Decencia De La Desigualdad La:

La decencia de la desigualdad Kristi Anne Stølen, 2004 **Mujeres indígenas en la Argentina** Silvia María Hirsch, Guadalupe Barúa, 2008 Los capítulos de este libro ejemplifican una variedad de orientaciones y enfoques en temas referentes a las mujeres indígenas. Un punto en común en todos ellos es que están basados en trabajo de campo etnográfico: es decir, que los autores han recopilado de manera directa los datos en comunidades indígenas del país. Por ello se fundamentan en el pensamiento, las prácticas y las expresiones de las mujeres mismas. Las temáticas abordadas incluyen los procesos de socialización, la construcción cultural de lo femenino, la reproducción y los rituales de iniciación de las mujeres, la gestación, el espacio doméstico, el trabajo femenino y la maternidad. Con este trabajo se procura estimular el desarrollo del estudio del género en comunidades indígenas y abrir el campo a nuevas líneas de investigación teóricas y empíricas. Hay una profunda deuda histórica con las mujeres indígenas a las que es necesario darles voz y presencia. A partir de este libro se espera comenzar a saldar esa deuda y dar una mayor visibilidad a sus voces y sus vidas. *Familia, descendencia y patrimonio en España e Hispanoamérica* Nora Siegrist de Gentile, Hilda Raquel Zapico, 2010 **La descendencia del hombre y la selección en relación al sexo** Charles Darwin, 1885 *El sostén de la vida* Franco Patiño, Sandra Milena, 2022-10-12 Los debates políticos y la producción académica en torno a los cuidados han crecido vertiginosamente en las últimas décadas. La economía del cuidado, los trabajos de cuidado, los sistemas nacionales de cuidado son las corrientes teóricas de mayor desarrollo. Este libro de investigación se inscribe en dichas discusiones y aporta una perspectiva novedosa al plantear que los procesos de alimentación familiar constituyen trabajos de cuidado. La novedad está dada por al menos cuatro cuestiones. Primero, abordar los cuidados en perspectiva relacional colectiva con carácter interdependiente, aspecto que problematiza la categoría de dependencia de la gran mayoría de análisis. Segundo, estudiar el proceso de alimentar una familia desde el acceso a los alimentos, su conservación, preparación, consumo y desecho de sobras como trabajo de cuidados, en el que se ofrecen evidencias empíricas para entender las lógicas, el tipo y la naturaleza distintiva de los trabajos que constituyen el hecho alimentario más allá de las categorías con las que la economía clásica ha conceptualizado los trabajos productivos. Tercero, examinar el acto alimentario desde un enfoque de género para reconocer la manera como las ideologías y las prácticas de los sistemas sexo-generacionales sostienen desigualdades sociales en relación con un proceso social tan importante para el sostén de la vida humana, de la vida familiar y de la vida social como lo es el acto alimentario, aspecto escasamente explorado en los análisis nutricionales predominantes en materia alimentaria. Cuarto y último, aspecto: analizar el proceso de alimentación en familias rurales de economía campesina para develar las prácticas alimentarias que tienen lugar en un contexto que se supone es el escenario fundamental de producción de alimentos y aportar a los estudios sobre la ruralidad, escasamente abordados por las teorías feministas. *Latin American Extractivism* Steve Ellner, 2020-12-07 This cutting edge book presents a broad picture of global capitalism and extractivism in contemporary Latin America. Leading scholars examine

the cultural patterns involving gender ethnicity and class that lie behind protests in opposition to extractivist projects and the contrast in responses from state actors to those movements

Curso urgente de política para gente decente Juan Carlos Monedero, 2013 Atento al sistema global del que dependemos desde el análisis de los errores del pasado e indagando en una realidad incómoda Juan Carlos Monedero desnuda los términos del debate social y propone un diálogo abierto para repensar el modelo de sociedad No hay salida individual y no hay otra autoayuda que la colectiva Y la autoayuda colectiva se llama política y nos pertenece Hay que visualizar entre todos los horizontes concretos para sacar a la luz los caminos de la vida decente

Seeds of Power Amalia Leguizamón, 2020-09-11 In 1996 Argentina adopted genetically modified GM soybeans as a central part of its national development strategy Today Argentina is the third largest global grower and exporter of GM crops Its soybeans which have been modified to tolerate being sprayed with herbicides now cover half of the country's arable land and represent a third of its total exports While soy has brought about modernization and economic growth it has also created tremendous social and ecological harm rural displacement concentration of landownership food insecurity deforestation violence and the negative health effects of toxic agrochemical exposure In Seeds of Power Amalia Leguizamón explores why Argentines largely support GM soy despite the widespread damage it creates She reveals how agribusiness the state and their allies in the media and sciences deploy narratives of economic redistribution scientific expertise and national identity as a way to elicit compliance among the country's most vulnerable rural residents In this way Leguizamón demonstrates that GM soy operates as a tool of power to obtain consent to legitimate injustice and to quell potential dissent in the face of environmental and social violence

Dignidad humana e inclusión laboral César Alveiro Montoya Agudelo, Jhon Jaime Arango Benjumea, Pastor Emilio Pérez Villa, Yarmin Lorena Taborda Morales, Ana Cristina Ortega Barro, 2024-01-25 Este libro es el resultado de la investigación INV3081 titulada La discriminación laboral como factor de riesgo para la sostenibilidad del trabajo digno o decente la cual ha sido financiada por la Universidad Cooperativa de Colombia y liderada por el grupo de investigación en Gestión y Desarrollo Organizacional gdo de la seccional Medellín Para el desarrollo de esta investigación se contó con la participación como coinvestigadores de profesores de la Fundación Universitaria CEIPA y de la Facultad de Contaduría y Administración de la Universidad Autónoma de México Este trabajo tiene como objetivo principal presentar a los lectores un análisis de los diferentes tipos de discriminación que existen a nivel laboral como factor de riesgo para la sostenibilidad del trabajo digno o decente Es por ello que a lo largo de este texto los lectores podrán identificar cada uno de los elementos que hacen parte de la discriminación en el ámbito organizacional Este es un trabajo que se ha realizado a partir de una metodología mixta que lleva a la búsqueda de información en una base de datos especializada en tipos de discriminación específicamente en el ambiente de trabajo Asimismo se diseñó y aplicó un instrumento con preguntas cerradas las cuales se enfocaron en conocer la percepción de los participantes en aspectos fundamentales centrados en la discriminación laboral y cómo esta es un impedimento para la generación de un trabajo decente Se concluye

que nadie ha estado o estar libre de manera directa o indirecta de recibir alguna acción relacionada con la exclusión laboral a pesar de la evolución que ha tenido la no discriminación en el campo laboral **Los encantos del poder** Marc Abélès, Máximo Badaró, 2019-11-20 El poder encanta y la antropología no ha sido inmune a sus efectos cautivantes. A lo largo de su historia esta disciplina ha brindado relatos pormenorizados de las múltiples expresiones del poder en diferentes sociedades y culturas. Pero muchas veces ha quedado atrapada en visiones esquemáticas como si entre los todopoderosos y los desposeídos entre el Estado como encarnación de las instituciones políticas modernas y la dominación y las comunidades como encarnación de las tradiciones, los valores morales y la lógica alternativa de la resistencia no hubiera zonas grises, contradicciones, sorpresas. El punto de partida de este libro es la convicción de que la antropología puede ayudarnos a repensar la vida política actual de una manera renovada renunciando a las visiones idealizadas del poder. Para eso los autores retoman conceptos y aportes centrales de Gilles Deleuze, Félix Guattari y Pierre Clastres, así como de Jacques Rancière, pero sobre todo se apoyan en su propio trabajo etnográfico en la Asamblea Nacional francesa, en la Organización Mundial del Comercio o en el Ejército argentino. Así demuestran por ejemplo que quienes ocupan espacios de poder como los funcionarios de los organismos internacionales a veces están inhabilitados para tomar decisiones restringidos por un sistema férreo de diplomática, vigilancia y en el otro extremo quienes presuntamente representan una posición subalterna como las mujeres dentro del ejército con frecuencia están muy lejos de identificarse con esas posiciones o de actuar como víctimas pasivas. Discusión teórica y hallazgos empíricos se conjugan en un libro original que apuesta al potencial del trabajo etnográfico para revisar las nociones de Estado, dominación, legitimidad, subordinación y agencia. Y para sentar bases sólidas que permitan comprender cómo circula el poder, cómo se gestiona y se pone en escena, cómo se esconde o se afirma en las sociedades actuales. **El Trabajo Decente**

Puntos de Vista Filosóficos Y Espirituales Dominique Peccoud, 2006 Refleja los valores en los que se basa el Programa de Trabajo Decente de la OIT y ofrece un espacio de expresión a colaboradores de diferentes tradiciones y pensamientos humanistas, filosóficos, espirituales y religiosos que les permite exponer su punto de vista sobre lo que significa el trabajo en todos los niveles de la sociedad, desde la persona individual hasta la comunidad en su conjunto. Se han explorado tanto los valores comunes y universales como los focos de discrepancia con el fin de aclarar más el concepto de trabajo decente.

Anuario de estudios en antropología social, 2004 **Desigualdades: tolerancia, legitimación y conflicto en las sociedades latinoamericanas** Mayarí Castillo Gallardo, Claudia Maldonado Graus, 2024-10-01 Desigualdad, legitimidad, tolerancia y conflicto son términos de gran complejidad, teórica y de larga trayectoria en el pensamiento social. Como pocos poseen una variedad de acepciones que muchas veces resultan difíciles de ubicar y trabajar. Esta obra recopila una serie de ensayos destinados a comprender dichos términos en relación a las diversas sociedades latinoamericanas que conviven en el territorio con el objetivo de discutir a través de esas miradas el panorama pasado, actual y futuro que presentan. El lector podrá conocer las principales trayectorias de estos conceptos, su complejidad teórica, las relaciones entre ellos, su presencia en

diferentes pa ses de la regi n entre otros puntos de suma importancia para comprender y situar la problem tica Adem s de tocar temas como la desigualdad etnicidad o justicia social en casos espec ficos alrededor de las distintas culturas existentes en Latinoam rica
