Decent Interval An Insiders Account Of S:

Parameters ,1988 **Covert Capital** Andrew Friedman,2013-08-03 The capital of the U S Empire after World War II was not a city It was an American suburb In this innovative and timely history Andrew Friedman chronicles how the CIA and other national security institutions created a U S imperial home front in the suburbs of Northern Virginia In this covert capital the suburban landscape provided a cover for the workings of U S imperial power which shaped domestic suburban life The Pentagon and the CIA built two of the largest office buildings in the country there during and after the war that anchored a new imperial culture and social world As the U S expanded its power abroad by developing roads embassies and villages its subjects also arrived in the covert capital as real estate agents homeowners builders and landscapers who constructed spaces and living monuments that both nurtured and critiqued postwar U S foreign policy Tracing the relationships among American agents and the migrants from Vietnam El Salvador Iran and elsewhere who settled in the southwestern suburbs of D C Friedman tells the story of a place that recasts ideas about U S immigration citizenship nationalism global interconnection and ethical responsibility from the post WW2 period to the present Opening a new window onto the intertwined history of the American suburbs and U S foreign policy *Covert Capital* will also give readers a broad interdisciplinary and often surprising understanding of how U S domestic and global histories intersect in many contexts and at many scales *American Crossroads* 37 **Intelligence Studies in Britain and the US** Christopher R. Moran,2013-03-31 The first introduction to writing about intelligence and intelligence services Secrecy has never stopped people from writing about intelligence From memoirs and academic texts to conspiracy laden exposes and spy novels writing on intelligence abounds Now this new account uncovers intelligence historiography s hugely important role in shaping popular understandings and the social memory of intelligence In this first introduction to these official and unofficial histories a range of leading contributors narrate and interpret the development of intelligence studies as a discipline Each chapter showcases new archival material looking at a particular book or series of books and considering issues of production censorship representation and reception **Vietnam War Refugees in Guam** Nghia M. Vo,2022-04-06 More than 130 000 South Vietnamese fled their homeland at the end of the Vietnam War Tens of thousands landed on the island of Guam on their way to the U S Many remained there Guamanians and U S military personnel welcomed them Funded by a 405 million Congressional appropriation Operation New Life was among the most intensive humanitarian efforts ever accomplished by the U S government with the help of the people of Guam Without it many evacuees would have died somewhere in the Pacific Ocean This book chronicles a part of the first mass migration of Vietnamese boat people before and after the fall of Saigon in April 1975 a story still unfolding almost half a century later *U.S. Foreign Policy in Perspective* David Sylvan,Stephen Majeski,2009-02-05 What is the long term nature of American foreign policy This new book refutes the claim that it has varied considerably across time and space arguing that key policies have been remarkably stable over the last hundred years

not in terms of ends but of means Closely examining US foreign policy past and present David Sylvan and Stephen Majeski draw on a wealth of historical and contemporary cases to show how the US has had a client state empire for at least a century They clearly illustrate how much of American policy revolves around acquiring clients maintaining clients and engaging in hostile policies against enemies deemed to threaten them representing a peculiarly American form of imperialism They also reveal how clientilism informs apparently disparate activities in different geographical regions and operates via a specific range of policy instruments showing predictable variation in the use of these instruments With a broad range of cases from US policy in the Caribbean and Central America after the Spanish American War to the origins of the Marshall Plan and NATO to economic bailouts and covert operations and to military interventions in South Vietnam Kosovo and Iraq this important book will be of great interest to students and researchers of US foreign policy security studies history and international relations This book has a dedicated website at www.usforeignpolicy.org featuring additional case studies and data sets

The Sacred Willow Mai Elliott, 1999-04-08 A finalist for the Pulitzer Prize Duong Van Mai Elliott s *The Sacred Willow* illuminates recent Vietnamese history by weaving together the stories of the lives of four generations of her family Beginning with her great grandfather who rose from rural poverty to become an influential landowner and continuing to the present Mai Elliott traces her family s journey through an era of tumultuous change She tells us of childhood hours in her grandmother s silk shop and of hiding while French troops torched her village watching while blossoms torn by fire from the trees flutter like hundreds of butterflies overhead She makes clear the agonizing choices that split Vietnamese families her eldest sister left her staunchly anti communist home to join the Viet Minh and spent months sleeping in jungle camps with her infant son fearing air raids by day and tigers by night And she follows several family members through the last desperate hours of the fall of Saigon including one nephew who tried to escape by grabbing the skid of a departing American helicopter Based on family papers dozens of interviews and a wealth of other research this is not only a memorable family saga but a record of how the Vietnamese themselves have experienced their times

The Sacred Willow Duong Van Mai Elliott, 1999-04-08 The author tells the story of four generations of her family from the nineteenth century through the 1990s

Act of 1917 as the most important yet least understood law threatening freedom of the press in modern American history It details government use of the Act to control information about U S military and foreign policy during the two World Wars the Cold War and the War on Terror The Act has provided cover for the settling of political scores illegal break ins and prosecutorial misconduct

Between a River and a Mountain Edmund F. Wehrle, 2005-12 *Between a River and a Mountain* details American labor's surprisingly complex relationship to the American war in Vietnam Breaking from the simplistic story of hard hat patriotism Wehrle uses newly released archival material to demonstrate the AFL CIO's continuing dedication to social political and economic reform in Vietnam The complex sometimes turbulent relationship between American union leaders and their counterparts in the Vietnamese Confederation of Labor known as the CVT led to dangerous political compromises the AFL CIO eventually accepted much needed support for their Vietnamese activities from the CIA while the CVT's need to sustain their relationship with the Americans lured them into entanglements with a succession of corrupt Saigon governments Although the story's endpoint the painfully divided and weakened labor movement of the 1970s may be familiar Wehrle offers an entirely new understanding of the historical forces leading up to that decline unraveling his story with considerable sophistication and narrative skill Stunning in its research and sophisticated in its analysis *Between a River and a Mountain* is one of the best studies we have of labor and the Vietnam War Robert K Brigham Shirley Ecker Boskey Professor of History and International Relations Vassar College Skillfully blending diplomatic and labor history Wehrle's book is a valuable contribution to the ever widening literature on the Vietnam War George Herring University of Kentucky Wehrle has written a compelling and original study of the AFL CIO the South Vietnamese labor movement and the Vietnam War Judith Stein Professor of History City College and Graduate School of the City University of New York With this important book Edmund Wehrle gives us the first full fledged scholarly examination of organized labor's relationship to the Vietnam War Based on deep research in U S and foreign archives and presented in clear and graceful prose *Between a River and a Mountain* adds a great deal to our understanding of how the AFL CIO approached the war and in turn was fundamentally altered by its staunch support for Americanization Nor is it merely an American story that Wehrle tells for he also presents fascinating information on the Vietnamese Confederation of Labor and its sometimes strained relations with U S labor Fredrik Logevall Cornell University Edmund F Wehrle is Assistant Professor of History Eastern Illinois University

The Presidency of Richard Nixon Melvin Small, 1999 A lively anecdotal account features every facet of Nixon's controversial administration just in time for the 25th anniversary of his history making resignation from the presidency 23 photos

Of Spies and Lies John F. Sullivan, 2002 John Sullivan was one of the CIA's top polygraph examiners during the final four years of the war in Vietnam where he served longer and conducted more lie detector tests than any other examiner and worked with more agents than most of his colleagues His job was to evaluate the reliability of the agency's information sources an assignment that gave him a more intimate view of the war than was afforded most other participants

Congress and the Fall of South Vietnam and Cambodia P. Edward Haley, 1982 This book offers an original interpretation of the effect of legislative executive relations on the war in Indochina and proposes a number of methods that might be used to build widespread support for American foreign policy
