thought is scrutinized through ten detailed studies of such writers as Norman Angell J A Hobson J M Keynes David Mitrany and Alfred Zimmern The studies demonstrate the diversity of perspectives within idealism and call into question the descriptive and analytical value of the entire notion It is concluded that idealism is an overly general term useful for scoring debating points rather than providing a helpful category for analysis *Remaking Central Europe* Peter Becker,Natasha Wheatley,2020 In the past few decades the understanding of the relationship between nations has undergone a radical transformation The role of the traditional nation state is diminishing along with many of the

traditional vocabularies which were once used to describe what has been called ever since Jeremy Bentham coined the phrase in 1780 international law The older boundaries between states are growing ever more fluid new conceptions and new languages have emerged which are slowly coming to replace the image of a world of sovereign independent nation states that has dominated the study of international relations since the early nineteenth century This redefinition of the international arena demands a new understanding of classical and contemporary questions in international and legal theories It is the editors conviction that the best way to achieve this is by bridging the traditional divide between international legal theory intellectual history and legal and political history The aim of the series therefore is to provide a forum for historical studies from classical antiquity to the twenty first century that are theoretically informed and for philosophical work that is historically conscious in the hope that a new vision of the rapidly evolving international world its past and its possible future may emerge Book jacket
